They Will Pick Their Flints and

Try Again.

WASHINGTON, May 7.—Another

contest over the silver question is

threatened in the house. Mr. Bland

has introduced a bill to force the

committee on rules to bring in a

report on the prompt consideration

of a free coinage bill. Their

movements have been kept very

quiet since the defeat of their

bill, but they have not been idle.

The anti-silver men imagine that

Mr. Bland and his supporters have

been holding frequent conferences

with free silver senators at

various intervals during the

last few weeks for nothing they

are very much mistaken.

After the fight in March, Speaker

Crisp decided that he would not

allow a cloture rule to be introduced

to bring the silver bill to a vote

unless a majority of the

democratic members of the

house signed a petition to that

effect. Mr. Bland and his

lieutenants, Mr. Pierce of

Tennessee, made an effort to

secure the requisite number of

names. Several days were

spent in passing the petition

around, but only thirty signatures

were obtained, and therefore the

petition was apparently abandoned.

During the past few days Mr.

Pierce has started a new

petition in circulation in which

he asks the committee on rules

to bring in a rule fixing a date

for a vote on the Bland silver

BAPTISTS AT ATLANTA.

BREZY DISCUSSION OVER THE RACE QUESTION

A South Carolina Divine Says the

Negro is Going to the Dogs and

the Devil—What Georgia is Doing

for the Colored Man

ATLANTA, Ga., May 10.—The Southern

Baptist convention has elected delegates

to the centennial to take place in Philadelphia

on the 24th, 25th and 26th insts.

The special committee on financial

methods, appointed a year ago, made

its report through Dr. Kilpatrick. The

committee recommended that upon

the adjournment of the convention the

home and foreign mission boards each

make an appropriation among the states,

giving the money needed for next year

that the state board be requested to

ratify or modify these appropriations

and on a basis of these recommendations

the two boards shall conduct their

operations next year, that the state

board sub-divide the appropriation among

associations and further sub-divide it

among churches; that the board seek

more earnestly to enlist the pastors

of churches in the work; that they seek

to know the pastors and get them to

hold meetings for the purpose of educating

the people in the work of missions. The

report was adopted.

Sunday school work was discussed

at length in all its bearings.

The meeting of the amount of Louisville

was held with H. A. Tupper, jr., D.

P., in the chair. They passed a resolution

to raise \$100,000 for endowment.

Dr. Tupper was elected trustee of the

seminary for Maryland.

At the afternoon session of the

convention there was a breezy discussion

of the race question.

Rev. Dr. Brown, of South Carolina, of

the committee to whom the home mis-

sion board's report had been referred,

brought in a report saying that if the

Baptists are held accountable for the

treatment of the negroes the home

mission board's report would be damning

evidence against them at the last great

assize. Dr. Brown reviewed with

biting sarcasm the board's reference to

the fact that slavery had christianized

the negroes and the southern state gov-

ernments were doing much to educate

them. He closed by saying the negroes

are going to the dogs and the devil.

Dr. J. Hawthorne, of the First Baptist

church, replied by saying that this was

the first sign of discord in the

convention. As to slavery christianizing

the negroes, Dr. Brown was the first

southern man to deny that the negroes

came here barbarians and were

largely civilized and christianized

by the time of emancipation. Dr.

Hawthorne asserted that the

southern white people had less

prejudice against the negroes than

any people on earth. Dr. Brown's

statement that they were going to

the dogs and the devil showed him

to be full of race prejudice than

any man he knew.

Dr. Hawthorne said the state of

Georgia was doing more for the

education of negroes than for the

education of the white people. In

defense of the home mission

board he said it had sixty mis-

sionaries now among the negroes of

the South. The convention will

meet at Nashville next year.

THE SILVER MEN.

They Will Pick Their Flints and

Try Again.

LESS COTTON PLANTED.

Just How Much Less Than Last

Year 'Tis Difficult To Ascertain.

WASHINGTON, May 10.—The May

returns to the department of agriculture

report delay in the work of cotton plant-

ing, from the low temperature, from

drought in many districts, and in some

excess of rain. Germination is arrested

and the plants start slowly. Some re-

planting will be necessary.

It is estimated that 86 per cent. of the

crop is usually planted by the first of

May. This year the estimates make it

only 78. They are as follows for the

several states:

Virginia, 34; North Carolina, 70; South

Carolina, 83; Georgia, 85; Florida, 90;

Alabama, 83; Mississippi, 78; Louisiana,

72; Texas, 83; Arkansas, 64; Tennessee,

45; average, 78.3. These figures represent

proportion of proposed area already

planted, and show that planting is

materially later than usual. Some in-

crease is given of the intended area as

compared with that of last year. It

is difficult to forecast the result that

will be partially in the future, and the

averages are only given to show what

the correspondents believed to be the

increase or decrease of area. The de-

crease of area, as indicated, averages

18.6 per cent. The percentages are:

Virginia, 72; North Carolina, 70; South

Carolina, 80; Georgia, 83; Florida, 80;

Alabama, 80; Mississippi, 83; Louisiana,

82; Texas, 82; Arkansas, 80; Tennessee,

74; Missouri, 74. It should be added

that every year the area is reported too

low, and almost every year less than
