ASHEVILLE DAILY CITIZEN

THURSDAY, DECEMBER 15, 1892.

SENATOR STEWART, of Nevada, has sprung the silver question on Congress again in the shape of an amendment to Senator Hill's bill to repeal the Sherman silver act of 1890.

JAY GOULD'S will has been probated, and his estate is estimated to be worth \$72,000,000. Not a dollar of it is bequeathed to charitable institutions or for any benevolent purpose.

All that we regret is that the name of Congressman Crawford has been mentioned in the matter.-Morning Fly Up the Creek.

A VERY inadequate apology for telling, deliberately, a falsehood about the Con-

In the eyes of the law, the man who makes a statement as a fact, which be does not know to be true, stands in the same category with the man who states as a fact what he knows to be false. Wonder if the Morning Fly-up-the-Creek knows this much?

IF the New York Herald would support Democratic candidates during a political campaign, its post election suggestions would have more weight with Democratic managers. Under the circumstances its clamor amounts to disgusting officiousness.

Ir has been suggested, and with much force, that a law restricting immigration during the next year will be a heavy blow to the World's Fair. If it is a question of no immigrants or cholera, the decision would be easy, but to draw the line between immigrants and visitors. admitting the good and rejecting the bad and dangerous, will be difficult.

Bills have been introduced in the Scu ate and House of Representatives having for their object the encouragement of the construction of electric railroads by the Federal government. Bounties in the shape of government contracts is proposed for the constructors of such roads, beginning with the celebrated one already constructed between Chicago and St. Louis. This is no more within the province of national legislation under the constitution, than the levying of tariffs for protection, and the sooner the law-makers at Washington are made to recognize the fact, the better it will be for the country.

It printed again and again the false assertion that it would have the Associated Press service and deceived its readers purposely. Honorable men know how to term such decep-

STATE BANK TAX

Is view of the probable repeal by Con gress of the ten per cent, tax on State banks, the Legislature of Georgia is preparing a bill for the establishment of State banks. It is a conservative measure and will make all institutions organized under it as good as any National bank National, State or municipal bonds equal to the amount of notes proposed to be circulated, must be deposited, under the is sound business to attend to this first; bill, with the State. As a further security for notes issued, the stockholders of the banks are made liable to the amount of their stock. No bank can issue notes exceeding 75 per cent. of its capital, and are redeemable at all times in gold, at the will of the holder. One feature of the bill is taken from the Canadian bank system, and allows the bank to surrender at any time a part of the whole of its circulation, and thus increase or decrease the circulating medium as business may require. The notes of a bank of this kind would be as good as any National bank notes, and contradicts the assertions made by Republican campaign speakers during the recent canvass that State banks necessarily mean "wild cat' banks.

MONEY FOR BRIBERY.

It appears that Col. Elliot F. Shepard, editor and proprietor of that delectable sheet, the New York Mail and Express, has gotten himself into what might be termed a not over-sweet scented predictment. It seems that Mr. Shepard once had a business manager of the name of Gray, who was to receive \$10,000 a year as salary. There was an agreement which seems to have stipulated that Gray's term of service should be five years, with a saving clause that if he Swain county, the great National Park should be "incompatible" to the colonel. he might be discharged sooner.
