ASHEVILLE DAILY CITIZEN By RANDOLPH-KERR PRINTING CO.

MONDAY, APRIL 18, 1892.

JACK CAMPBELL made a rousing rallying speech at the club meeting Saturday night, and it he can have a cast iron throat put in that will stand the wear convention. and tear of such high-keyed oratory, he will draw the blood from many republican stumpers before the campaign is

H. A. GUDGER sustained the reputation he has established in every part of North Carolina as one of the most effective stumpers in the democratic ranks by his effort Saturday night. And he divided his time while on his feet, at that, in order to allow Judge Merrimon ample time to deliver his splendid speech.

Ir any man in Asheville thinks that Grover Cleveland has lost any of his grip on the public heart in Asheville, the meeting in the court house Saturday night must have convinced him of his error. Grover Cleveland is honest, and every man, democrat and republican alike, acknowledges the fact, and Asheville democrats instinctively love honesty.

WHEN the bugle notes sound the old war horse forgets the physical weakness the years have wrought, and his eyes fire up and the martial spirit blazes anew in his veins. And so it is with those men who have been in the thick of the fight politically in days gone by, but whose gray hairs and failing strength tell them that the "three score years and ten" are behind them. So it was with Col. A. T. Davidson Saturday night. The spirit of his youth came back at the sound of the first gun, and he made a splendid talk.

THE speech of Judge James H. Merrimon at the court house Saturday night could hardly have been improved upon the occasion and the object had in view considered. It was emphatically a "recurrence to first principles." It was a forceful and accurate statement of the fundamental doctrines of democracy. It was the kind of public speech much needed in these days when many people months. We are in no hurry, and intend to wait until after the other parthink that all the difference existing be tween the two great political parties o the United States is the offices and patronage to be distributed by the party in fied the St. Louis platform and adopted power. It was the right kind of a a resolution unanimously that it will speech rightly spoken.

Cleveland Will Be Nominated. From an interview with Ex-Secretary Whitney.

"Mr. Cleveland raised the standard under which the hosts of the democracy stands and they look to him as their leader. It is not disparaging other men to say that he is the great national figure at this moment in the democratic Marion Butler, the president of the party, the legitimate national leader of white farmers' alliance, had addressed the present live, active forces that control the movements of the party.

'Now write that out for what it worth. Mark what I say, Cleveland will be nominated and elected. All these people who get abused because they don't interview for him are friendly to thusiastic in Tammany Hall last Octo ber as those that went up for Cleveland. Ask McMillan, of Tennessee. He spoke in Tammany Hall. It isn't any reflec-tion upon Gov. Hill or any other candidate. The issue necessarily determines the candidate. That is all there is of it."

Build Roads With Convict Labor. From the Altoona Tribune.

While light is breaking upon the road question a good many of the farmers re- Larking, sparking gard it with suspicion. They are afraid of the cost. But they ought to know that there is an economy which leads to waste. Bad roads are the most expenwaste. Bad folds are the most expen-sive luxury in which any people can in-dulge. They wear out horses, destroy wagons, make half loads imperative, wasting time and shortening the lives of both man and beast. Farmers who are constantly compelled to make use of the miserable apologies for roads which are the rule in this country ought to be able to see that the most profitable invest ment they could make would be to put into the improvement of these roads a sum sufficient to make them really ser- dered his brother and three other per-

We aimed at the stars, but only reached the fire-fly. We longed to bathe the honest-plumed pinions of loftiest endeavor amid the twinkling corruscations of the siderial constellations of aims fulfilled as they stood out full-bossomed with the rich blaze of their own eternity of splendor and of glory; but we only found the fitful flicker of those phospho-rescent gleamings as seen in the bogs and swamps of failure and shortcom-

STATE POLITICS. _

At the Wake county alliance meeting at Apex Friday the St. Louis platform was endorsed unanimously. President Marion Butler and State Business Agent alliance is the largest in the state and of one of the most influential.

democrats in Central North Carolina. At this there was a burst of applause rom the negroes.

The Edgecombe county, alliance has adopted the St. Louis platform by an overwhelming majority.

Despite the expressed wish of Secretary Foster that no revenue officers or persons holding commissions should be delegates at the national convention, Collector White, of Raleigh revenue district, and Collector of Customs Dancy, of Wilmington, will go.

The Wilson county alliance met at at that place. The St. Louis platform represented Wilson in the senate of the last general assembly, was elected a delegate to meet President Marion Butler in Raleigh on May 17th. Dr. Freeman is considered as an extremist of the most ultra type. About 350 alliancemen were present at the meeting.

The Halifax county alliance met in regular quarterly meeting at Scotland Neck Friday. Ex-representative T. H. Taylor, who is a prominent allianceman remarked that there is no danger of a third party in that county, and that seemed to be the general opinion. The allince, however, elected Mr. J. A. White, a third party man, the special delegate from that county to meet Mr. Butler.

ASHEVILLE, N. C., March 28, 1892.

The Asheville Tobacco Works and Cigarette Company, a corporation created under the laws of North Carolina, was organized on March 23, 1892, for the manufacture of plug, smoking tobacco and cigarettes. The above company has bought out "The Asheville Tobacco Works," which has done a prosperous business for the last three years with an ever increasing trade, and now has a surplus of \$2,398.97. The dividends for the past three years amounted to 40 per cent, on the paid up capital, that is, 13½ per cent, per annum. This stock company has obtained control of the only cigarette machine in America outside of the cigarette trust, namely. The American Tobacco Company.

The profit in machine-made cigarettes is large, varying from about fifty to one hundred per cent. The business is practically cash, as cigarettes are sold for cash or on short time. The Asheville Tobacco Works and Cigarette Company sell all the cigarettes they make at a handsome profit. Offers have come from responsible parties to take the whole output. The present capacity is 144,400 in ten hours with one machine. Another machine has been ordered. The cost of making 1,000 cigarettes is as follows:
