When it comes to a question of making slates and keeping them intact, the Asheville Reformers might be considered to be right in it. In fact, they can dis count the "Demmies" and have some eft over, and they are recommended to all persons contemplating the establishment of a slate factory.

The Reformers went into the city hall yesterday afternoon with both eyes wide open and, probably (mind you, probably), their minds made up that the bly), their minds made up that the names they had put on their slate should not be crased, although Aldermen Starnes and J. M. Gudger, of the "Straightouts," spat on their hands and tried to rub off some of the names. It was "no go," however, and the new officials, as soon as the machinery got to working easily, were chosen in comparatively rapid succession.

Joint Board. The Joint Board had to hold its session first, and as this was generally known the crowd did not show up full until along about 4 o'clock. All members of the 'J'int' were present with the excep-tion of Advisor McCollum and Alderman

THE TIME COMES And Several Go Down Before the Executioner

When Mayor Patton rapped the Board of Aldermen to order the room held a crowd that was three times as large as the room has ever held. Business proceeded rapidly, interrupted only by the 9 o'clock by Mayor Patton, Mr. stentorian "Walk light, gentlemen" of Janitor Irwine, who, for the life of him, couldn't say whether he would get thicken or or on. Yearchicken or crow.

Elections Begin.

After Alderman J. M. Gudger had been in the Board of Aldermen instead of the provided. "J'int Board," the election of city officers was gone into, the city attorneyship being taken up first. Mr. Westall nominated F. A. Sondley and Mr. Starnes nominated Judge H. B. Carter. Mr. Starnes wanted to fix the salary that the attorney might expect, so there would be no extraordinary bills for fees to consider as an afterelap. Mr. Westall moved that the salary as advisor to the Board in ordinary times be fixed at the region was to preside on Good Templars' the Board in ordinary times be fixed at outvoted. A ballot followed and F. Sondley was elected, receiving four of the

five votes. Liquor Licenses Applications for license to sell spiritu-

ELICTRIC LIGHT TAX.

The West Asheville Company is Not Satisfied.

The West Asheville Improvement com oany is protesting against the action of the Board of Aldermen on Thursday, when a special tax of \$1.50 for each are light and 50 cents for each incandescent light was levied on electric light companies whose business was done partly out of the city. The Aldermen fixed the rate for companies wholly in the city at \$1 and 25 cents for the different class of lights, the idea being that companies from which the city received taxes on plant ought not pay as much as the com-panies whose plants were outside the

Secretary J. D. Carrier, of the West Asheville company, told THE CITIZEN today that the imposition of this tax on his company would when the company began running its business to full capacity amount to the payment of about \$2,200 into the city treasury. The meter system is to be observed by this company, he says, and the company might have to pay 50 cents for some incandescent lights that would probably not be used half a dozen times a year. Further, he says his quence the court had decided to take no company has to pay corporation taxes in Inanda and West Asheville, and on these grounds and on account of what the company considers unjust discrimina-tion against it, he thinks the Board should reconsider its action.

WATER TOPICS.

The Break in the Pipe Line Has Been Repaired. The break in the new water pipe has been repaired, and water was on in the city mains awhile this morning. The new pump has been working all day and pipe and pump seem to be in good order. Waterworks Superintendent Murray told THE CITIZEN at moon that he hoped to be able to turn the water on again at 5 or 6 o'clock this afternoon and leave it running long enough for cooking and bathing purposes tonight. In the morning the supply will be on again for a few hours and again in the after-noon and evening. Of course this arrangement is subject to change should any break occur in the line.
