THAT PRIVATE MEETING. The Reporter Went in After He

Had Been Invited. Alderman Waddell in his card in yes-

erday's CITIZEN SAYS: "Mr. Cummfugs told him [the reporter] it was a private meeting, but someone said it made no difference; but he came in notwithstanding he had been notified that the meeting was private." Mr. Waddell tries to make it appear that the reporter forced himself into the meeting. The truth of the matter is as it has been stated, but New Or it will do no harm to state it again. When the reporter entered the room Mr. Umbrellas re-covered while ments of whom the reporter would be willing to accept and run the risk of being ejected by the other members. Four of those present at the time have said you wait for them, making since that they had no objections to the admission of reporters. Well, the reporter went in and took a seat. Mr. Cummings was reading, and a few mothem nearly as good as new, ments after the reporter entered he began Call and learn our low prices.

reading again, presumably to finish the business before the body. Mr. Cummings had read only a few words when Mr. Green reminded the board that there was no quorum, on account of the absence of Mr. Waddell, who had "taken a walk." The opposition to the reporter's admission to the meeting was not great, as evidenced by the willingness of the board to go ahead with the work until it found that Mr. Waddell had broken the quorum.

These are the facts, just as they occurred. There was no intention to intrade upon the board and the reporter would not have taken his seat at all if Mr. Waddell had made his objection then and there.

Michigan's Legislature to Mak a New Apportionment.

LANSING, Mich., August 6 .- Both houses convened at 9:15 this morning pursuant to call by the governor made necessary by a decision by the supreme court that the apportionment bills 1891 and 1885 were unconstitutional. The senate took a recess for one hour in order to enable the committee to report a reapportionment bill on the basis of of sixty-four members. One senator wanted to amend by instructing the committee to inquire into the advisabilthe house to it. The amendment was Mississippi, who was one of the strong rejected by a vote of 32 to 15 along party lines. The party advantage to the dem ocrats is that it gives a larger propor-tionate representation to the cities which are supposed to elect democratic mem-bers. For this reason it is opposed by

hers. For this reason it is opposed by the republicans. Severol members spoke apon it, the democrats favoring such a bill and the republicans opposing. The only hope of the republicans lies in prolonging the session beyond Tuesday, so that it will be necessary to give the acts immediate effect in order to have them become operative before the eletion. To this a two-thirds vote would be necessary. This the democrats have not got, and the republicans would, therefore, be able to dictate terms. The present sales of the sales and the resent sales of the sales and the sales of the sales are sales are sales and sales are ent rules of the house are so framed that the republicans may hold the majority for several days, but it is believed they will have exhausted all dilatory tactics before Tuesday night, and that the dem-ocratic bills, the nature of which have not yet been disclosed, will be passed within the ninety days' limit. Both sides are determined, and the session promises to be very lively while it lasts. ENGLAND'S GRAB GAME.

The Samoan government in 1875 granted this coaling station to the United States, and England has no right to any part of the hardor.
