A HIT AT BRIGGS

President Cleveland's Pastor Speaks Out in Meeling.

WASHINGTON, May 22 .- In the First Presbyterian church, the pastor of which is Rev. Dr. Sunderland, and which President Cleveland attended as usual yesterday, Dr. W. M. Smith being invited to speak, took for his text—"Bear ye one anothers' burdens." He said that one-half of our population was out of the church; seventy five per cent. of our young men and two-thirds of the laboring classes not being within its influence.

A Presbyterian church of 115 members,

he said, was bringing only eight addi-tional members a year.

At the conclusion of Dr. Smith's ad-dress Dr. Sunderland arose and said: "Dr. Smith neglected to state the cause of the dissension and distraction in the Presbyterian church at this time. I want, here and now, to state the cause—that cause is Dr. Briggs. I would not be in that man's shoes today for all the world. Let us sing hymn No. 533."

Many of those present went forward and congratulated Dr. Smith on his and congratulated Dr. Smith on his eloquent effort, but the latter, who keenly felt the rebuke of the aged pastor, could

say nothing. IMMIGRATION TALK.

The valve admitting water to the city was closed about 9 a. m., and at 3:30 p. m. the maximum depth was ten feet, the sloping floor being not his Presbytery, and in view of that fact he supported the motion to refer all the quite covered.

We then decided to turn it on again to

the city, and although the new pump continued working at nineteen revolu-tions per minute (its maximum being 26), and also a fairly good stream was coming in from the gravitation line, the Reference of overtures to the judiciary committee was carried and then Dr. Craig said: "Don't you try to overwhelm us with such points at this stage of the game," emphasizing his remark by the flourishing of the gavel which he held in his hand. This was greeted with water in the reservoir rapidly receded, so that by 5:30, i.e., in two hours, it had reached the lowest point we dared to

Now considering that this was on Sunday, and all stores closed, including many of the largest consumers, it is very evident that an excessive waste is being permitted, and conscious of this the committee recommended last week the utmost economy in use of water, which of course, involved stopping unnecessary

I am sure when our citizens appreciate the great accessity of observing the recommendation of the committee, they will do so gladly. And therefore I beg you to give space to this communication this evening, as explaining the reason of this recommendation, at a time which seemed to you and probably to many cleaned up for Sunday. Mr. Brevard accordingly had the street cleaning corps at work until midnight, carrying out, as to subject your committee and their well considered recommendation to ridicule. Very respectfully, T. W. THE NEW PUMP.

The Machinery Will Work Stiffly for a While. The new Worthington water pump was started Saturday and ran all day yesterday. The machinery, because of its newness, worked stiffly, and was not run near up to its capacity. It is thought it will be in good working condition in a few days. The water supply has been on a portion of the time today and consumers will be given water as often as it is possible.

In a line with Mayor Patton's remarks, in his letter, concerning the waste of water, The Citizen can say that on Saturday afternoon, when the water supply was very low, a hose was playing upon one of the largest lawns of the city, when other portions of the town were sadly in need of water for house were sadly in need of water for house
