THE residents of Central avenue think it is time the board of aldermen were fulfilling their promise to put down curb- thing. He works at it very hard, but he ing on that street. This thoroughfare is becoming very thickly populated and should be accommodated in this matter. so that permanent sidewalks may be put down. Gentlemen of the board, can't you come?

The four leading democratic news-papers of the United States-the New York Sun, the Cincinnati Enquirer, the Louisville Courier-Journal, and the Atlanta Constituion.-Cleveland World. To this unimpeachable list we should

add a fifth, our stalwart and esteemed contemporary, the Chicago Herald,--New York Sun From that impeachable list we should

take all but the Louisville Courier-Jour ral and the Chicago Herald, and the greatest of them in true democracy is the Herald.

FAREWELL, BEE TREE.

The Bee Tree scheme has been put to sleep in its little rocky bed, and we besleep in its little rocky bed, and we be lieve that is the best solution of the emblem of innocence this gentle suffering whole matter. The end of the Bee Tree system would have ultimately been that its water would have been mixed here in its water would have been mixed here in its water would have been mixed here in town with that from the Swanaanoa in the prescut system. There would have been no gain whatever in that, but rather a loss sing the two waters are now

a loss, since the two waters are now mixed without cost to the city. There seems to be no reason for in curring further expense in running down other water schemes. The committee's report to the council should be adopted without frittering away any more money; it ought to have been adopted at vesterday's meeting of the connell may shine strong and bright. To you as the next logical action after giving who profess no reverence for the church up Bee Tree. We need at once to be provided with greater water facilities, and the men of the world I need but ask you to pause and reflect, believing that if you the work to carry out the committee's will be so you will turn with disgust plan, the execution of which will settle from any sport which inflicts suffering the problem for years to come, should be begun at once.

HILL.

It is somewhat significant that when the democrats in convention assembled fail to instruct for Cleveland, it never seems to occur to them that there is such a man as Hill. But one state has so far instructed for him-the state of New York and that state is far from being a unit on the subject of his candidacy. Now it Hill were the great democrat his mends would have us believe he is, there is surely descentiment enough in the democratic party outside of New York to find it out. and reward it in the only way that will satisfy Hill.
