> Mayor was added as ex-officio member Mayor Patton directed the attention 8 of the Board to Church street, which he thought ought to be paved at the earliest possible moment. He had had a WOOD RED

talk with Capt. Thos. D. Johnston and thought there was a chance for a compromise on the question of widening the street on the west side between Central church and Patton avenue. He sug-gested an attempt at compromise. Al-derman J. M. Gudger said there had been several conferences heretofore with Capt. Johnston and with small results. It was Captain Johnston, be said, that had caused the Board to wait 30 days for a jury report, by refusing to accept service of notice after he had told the chief of police he would accept service. Advisor Millard moved that the street committee and city engineer confer with Capt. Johnston on the case and report, Car-

Night Sessions Coming Advisor Redwood sprung the question of bolding the regular meetings at night in the future, and his motion to that end would probably have been carried had e not withdrawn it after requests from some members that the day meetings be continued for a little while, at least.

Mayor Patton urged the committees to meet at as early a date as possible, so that active work might begin wherever it should be considered necessary. The sewer and water committee decided to go to the water works this afternoon, inspect the plant and line and report to a meeting of the Joint Board

It was decided that the Joint Board would meet as heretofore, on Friday af-ternoons at 3 o'cleek

"Just any time when it will most suit the other members." And so hours o

meeting were fixed for every committee from which an early report is wanted.

EDITOR THE CITIZEN:-I left Yellow Hill on the morning of May 5, recrossing the beautiful Oconoluftee river which sweeps down through the mountains amid which are situated the lands of the Cherokees of Western Carolina. The school buildings and boarding houses are painted white, as are several of the Indian residences. Ex-Chief Smith and is son-in-law Blythe live in good houses ceipts were only \$1,315. The gross re-ceipts, however, were greatly in excess and are both prominent men in their tribe. I called on Chief Smith at his house where he has been confied by scr-ious illness for several months. He talks freely and sensibly about the affairs of committees. On four of these, which strictly belonged to the Board of Alder-men, he had appointed Advisors. This fact was called to his attention, when the Yellow Hill school, and thinks it all important that the school should be con-tinued by government support, and that a first class southern man should be the Mayor said he thought the Advisors should be what their name implied.
