**THE HOUSE AND SENATE**  
**A BILL TO STOP IMMIGRATION READY**  
And John I. Davenport Appeals to a Democratic House to Help Him Out of a Hole—The Senate Meets and Adjourns.  
WASHINGTON, Dec. 5.—A beautiful crisp winter day ushered in the second session of the 52nd Congress. Long before the hour of noon spectators began to arrive at the House wing of the Capitol. The members also came in early. Speaker Reed was among the first to appear in the hall and was greeted by men of all political opinions. The Democrats, as a rule, congregated in the space in rear of the Democratic side of the hall and indulged in a conversational love feast. The Third party, as personified by its leader on the floor, Mr. Watson of Georgia, appeared about 11:15. He immediately proceeded to the desk occupied by Lieutenant Davis of Kansas which is across the aisle from that occupied by Reed.  
Shortly before noon Springer of Illinois made his appearance, and was immediately the centre of attention on the Democrats' side. One of the first to greet him was McMillin, his able condutor on the ways and means committee.  
As the hours of the clock pointed to the hour of 12 Speaker Crisp ascended to the speaker's chair and rapped for order. A solemn hush followed. The "Blind Chaplain," the Rev. Dr. Milburn, delivered a brief and impressive prayer.  
The regular order of the opening day's session was then followed. Payne of York presented a petition of John I. Davenport, chief supervisor of elections for the southern district of New York, for a hearing before the bar of the House, "he having been denied," the petition says, "a hearing by the committee of the house." Referred to a select committee to investigate the administration of the United States election laws in the city of New York.  
A committee composed of Springer, Forney and O'Neill (Pa.) was appointed to join a committee of the Senate to investigate the administration of the United States election laws in the city of New York.  
WASHINGTON, Dec. 5.—The Senate almost immediately after assembling, having appointed a committee to wait on the President, took a recess till 1 p. m.  
**To Suspend Immigration.**  
WASHINGTON, Dec. 5.—Senator Chandler has prepared for introduction, probably today, a bill suspending immigration except from North and South America for one year after March 1st.

**MONETARY CONFERENCE.**  
**It is Going Ahead With a Small Like Rapidity.**  
BRUSSELS, Dec. 5.—When the International Monetary conference resumes its sittings tomorrow the first matter requiring settlement will be whether the report of the committee appointed to consider Rothschild's plan shall be further debated on or the proposals of the American delegates proceeded with. Mr. Rothschild, Sir C. Fremantle and Sir William Houldsworth, all of whom are British delegates, desire some expression of opinion regarding Mr. Rothschild's plan from the full conference. Mr. Bertram Currie, another British delegate, aims to bring the conference to a close and in common with some of the other delegates who are resigned to see the conference result in failure, would hasten consideration of the American resolutions as bringing so much nearer the winding up of the meeting. Sir C. Fremantle, with a view to a resumption of the debate on Rothschild's plan has amended his declaration declining to withdraw its half sovereign pieces in favor of silver by adding the words: "Except concurrently with the adoption of the Rothschild project or some other proposal having the same compensatory value."  
Sir C. Fremantle, who is deputy master of the British mint, has never been known to take an independent action and is therefore taken for granted that he is the mouthpiece of the British government in announcing assent to the abolition of half sovereigns. If, despite the adverse report of the committee, the full conference adopts the Rothschild plan, a number of delegates will want the conference to adjourn December 16 at the latest. If adjournment is taken it is doubtful if there will be a full attendance when the sittings are resumed in January. Mr. Currie has sent to the Times a verbatim report of the speech he made before the conference Friday. This report is similar to the accounts of the speech, only in its advocating of the gold standard. Mr. Currie denies that evils are impending to the world, from the disuse of the silver standard. The silver experiment of the United States, he says, are most likely to find imitators. The conference had met to endeavor to raise the price of commodities, an object that was entirely opposed to economists' doctrines accepted in Great Britain. Cheap goods, not dear goods; plenty, not scarcity, had always been held to be conditions profitable to trade. That the general fault in prices had been brought about by a scarcity of gold had never been proved. Such a theory is at variance with the facts within our knowledge, the speech concludes.  
Mr. Currie is strongest personality among the British delegates and he will not budge an inch towards a compromise.

**THE POPE OF AMERICA**  
**CARDINAL GIBBONS INTERESTING ANNOUNCEMENT.**  
**The Pope Has Apparently Delegated Some of His Authority to an American Representative—May Reopen McGlynn's Case.**  
BALTIMORE, Md., Dec. 5.—Announcement was made last night that Mgr. Sattoli had been appointed by the Pope, with full power to settle without appeal all religious questions between bishops and priests in the United States. This is of great interest in Catholic circles here. The announcement was made by Cardinal Gibbons. An effort to interview him on the subject was unavailing; the only thing that leaked from him being confirmation of the report. What was the cause of the appointment, or when it was made, he refused to say.  
Why Cardinal Gibbons should be overlooked and such plenary powers be given to one directly from the Vatican is only one among the many perplexing questions asked about it. It had been rumored, indeed, that Mgr. Sattoli had been sent to America on a secret mission as special representative of the Pope, but no one had conjectured that he would be invested with such autocratic powers as would practically make him the Pope of America.  
The chief reason for action, the one that obtains general credence, is that Pope Leo's long continued ill health, has determined him to delegate such duties as properly devolve upon him to one whom he can implicitly trust. Such a man is undoubtedly Mgr. Sattoli, who, next to Rampella, is generally credited with standing nearer to the Pope than any other among the Catholic dignitaries at Rome. It is a plausible reason, but whether it is the true one cannot, of course, be definitely known at present.  
An interesting subject which comes up in this connection is whether the famous McGlynn case will be taken up by Mgr. Sattoli. It is a well known fact that the excommunicated priest is desirous of being restored to orders and is agitating the subject with all the means in his power. One of the chief reasons why he requests a rehearing was that sufficient evidence was not presented in his behalf at Rome. He has frequently stated that if the evidence had been taken in New York the noted controversy with Arch-Bishop Corrigan would have resulted in his favor. Now that such an opportunity is offered him it is not thought that he will let it pass, and probably the first action taken by Mgr. Sattoli in his new official capacity as arbitrator will be the reopening of the case.

**A SUGGESTION**  
**A Board of Sanitary Commissioners Proposed.**  
EDITOR THE CITIZEN:—In furtherance of the plan of a more complete system of sanitation for the city of Asheville, and that there may not be a "dual government," but one centralized system with enlarged and ample powers to deal with all matters pertaining to the health of the city of Asheville, I submit the following:  
Let there be an act passed by our Legislature amending the city charter so there may be organized by the City Council a Board of Sanitary Commissioners, composed of the following members: The mayor, who shall be ex-officio chairman; one alderman and three other citizens; three of which Board, at least, shall be legal physicians. This Board shall select one of its members (a physician) who shall be denominated health officer, whose duties shall be specified and formulated according to the latest rules of sanitary science.  
This Board shall have power to appoint one or more sanitary inspectors who shall be well versed in ordinary rules of house sanitation. The Board shall have complete control over infectious and contagious diseases, sewers, waterways and drainage, wells and surface water closets, wastes or city garbage, city market, vital statistics and so forth.  
If some such plan as this were adopted in a few months thereafter Asheville would be the cleanest and healthiest city in America. H. B. Weaver.

**THE WESTERN CONFERENCE.**  
**A Preacher Rebuked by the Bishop.**  
WINSTON, N. C., Dec. 2.—The Western N. C. Conference assembled for its third day's session at 9 o'clock this morning. Reports were read from Davenport college and Asheville Female college. Many ministers passed examination of character. One preacher reported his own salary paid, but a great deficiency in collections for church purposes. He threw the responsibility upon the stewards. This brought a rebuke from the Bishop, who said it was the preacher's province to see the assessments were paid. Rev. Dr. J. H. Law addressed the conference in the interest of the American Bible Society. He stated that 1,300,000 bibles were distributed the past year.  
The conference by a unanimous vote decided to hold the next annual session in Charlotte. The following were ordained to deacon's orders: T. B. McCady, L. D. Gillespie, J. M. Rice, W. M. Curtis, W. S. C. Henry, J. S. Parker, T. E. Weaver, W. L. Sherrill, R. D. Sherrill, E. E. Myers, H. T. Hoover, and T. W. Mansfield.  
Rev. Mr. Byrd introduced a resolution favoring a reformatory for young criminals, which was referred.—Richmond Dispatch.  
President Crowell read the report of Trinity college, setting forth the plans for more efficient organization, and recommending therefor a change in the State charter of the college. The report was adopted including its recommendation that the proposition of R. N. Duke, of Durham, be accepted. Mr. Duke proposes to insure the lives of fifty men between the ages of forty and fifty for ten thousand dollars each for the benefit of the Trinity endowment fund on condition that the two State Conferences guarantee the running expenses of the college until this plan of endowment be realized upon sufficiently by deaths among the parties interested to relieve the Conferences of further obligations.—Raleigh News and Courier.

**BRUTAL MURDER IN MOORE.**  
**Two Helpless Women Shot Down and a Man Robbed.**  
FAVETTEVILLE, N. C., Dec. 2.—Yesterday evening about 7 o'clock a colored man knocked at the door of Roudole McDonald, and upon entering the house walked across the room and picked up a gun, at the same time drawing a pistol from his pocket and demanding of McDonald that he give up his money. At this McDonald's two sisters, Mary and Christine, began to remonstrate with the intruder, while McDonald raised the alarm. Thereupon the negro opened fire on the helpless and defenceless women, killing one outright and mortally wounding the other. At the point of a pistol McDonald was forced to give up all his money, amounting to about thirty-five dollars.  
Indignation runs high throughout the community in which the awful crime was committed, and the guilty person will be summarily dealt with as soon as found out.—Charlotte Observer.

**DEEP SNOW.**  
**Trains Stopped in Scotland by the Drifting Beautiful.**  
LONDON, Dec. 5.—Half a foot of snow covers the ground in South Wales, and the storm continues. Nearly all out door work has been suspended and railway traffic is greatly delayed. In the North of Scotland the snow is fifteen inches deep and in railway cuttings the drifts are many feet deep. The mail train for Inverness was stopped by drifts and the passengers rescued with much difficulty.

The Nicaragua Canal should not be built unless it could be made to pay dividends on the investment, as the Suez Canal had done. If it will pay, private capital should build it.
