## SUMMER :-: COMFORT

We are preparing to thoroughly introduce to the people of our city the great advantage of a gasoline stove. For ten years or more they have been a source of comfort to the people East and West, and to once see them in use we know will convince you of their great blessing to the housewife. Just let us see: A dinner can be cooked by the mistress in a white dress and with the least possible labor. There is neither coal, wood nor kindling, smoke nor soot. Best of all there is no dust nor ashes. With a vapor stove the kitchen becomes one of cleanest, coolest and most delightful rooms in the house. No danger, no trouble to start burner. Space forbids further details of its qualities. Call and see it in operation. Can be found only at our store.

## A LABOR ORGANIZATION

**AMERICAN RAILWAY UNION FORMED.**

It is Down on Strikes and Boycotts and Will Appeal to Reason to Settle the Disputes Between Capital and Labor.

CHICAGO, April 16.—The men who for several days have been laboring on the formation of the American Railway Union, yesterday completed the first step in the enterprise and have issued a long document setting forth the outline of one of the greatest labor organizations the world has ever seen.

The union proposes to enlist as far as possible all railway employees of every description and its avowed object is the existing organization of railway employees; it is designated primarily, they say, for the numbers of men who belong to no organization whatever.

There are to be no secret meetings or ballot. No grand officers or grievance committees. All minor difficulties between employees and corporations are to be settled without a strike and at the same time, with all regard for the rights and best interests of the men.

Besides the main point, the regulation of labor troubles, the organization contemplates several side issues as employment between insurance department and other features.

## THEY WERE ROBBERS.

Alexander came to His Kinship  
BELGRADE, April 27.—Trouble has already begun for ex-Regents Ristitch and Belimarkovitch, the late ministry. The new government, as a result of investigations already made concerning the finances of the country since Alexander acquired power last Thursday night, has made a demand that ex-Regents and ex-ministers should voluntarily rest on their laurels for an enormous sum of money misappropriated during the regency under pretext of having been used in the secret service of the state.

## INDUSTRIAL REVOLUTION.

Universal Suffrage Demanded in Brussels.

BRUSSELS, April 17.—The industrial revolution against the chamber of deputies is in full progress and every day fresh accessions to the ranks of those who demand universal suffrage is reported. To-day thousands of dock laborers in Antwerp joined the movement and much excitement prevails at that port. The strikers have cut off communication with vessels lying at the quays by throwing their gammas into the river.

Indulged in other riotous demonstrations and became so threatening that the military had to be called out to preserve order. The streets and open places in the vicinity of the wharves are filled with strikers and hourly their ranks are being swelled with laborers and others.

## KEELEY'S CURE.

He Has Sold His Secret for \$10,000.

CHICAGO, April 17.—The Times this morning says: Unless some unforeseen obstacle comes in the way the famous bichloride of gold cure for drunkenness will pass out of the hands of the Leslie E. Keeley company tomorrow. The price to be paid is \$10,000,000 and a New York syndicate of capitalists is the purchaser and all that is necessary to consummate the sale is Dr. Keeley's signature to the contract, in which he agrees not to enter the same business again.

## Ardenly Set Down.

ARDEM, N. C., April 16.—Our farmer are hustling as usual preparing their land for another crop.

The Arden and Tick Town baseball team played a match game Saturday evening on the Shuford grounds. The score stood 2 to 19 in favor of the Arden boys. The Arden team did excellent playing considering their practice.

Last Wednesday evening at the residence of Mr. Adam Reed of this place, in the presence of a few intimate friends, Mr. G. Garren and Miss Sarah Reed were married.

Mrs. Stokes of New York is spending a few days with Mr. C. W. Beale of Arden Park.

## Saying How With Powder.

FORT MONROE, April 17.—The British fleet consisting of the Blake, Australia, Magicienne, Tartar and Partridge arrived this morning. The visitors fired a salute of 21 guns which were promptly replied by the fort. The Blake then saluted the French, Russian and Italian flags by firing the number of guns due the rank of commander of each vessel.

## He Will Get Well.

CITY OF MEXICO, April 27.—Ex-President Gonzalez continues to improve and his physicians report he is on the road to recovery. Diaz has been an almost daily visitor to the sick room and has given his old comrades every attention.

## "GYM" CONTEST.

Cadets Strive for Medals at Bingham's Saturday.

Saturday was a gala day at Bingham's. Ladies filled the galleries of the perfect gymnasium. Men were there who were trained in the military schools of Europe; others, who had breathed in the air of West Point, and some who had been familiar with such from Capt. Partridge's day to the present. There was scarcely an unoccupied seat in the "running track," which serves as a gallery for spectators. The performance, both by the contestants for the medals offered and a volunteer squad who illustrated the uses and possibilities of the apparatus in order to give the contestants a breathing spell now and then, was of the highest order of excellence.

The shock that morning appears to have been most violent in the city of Zante, the greater part of which was destroyed. The people were panic stricken and the authorities were helpless. The streets are impassable, being filled with masses of stone and timber, the wreckage of houses which were thrown down by the earthquake.

Thus far the bodies of 20 persons, killed by falling walls, were removed from the debris, and it is feared that many more dead are still in the ruins. The number of persons injured runs up into the hundreds. The greater portion of the inhabitants have fled to the plains back of the city, where they wander about in a distracted manner, bewailing the loss of their homes and property.

The shock occurred at 7:30 this morning. Most of the buildings that stood erect after the shocks of February and March, were either thrown down or shattered so as to be unsafe for occupancy. The church of St. Dionysius and the government offices were thrown down.

Advices from the interior show that the whole island was devastated. Many villages were destroyed and is thought the loss of life is very great.

## THIS IS NEW.

Proposition to Apply Home Rule to Only Part of Ireland.

LONDON, April 17.—An important statement is made public today in regard to the Irish home rule bill. It is to the effect that when the bill reaches the committee stage a large section of Radicals will support the proposal to leave the counties of Londonderry, Antrim, Down and Armagh in the province of Ulster under imperial rule, these being the counties in which the "home rule" element is strongest, and antagonism of the Irish home rule the more more pronounced. It is considered doubtful if Gladstone would assent to such a scheme even if the Irish Nationalist members are willing to do so. The proposition means the division of Ireland, and the Irish League are created under the home rule would represent only a portion of the country.

## SHORT IN BANK ACCOUNTS.

Another Sensation in Nashville Financial Circles.

NASHVILLE, Tenn., April 17.—Another sensation in financial circles was developed here today. John Schardt, cashier of the Mechanics bank, confessed to a number of the officers of the bank that he was short in his accounts to the amount of \$40,000. It is thought that the amount will reach \$75,000.

Schardt is spending his home and the fear of dying is said to have caused the confession. The bank has filed an assignment.

## THE RUSSIAN TREATY.

Delay in Signing it Now Explained.

WASHINGTON, April 17.—The probable reason for the hitherto unexplained delay in the exchange of the ratifications of the extradition treaty recently concluded with Russia, was doubtless due to the absence of the Czar from St. Petersburg. He is visiting his second son, George, who on account of pulmonary weakness, is spending some time in the Caucasus mountains, in Crimea.

## A Blue Negro from Clyde.

AUBURN, N. Y., April 17.—John Johnson, known as "the blue nigger from Clyde," ran amuck in the broom shop of Auburn prison this morning. He was armed with a sharp knife used in cutting broom corn and first attacked Charles Peck, a fellow convict from West Chester county, leaving him dead in his tracks. He next fatally stabbed another convict, and wounded two others before he was shot by the keeper and rendered powerless.

## Just a Liar.

LOUISVILLE, Ky., April 17.—The attorneys of A. R. Sutton have decided to accede to his prodigious lying and erroneous figures on the ground that he is and has been insane. The defense, so common in modern trials, has the attraction of a novelty in a trial for forgery.

## Fire at Morris-town.

KNOXVILLE, April 17.—Fire at Morris-town early Sunday morning destroyed the residence of Mrs. J. M. Bewley, the residence of J. O. Rice, cashier of the Lookout bank, and the store of J. L. Barlow & Co. Loss \$10,000, with \$5,000 insurance.

Wm. Price, Luttaville, Mo., writes: "I was afflicted with sciatica and had lost the use of one arm and one leg for nine years. I went to Hot Springs and also tried different doctors, but found no cure until I tried Botanic Blood Balm. It made me sound and well. I am well known in this vicinity."

## AN ISLAND DEVASTATED

ZANTE THROWN DOWN BY AN EARTHQUAKE.

A Number of Persons Are Killed and Injured—The Second Earthquake This Year—Many Villages Are Destroyed.

ATHENS, April 17.—The island of Zante, one of the principal Ionian islands, was visited by a most destructive earthquake this morning resulting in great loss of life and property. In February and March last, the island sustained a vast amount of damage by seismic disturbances, and a large number of lives were lost.

The shock this morning appears to have been most violent in the city of Zante, the greater part of which was destroyed. The people were panic stricken and the authorities were helpless. The streets are impassable, being filled with masses of stone and timber, the wreckage of houses which were thrown down by the earthquake.
