OBELISK : FLOUR

HAS BEEN REDUCED, AND ALSO MANY OTHER ARTICLES IN OUR LINE.

POWELL & SNIDER

As can well be understood there were many appalling scenes. On the front seat of one of the ambulances rode away one of those who had gone down in the crash.

All during the long hours while the workmen were working with all their strength to rescue such as were not past help, relatives of those that had gone down hovered around the front of the building and with streaming eyes inquired of all whom they met of some tidings of their dear ones.

A look into the interior shows a sickening tale of how some were taken and others left. Desks are seen half toppling over the brink of the broken floor; others stand upright, but the chair which stood beside it and its occupant went down with a crash.

When the crash came there were supposed to be in the building 496 clerks, 16 messengers, 20 laborers and a total of 532 persons.

There were sixteen dead at the morgue. They are: George M. Arnold, colored, Va.; B. F. Miller, New York; John Bushlin, Columbia; Gorman O. Allen, Pa.; F. B. Loftis, New York; David C. Jordan, Missouri; San P. Banes, Pa.; Wm. Schriener, Maryland; J. B. Gage, Mich.; J. R. Fagan, Kansas; J. H. McFall, Wis.; J. W. Brady, N. York; E. M. Williams, Wis. There were also three bodies said to be P. W. Molder, R. S. Dietrich, and Young Jeremiah Bailey of Pennsylvania died at the emergency hospital while the surgeons were dressing his wounds.

Injured. A partial list of the injured at the Emergency hospital is: Fred. Calvert, Charles Mehall, S. D. Dewey, Wm. Lettens, F. N. Test, — Pennington, Charles Miller, C. F. Hathaway, W. M. Patrick, J. A. Stewart, F. F. Sims, Louis Dusany, G. N. McLaughlin. Following are all seriously, but none fatally injured: J. H. Thomas, F. B. Smith, A. N. Gerault, and A. Esterling of Fort Scott, Kansas; — Spadbolt of Missouri.

The Death Roll Increased. This morning the old theater building looked less hideous than yesterday when scores of dead and broken bodies were carried from it.

FORD THEATER DISASTER

TWENTY-THREE EMPLOYEES WERE KILLED.

Names of Some of the Unfortunates—An Investigation Prompted—No Other Building Provided For Employes

WASHINGTON, June 10.—None of those who escaped injury in the fall of Ford's theatre yesterday could tell which of the floors first gave way.

There were many very narrow escapes from death. A number of clerks whose desks rested directly upon the line where the floors broke away saved themselves, while the desks at which they sat were precipitated down the awful chasm.

No women were employed in the building, but in a few minutes after the crash came wives, mothers and daughters of the victims began to arrive.

Most of those first taken out of the ruins were carried to the emergency hospital about 1:30 o'clock.

As can well be understood there were many appalling scenes. On the front seat of one of the ambulances rode away one of those who had gone down in the crash.

All during the long hours while the workmen were working with all their strength to rescue such as were not past help, relatives of those that had gone down hovered around the front of the building and with streaming eyes inquired of all whom they met of some tidings of their dear ones.

THE RAILWAY COMMITTEE

MEETING IN THE COURT HOUSE TODAY.

Speeches by Judge Merrimon, Capt. M. E. Carter and Others—Resolutions Adopted—A Mass Meeting Next Saturday

A number of members of the railroad committee and prominent citizens of this and other counties met in the court house at 11 o'clock today, pursuant to a call made several days ago.

Gen. Robt. B. Vance was made chairman of the meeting. Capt. Matt Atkinson explained the object of the meeting to be the consideration of plans for additional railroad facilities for city and county, which plans are to be submitted to the mass meeting of citizens of Buncombe, to be held here next Saturday, June 17.

He thought that when it came to a question of deciding between applying the \$200,000 of city bonds to street improvements or new railroads, forty-nine fifths of the people would favor the latter.

Judge J. H. Merrimon recounted the history of the Western North Carolina railroad. He said the R. & D. now had its hands on the State's throat and Asheville had to pay whatever the road charged.

Meredit Cooper, of Transylvania county, said that the people of his county had made up their minds to have a railroad and desired the co-operation of Buncombe. Mr. Cooper promised a delegation to the mass meeting.

A letter was read from B. G. McDowell, a director of the Bristol and Elizabethton railroad urging immediate action by the people of Buncombe in securing the building of a competitive road.

Capt. M. E. Carter advised the committee to appeal to the people to stand together in the great question of a new line of railroad; to strenuously avoid a dog-in-the-manger policy; but to accept the most advantageous proposition from the lines desiring to enter Asheville.

Resolved, That this committee recommend to the mass meeting to assemble in the court house on Saturday, the 17th inst., that said meeting take appropriate measures to induce the Board of Commissioners of the county of Buncombe to submit to the voters of the county the question of making appropriations of bonds to such railroad enterprises as may then be agreed upon and suggested.

The meeting then adjourned until Saturday next.

COTTON.

Only a Slight Increase in Area Fitted.

WASHINGTON, June 10.—Returns of the correspondents of the Department of Agriculture June 1st show that over a large part of the cotton belt the development of the plant has been retarded by cold weather and excessive rains.

Prospects of a good crop in much of the cotton territory is, however, improved in consequence of more favorable weather. Average of condition of crop is 85.6 as compared with 85.9 last year.

State averages: Virginia, 95; North Carolina, 83; South Carolina, 88; Georgia, 87; Florida, 98; Alabama, 82; Mississippi, 80; Louisiana, 87; Texas, 82; Arkansas, 80; Tennessee, 92.

The returns show only a slight, instead of large increase of acreage planted, as compared with last year.

PIPE AND PUMP.

How The New Water Supplies Are Working Now.

The new pumping machinery and pipe line continue working well. Amalgam experts it is considered rather remarkable that a new line of pipe 16,000 feet in length should work without developing a single leaky joint.

The water pump has worked well while in service, but the steam pumps, if anything, exceeded expectations. Its capacity guaranteed by Henry K. Worthington the builder, is a million and a quarter gallons of water every 24 hours.

CASES OF CHOLERA.

These Are Increasing in Mecca—Arabia. PARIS, June 10.—Cholera has shown itself at Narbonne, having communication with the Mediterranean through the canal of Narbonne which traverses the town.

ALEXANDRIA, June 10.—The number of deaths from the cholera in Mecca yesterday was 70, indicating that the disease is on the increase.

Another Big Battle Ship. PHILADELPHIA, June 10.—The big battle ship Massachusetts, was successfully launched from the ship yard of the Cramps this morning.

THE HUNT CLUB'S RACES

YESTERDAY'S SPORT AT CARROLLERS TRACK.

The Bicycle Race Won by Howard. With Sawyer Second—Trotting, Hurdling and Hurdle Races A Large Attendance

The races of the Newmannia Hunt club at the track on the West Asheville and Sulphur Springs roads, are coming to be considerable events in the pleasure seeking world.

The delightful ride on the railway, the green fields and the genial sunshine were enough of themselves to provoke a large crowd, and with the races an additional inducement, the cars were packed from 3 o'clock till 7 going and coming.

The first event was the bicycle race, three entries, three to start, Sawyer, Moody and Howard; half mile for silver match box, first prize; silver whistle, second prize. At the start it looked as if Sawyer would win, but on the home stretch Howard pulled up and went untried.

The trotting race, one mile, best two out of three, three entries, two starters, "Maud" and "Celie." ridden by her owner, came to the hurdle just as Sevier was turning "Celie" for a new effort, and following the example set by her owner, she refused to take it.

The running race, half mile, best two out of three, three entries, three starters, "Bob Simpson," "Fannie" and "Donovan" was won by Sticklebush's "Fannie" in good style, with Wright's "Donovan" second and "Celie" third.

The hurdle race, one half mile, best two out of three, with Dr. Battle's "Tidbit" in the lead by M. H. Kelly has done. There have been, it is true, two breaks in the line, but these were due to defects in the pipe itself and not in the work of the contractor.

The water pump has worked well while in service, but the steam pumps, if anything, exceeded expectations. Its capacity guaranteed by Henry K. Worthington the builder, is a million and a quarter gallons of water every 24 hours.

The water pump has worked well while in service, but the steam pumps, if anything, exceeded expectations. Its capacity guaranteed by Henry K. Worthington the builder, is a million and a quarter gallons of water every 24 hours.
