ASHEVILLE DAILY CITIZEN GREAT BRITAIN'S WELCOME WEDNESDAY, MARCH 15, 1893.

Mr. Cleveland's idea is that those who have had a slice of p'e should wipe the crumbs off their beards and give way to those who haven't had any—Atlanta Constitution.

IN OTHER and chaster words, if the offices are good things, pass them around. If they are bad things, don't keep one set of men in punishment forever.

For three days last week New York State was without an official head. The Governor, Lieutenant-Governor, President pro tem of the Senate and Speaker of the Assembly, were all in Washington attending the inauguration. This is said to be the first time in more than one hundred years when the State has been left with no one who could act as Governor in case of an emergency-Raleigh Chronicle.

We venture to say that the great State of New York never slipped a cog during the absence of the governor. The fact is that our governors and officials are not very important fry. It is the common, every day people who count, if they stay at home and mind their own business any number of governors can be spared.

THE TIME IS SHORT

THE CITIZEN cannot see how meeting the present emergency of the schools by securing fifty \$100 contributions "may tend to pauperize" them; nor does it see he felt able. The situation is one too, ganizations could give. Would it not be well to take one collection for the schools in all the churches next Sunday. providing envelopes in which the contriof the corgregations?

Very little time remains at best for the solving of this important matter.

THE HAWAIIAN TREATY.

It is now apparent that the Hawaiian treaty was recalled from the Senate because it was not the kind of treaty the present administration could approve of. The United States has heard only one side of the Hawaiian story vet. and it is eminently proper that a commission should go to the Sandwich Islands and find out exactly the situationwhether the majority of the intelligent the temperance platform for the last Hawaiians really wish to become part forty years; 'I have never heard it ex-Hawaiians really wish to become part of the United States, and whether they nation by adding non-contiguous territory that could only be held in case of war, when it would be most needed, by being backed by a deat of war people is being backed by a fleet of war vessels as large as Great Britain's? If we are to be outdone have already become one of the "great powers"—that become one of the "great powers"—that north of us, it Canada should ever ask to come into the union, then let us drop the idea of having distant outposts that can to come.

TAR HEEL TRACKS.

-The most successful farmer in North Carolina is said to be Mr. T. J. King, a bachelor of 30, residing at Louisburg. He is called a book farmer because he uses his brains and scientific knowledge in his business. In 1890 he produced 1,330 pounds lint, three bales, on one acre, the largest yield ever known in the State. At one of the Piedmont expositions his exhibit alone covered 1,600 square feet of space, and included 60 varieties of corn, 34 of cotton, 43 species of hay and grasses, 10 of tobacco, 96 specimens of garden crops, 22 kinds of wine, 150 jars of preserves, jellies, etc. with many varieties of wheat, oats, peas and potatoes.

-The Secretary of State makes public the new insurance laws, etc. One act makes the penalty for violation of the insurance law \$200 instead of \$50. All Willard's life when she resigned the future have commissions signed by the Secretary of State. There is a standard form of fire insurance policy, being the one required by the New York insurance code. Two companies were chartered, these being the Farmers' Mutual Fire and the State Insurance company, the latter of Asheville. It is said the promoters of the latter company are con-nected with a company in the Northwest.

-Lenoir Topic: On Thursday, March 2, at his home in King's Creek township, Mr. Solomon Keller, aged 93 years, died. He was buried on Saturday. Coming in with the century, this old gentleman lacked only a few years of remaining with it to the end.

-The trouble over the possession of lands at James City, opposite Newbern, where several thousand colored people live, will be settled by the payment of nominal rents to Mr. James A. B. yan, whose title has been established.

-The stockholders of the Cherryville, N. C., Manufacturing company, held a meeting last week at which it was de-cided to double the present capacity of

On the huge platform were seated men and wo-men whose names are household words men whose names are household words throughout the English-speaking race—members of Parliament, dignitaries of the church, and ladies of society, side by side with the leaders of the labor movement and the Salvation Army. A delegation appointed from the Methodist church, the Baptist, the Congregational, the Salvation through the Baptist, the Congregational, the Society of Friends, elbowed Canons of the Established church, and temper-ance leaders of the Catholic hierarchy; while the chief Jewish Rabbi sent a congratulatory letter and signed the address of welcome which was also attested by three hundred local unions of the British Women's Temperance association.

There were 50 societies for reform represented on the platform. The speakers twelve in number, were ach one equal to filling Exeter Hall in the strenth of individual reputation; but they gladly limited their speeches to five minutes each, rejoicing to be among those who did honor to the distinguished guest whom the crowds had assembled to greet in numbers so large that the

tickets could Lave been sold twice over. Nothing could exceed the enthusiasm with which the speaker of the evening was greeted. The vast audience rose why Capt. After such a greeting as has been de-scribed, it was not an easy task to organize a demonstration worthy to be compared with that of Exeter Hall; but butions for this purpose could be enlections for the usual objects of the gifts of the congregations?

WE HAVE MOVED . . . tive evenings in the great Free Trade hall in Manchester, the second city in England, and the headquirters of the alliance. Canon Wilberforce and Sir Wilfred Lawson were the chairmen. Tesimomals were presented by the alliance and other temperance societies, and the entire audience rose to receive Miss Wilard, a greeting which was perhaps exelled only by the enthusiasm which orought them to their feet again and caused a hearty British cheer to echo through the historic hall that had nessed the triumphs of Cobden, Bright and Gladstone, as she closed her speech,
'A wonderful address," said a veteran eader who had guaged every speaker on

the national temperance societies. A more notable instance of the result of Miss Willard's life mission could not be instanced than such a recognition from this most conservative body of Christians who have for so long resisted the work and influence of women.

What wonder that in later years one of the greatest achievements of Frances Willard's life was her mission of recon ciliation to the women of the South bile yet the scars of war throbbed in their breasts, and new-made graves stretched wide between sections that had learned the misery of hatred. It was the white ribbon taken by her ten der hands that bound those wounds and gently drew the publishearted wo men of that sunny land into the hospita ble home circle of the W. C. T. U. "KEM-KOM"

Is a chemical compound, harmless in every respect, and perfectly simple in its application. It is a powder which is dissolved in water, and this solution sprinkled

over the coal.

This material is for use on either hard or soft coal, in the boiler furnace, stove

and range.

Saves 25 per cent. of the coal; also labor time and dirt; destroys the deadly coal gas which often permeates the home, producing diphtheria and all kinds of nasal and membranous diseases, thus insuring health and pure air in the homes, school-houses, and all places where coal is used.

Coal treated with Kem-Kom ignites quickly, lasts longer, and gives out intense heat. Starts a vigorous fire in one fourth of the time it takes without Kem Kom.

Largely lessens the ashes, prevents clinkers and cinders, burns the soot and a large portion of the smoke, thus keeping the flues free from dirt.

With Kem-Kom an inferior coal, such as screenings, can be mixed with the ordinary coal, and a still greater economy effected. nary coal, and a still greater economy effected.
