#### A DISCREDITED COURT.

The Charleston News and Courier comments with its usual good sense on a recent attempt at lynching in Denmark, S. C., the details of which ought to be printed by every Southern newspaper.

A negro who was suspected of an attempt to commit rape was captured and taken before the woman he had assailed and twice positively identified by her. The hour of the lynching was fixed by the mob, which seems, contrary to the usual, to have acted with more than ordinary coolness and deliberation. The News and Courier's account says:

"The 'crowd was a most orderly one. "The 'crowd was a most orderly one.' The ruling spirit in it were 'willing to allow Williams every chance for his life.' No excitement or violence was displayed.' One of the members advised the prisoner to betake himself to prayer 'and one of the guards responded, we have told him so already.' It was an orderly and deliberate crowd, determined on killing a man 'as a necessary step for the protection of their wives and daughters.' There was no question in the mind of a single man in Denmark that the deed which was about to be done was a righteous action."

Nevertheless, about two hours before

that is all over with now. It may be over with but things such as that and the present independent move don't die for a long time. "Let him that is with out sin cast the first stone." The circumstance is one to give the advocates of vengeance by the mob a pause. Their lavored court of last resort is discredited. Conducted under more ing!" Rats! favorable circumstances than is usually the case it condemned the wrong man and was about to do murder.

#### A CHARGE OF POLICY.

The New York Herald recently sent to Hawaii, Charles Nordhoff, a man for in any hysterics over the Reform move vears in semi-public life and long its Washington correspondent. His opinion of the situation at the Sandwich Is- that any man in Asheville might fee lands is of unusual value, for it is certain proud to vote. It shall be composed

the islands for all purposes. In time of war we should have to keep out here a fleet of twenty or twenty-five first class ships to make even a show of defence of the planters' recognition and the planters' recognitio the planters' properties exposed, because they all he within gunshot of the sen. . . of a "bolt." But it is idle to discuss Captain Mahan's arguments. What he wants-what many naval officers very naturally want as professional men—is a big navy, a European navy; and as, if we are foolish enough to annex these islands, we certainly will have to defend them, these pleasant gentlemen see here in annexation a lever for a large and beautiful and formidable, a 'European' navy, on which we can easily spend a hundred millions to defend the property of sixty-five sugar

plantations and their stockholders."

The fact is that if go into the annexa tion of these islands it means a tremendous change in our policy as a nation. An outpost like Hawaii would have to be fortified at the cost of millions of dol lars or we would loose it in the first war New street, has just been sold for in which the islands could be of any \$2,000,000. The four buildings now value to us. As Mr. Nordhoff office structure fourteen stories high will says, such a defense means a navv on the European scale, and that asserted that as soon as the sale became means billions for defensive and offensive known the purchasers were offered an operations. Then given the administration of one unscrupulous President and we should presently become embroiled in quarrels with half the earth, so great would be the temptation to use the mighty power intrusted to the Presi A dent, the commander-in-chief of the army and navy. It is a curious fact, too. that while thousands of citizens would regard with something little short of horror the

are not a fighting nation, and it is almost among the impossibilities that we should be attacked by any nation large enough to give us a moment's uneasiness. The United States annexing the Sandwich Islands as a war measure is a good deal as though a farmer in Western North Carolina should purchase a mountain on the ground that it would be a good outpost from which to defend his house from the advance of hostile abo-

rigines. Wm. Price, Luttsville, Mo., writes: "I was afflicted with sciatica, and had lost the use of one arm and one leg for nine years. I went to Hot Springs and also tried different doctors, but found no cure until I tried Botanic Blood Balm. It made me sound and well. I am well known in this vicinity."

Mitchell, the Men's Furnisher, has a Mitchell, the Men's Furnisher, has and doubtedly the largest and most carefully selected stock of Men's Furnishings in the city. He makes a specialty of Monarch and Manhattan s irts, E. & W. collars, Star shirt waists, Melville Hats and Hathaway, Soule and Harrington's Cars between postoffice and depot

election this afternoon-with the contest only five days the future, and this possibly the last chance I will have of saying anything to you before the fight will have been decided. During the last few days several of my

friends have been pleased to dub me "mugwump," "bolt-'mugwump," "bolt r" and kindred names By "mugwump" it is iderstood that the citizens who are in

and lots of mugwumps and bolters. But as to being a mugwump or bolter-well, let's see about that. In the first place, I live in this man's town pay here just enough tax to keep from having trouble with the collector, and am a registered voter. Again, I'm a free, American citizen, a Again, I'm a free, American Citizen, a lectile, perhaps, past the 21-year boundary. In fact, I voted in Asheville back yonder when Judge Asson was running for mayor. He was a Democrat, and was defeated, but I voted for him I voted once for Mayor Blanton although I opposed him in the primary. I voted the straight ticket every time there was one to vote, my last being for Grover Cleveland. How much mugwumpery is there in that?

I voten just as I'm telling von. But who was who" in the Pearson campaign here a comparatively few years igo? It is all right, some of you say. that is all over with now. It may be

has been known. We had an election last fall, and it was an open secret that "bolting" was very popular in certain quarters. But we carried the county by a good majority, just the same.

Bur as I was saying, I'm old enough to vote myself. I think I know what want, and such terms as "mugwump. bolter," etc. will be received on sul scription and duly considered. 1 am not to come from an intelligent study of all the facts. In his last letter he says of the Islands:

"Captain Mahan writes eloquently of their importance as a naval station, but in a time of peace we don't need them."

"Is shall be composed of good men all through, and then if the good men all through,

> "I've got no axe to grind" is a standing apology on all sides now.

THE policeman who takes a part in active politics, in defiance of the rules of the police department, should be fixed as soon as the new Board goes in, no difference which side he worked on. Policemen ought not to be ward "heelers."

These views are but the views of one voter, and that voter The Tattler.

This beautiful valley extends eastward nine miles, and the road winds up to the head of Tusquittee creek and over the mountain to the Nantahala river, into Macon county. Rowland Howard.

#### Currency Superstitions

From the the New York Sun. At last the sacred \$100,000,000 treasthe Ref rm movement are meant. That being the case, I must say there are lots and lots of mugwumps and bolters. But which, it has been so confidently assertant lots of mugwumps and bolters. urv gold reserve, the infringement upon ed, would be tantamount to national bankrupter, has been broken into, and for one day at least it was not intact by several millions. The deficiency, it is announced, has been temporarily repaired, though how and upon what terms nobody outside of the Treasury Department is able to say. That a fresh uroad upon the fund will soon be made s generally expected, and, at all events, a beginning has been made, and it has been demonstrated that with \$95,000,000 or so of gold in its treasury the country can go on as well as with \$100,000,000.

#### LITHIA HARRIS'

HARRIS' LITHIA SPRINGS, S. C.

After a long and varied experience in the use of Mineral Waters from many sources, both foreign and domestic, I am fully persuaded that the Harris' Lithia Water possesses efficacy in the treatment of affictions of the Kidney and bladder unequalled by any other Water of which have I made trial.

This opinion is based upon observation of its effects upon my patients for the past three years, during which time I have prescribed it freely and almost uniformly with benefit in the medical maladies above mentioned.

When fallure to relieve has occurred, I have imputed it to insufficient use of the Water, for my experience teachers me, that from one to two quarts daily should be taken from two to four weeks, to secure its full remedial effects.
