West Hay wood to be Paved in Talk-Tax Exemption For Man Who is Minus Two Fingers

With the exception of Mr. Gudger, very member of the Board of Ald rmen was present yesterday afternoon when the Joint Board met. Of the Advisors Williams and Hunt were absent. In the absence of Mayor Blanton Alderman Waddell was the countereit presentment of a mayor.

When the minutes of the special meeting held Saturday were read, Advisor Gwyn asked that a motion made by him on that day be stated more explicitly than it appeared on the record. The motion as correctly stated, was that the contracts awarded Saturday should, if another block of bonds could not be sold within 90 days, be void.

Mr. Gwyn then stated that when the special finance committee examined the books last week it considered every item of expense that they thought could impinge on the improvement fund, and there was \$8,000 or over remaining. This was the first time "impinge" had been used before this Board, and some of the members blinked and shied at it, but it went. Mr. Gwyn thought the unpaved portion of West Hawwood stret between Buxton street and Woodcock's drug store should be paved at once. Al-derman Starnes moved that Contractor

A. M. Smith be notified that be might execute his contract and begin work or hat street, giving him 40 days in which o complete the work. Carried. Advisor Miller and Alderman Baird were appointed to investigate the ques-tion of alleged damages to property of Mr. McCoy on Park avenue. They were also asked to report on a sidewalk for the east side of that avenue, a request having been made for a walk by M. D.

Jas. Buttrick and J. L. Smathers aske that the brick paving be extended on West Haywood from Woodcock's to a point about 95 feet further west, as they preferred to pay for the brick, eyen though it costs more than the rubble. City Engineer Lee was requested to ascertain if Contractor Smith would give up that much of his contract. Boyce & Burton's \$400 bond on sewer

contract was accepted. The sureties are Some Sharp Sallies. W. W. Iones, esq., presented a petition from O'Hearn & Lineban, who thought their bids on the paving had not been given consideration on Saturday. They claimed their bid was lower than that of anyone else. A lively discussion ensued, participated in by nearly every member of the Board, in which it was maintained that the bid had been con-sidered, although no samples were submitted other than a few small stones. Mr. Jones wanted a hearing for his clients, that they might present their side of the matter. "But," he said, "if you gentlemen have an idea that you have the Czar's bousehold.

Next week will see one of the hottest campaigns Asheville local politics has ever known. Plans are being made for an arbitrary discretion, then I have no more to say." This brought Alderman Starnes to his feet, with the remark: "I don't think Mr. Jones should call this Board 'arbitrary.'" Mr. Jones realist Mr. Jones replied Board 'arbitrary quick as a flash, "I didn't say you were arbitrary-it was your guilty conscience."
Acting Mayor Waddell said the Board had done what it thought was right "Of course," he said, "the Board to come after us may turn over some of our actions." To this Mr. Jones replied, "Yes, I guess they will make several changes." The petition was then laid

on the table. Figures. The finance committee was instructed to examine the contract with M. H. Kelly with regard to the disposition of the \$3,000 reserved for 12 months after

the completion of the work.

The city engineer was instructed to confer with Geo. L. Hackney, who wants damages on Depot street, and report When the bills came up there was on

for \$19.80, due the Engineering News for advertising. Alderman Baird kicked because it was not O. K.'d, and said there ought to be somebody who knew there ought to be somebody who knew The Carlo and the condition of the conditi whether the bill was extortionate. The bill stated that the charge was 20 cents a line. Mr. Lee put the 0. K. on it and it was paid, as were the following: M. H. Kelly, \$358.67; street department, \$381.74; J. H. Boardman, \$21; Govan Pressley, \$50; Kelly Strachan, \$79.43; F. N. Waddell, \$14. The Aldermen.

Mr. Starnes moved, in the Aldermanic meeting, that M. E Killian. who had two fingers cut off one hand, be exempt from poll and street tax. It was carried, without any discussion.

C. H Miller was given an order receivable for taxes for \$1,500, the amount

of the compromise in Mr. Miller's suit Ed. Mitchell, who is employed on on

of the W. A. & S. S. cars, was ordered sworn in as a special policeman, to act as such only when on duty on his car.
Maj. Chas. M Stedman was given permission to have the Oakland Heights

From the main of every American and toreign ves-sel floated the large flag of Italy, and from the end of those ships that have jib booms, up the forestays and running along the lines and down the color halliards of the spanker were thousands of flags, conspicuous being the Italian colors. The ships were dressed in rainbow fashion and yardarm style, and withthe different shades brought strongly out by the warm sunshine, the picture made by these 33 vessels was entrancing. that was the Straightout, as follows: For Mayor—T. C. Starnes.

But the Straightouts only winked the other eve and smiled, as if to say "Just wait awhile." About 9:50 Alderman Baird went to the East ward polls, tool ap a ticket and started to deposit it in the box. "Held on a minute," he said the box. and began looking it over. STRONG DRINK BE CURED?

It is needless to moralize on the direful effects of intoxicating liquors when used to excess. Moralists have written of primaries, but the Democrats never thousands of books thereon; philanthropists have founded asylums and reformatories; physicians have labored and expostulated; wives and mothers have pleaded tearfully, yet the terrible fact remains that the curse is more rampant than ever. What is to be done? Legislation has proved unavailing. So far as it goes, law is right; but appetite cannot be controlled by the statute book. We must treat the drink habit intelligently and understandingly, and when we claim it is a disease and should be treated as such, we believe we have come near the method by which the problem can
