

ASHEVILLE DAILY CITIZEN

THE DAILY CITIZEN, Democratic, is published every afternoon (except Sunday) at the following rates:—

MONDAY, JUNE 19, 1893.

WAS IT A "WARNING?"

All five men who were struck by lightning Monday were wet men. Col. Salisbury who dropped dead a short time after he voted, voted a wet ticket. A terrible warning.—Marion Free Lance.

It looks to THE CITIZEN more like a remarkable coincidence. The assumption of the Free Lance is that the Power that directs the lightning was on the side of the prohibition cause in McDowell county last Monday and took this awful way of enforcing that fact. But what of the others who voted for license that day? Why were they allowed to escape? Were they less "wet" than those who were killed? Does it not also appear to the Free Lance that, if he had voted, he would have had more value as a warning, since it would have deprived the license cause of one vote?

The Free Lance will probably say that it cannot determine why some were taken and others left. Nevertheless, if it has the almost supreme knowledge necessary to enable it confidently to assert that these visitations of the lightning form a warning to men not to vote for high license in McDowell county it cannot stop there; it must go on and reveal the whole scheme of punishment as it understands it. We shall ask it to explain why the lightning occasionally strikes a church and passes by the distillery, why the good are daily taken from us by thousands and the wicked frequently go unharmed; why McDowell county should have a "warning" and Madison county none.

THE CITIZEN believes that a man may as conscientiously and intelligently vote for high license as for prohibition; that the freaks of the lightning cannot be taken to enforce lessons of morals, good or bad; and that the Free Lance has shown a tendency to slip back into the dark ages.

TAKE OUR OWN MEDICINE. Southern newspapers cannot be blamed for ringing the changes on the recent disgraceful outbreaks of mob law in northern States. They are turning against the people of Michigan and Illinois all the severe things which northern people have said about southern lynching, and nothing can be said in reply. The truth is that the northerners are by long odds the worst offenders. Their outbreaks of brutality directed against a defenseless prisoner in the hands of the law are without shadow of justification, and if the southerners can sting the people of Michigan and Illinois into sufficient indignation to make them punish the crowds of ruffians that have disgraced them they will do the whole country a service.—Springfield, Mass., Republican.

This is very true. It is peculiarly gratifying to have a Northern paper fight some of our skirmishes in a quarter where long-range firing, from the South, is not likely to be effective. But there is a danger in such comment nevertheless, and it is that the South will thereby be tempted to make the less effort to blot out the crime of lynching because it is said also to occur in a part of the United States where there is less justification for it.

THE CITIZEN feels more jealous of the good name of the South than to use any such excuse. This is, it is frequently said, the part of the United States that has been least invaded by the foreigner. It is therefore the more homogeneous and more thoroughly American. It should therefore show the highest type of civilization; it should set an example for all the other States for good. The fact that Massachusetts has, in Jesse Pomeroy, a boy murderer, cannot excuse the fond North Carolina father from punishing his young hopeful for stealing apples. If Michigan chooses to let its lynching mobs go unscathed it is all the more necessary that North Carolina should set a much-needed example and decline to excuse murder whether done by the mob or by the individual.

Of course the South cannot be blamed for giving the North a dose of its own medicine, especially since the North frequently makes the charge that the South's lynchings are largely political in their cause; but it is more important that we take our own medicine. We ought to give to the North an example of a community without a serious blot on its civilization.

NO EXTORTION ON EDITORS

Chicago is Robbing Only The Careless and Foolish. From the Hendersonville Gold Leaf.

The editor found no such exorbitant prices either at the Fair grounds or in the city as some of the fellows who write from imagination, or certain "special correspondents" who are evidently piqued at some real or imaginary slight received at the hands of the management of the World's Fair, had led us to expect. All this talk about having to pay every time one turns around is mere bomb. There was no extortion, no unreasonably high price charged for anything.

I want to correct a most flagrant and erroneous idea in regard to the Fair charging for everything. Every building and every exhibit belonging to the Fair or its management is free to all who have been admitted into the grounds. When you pay your fifty cents, that admits you into everything belonging to the Fair that day.

Important Notice. We are always glad to have our friends call to see us, but the composing room of a printing office is no place for visitors during office hours. Please bear this in mind—especially when the printers are at work.

H. G. C. \$1.00 bottles 75 cents. Pelham's.

An opportunity while it lasts—After July 31, 1893, the original 10 cent fare will be resumed. Until that date the round trip from postoffice 25 cents. Open car every hour between Depot and Springs until 6:30 p. m. See Schedule. I. D. Carrier, Secretary.

TAK HEEL TRACKS.

Shelby Review: The press dispatches announced Friday that "L. D. Fox" had been appointed postmaster at Kings Mountain. This is evidently a mistake as the Postmaster General had announced his intention to appoint Mr. K. S. Plouk. There was no applicant for the position of the name of Fox.—Billie Wilson cut his finger the other day and wrapped it up in a rag saturated with turpentine, this caught fire and burned his finger like fury. He wrapped it up again in another rag and more turpentine and this also took fire and burned his finger fearfully. It may have to be cut off.

The agricultural college trustees order the addition of a department of military instruction, and ask the detail of an United States officer as instructor, beginning September 1. A preparatory department is provided, also post-graduate courses; four post-graduates to be instructors of preparatory students. The trustees re-elected W. S. Primrose, of Raleigh, president of the Board of Directors. B. S. Skinner was elected farm superintendent.

The Shelby Review says that Mr. and Mrs. R. Y. Weathers of that township have a most remarkable record. They raised a family of twelve children to manhood and womanhood, and no member of the family ever took a dose of medicine until Mrs. Weathers' last illness, which terminated in her death several months ago.

The fine plant of the Carolina Pulverizing company at Blacksburg will soon be in operation. The plant will have a capacity of five tons of pulverized mica per day. The raw material will be supplied by the mica mines of this county, says the Shelby Review.

Winston Sentinel: An expert has recently been in North Carolina to see if this State is available for raising hops. He reports climate and soil good and believes that some of the New York hop growers will locate in the central part of this State.

The Clyde Register warns the women of "Baloon sleeves" that they are violating a command of Holy Writ. Read the 15th verse, 13th chapter, Ezekiel. "Thus saith the Lord God, Woe to the women who sew pillows to the armbolts."

The people of Salisbury have decided to license saloons. The result was not unexpected, the only surprise expressed being at the large majority by which license carried. There was no lightning, as in McDowell.

Gastonia Gazette: The eight-year old son of Thomas Spencer fell 20 feet from a tree Friday and was taken apparently dead. He rallied, however, and is all right again.

The Fifth Annual convention and tournament of the North Carolina State Firemen's association will be held in Wilmington on the 26th, 27th and 28th July.

Miss Lillian Long of Chapel Hill is elected to fill the chair of history and literature at Greensboro Female college, has and accepted.

It is alleged by planters that cotton is ten days behind.

A FEAST OF REASON

From Henderson County, Blue Ridge Academy.

EDITOR THE CITIZEN:—The closing exercises of the Blue Ridge academy, Prof. Brock's school, took place on Friday, June 16, commencing at 10 o'clock a. m. This academy was established in 1858, the house being erected on the great water divide in Blue Ridge Township, eastern portion of Henderson county. It has sent out numbers of young men who have been useful and prominent citizens.

The exhibition was held under the canopy erected for religious worship, the auditory being quite large. The salutatory address was made by the Hon. J. Williams of Hendersonville, who was educated in this school. He gave an interesting sketch of the use and usefulness of the Blue Ridge Academy. Then followed recitations by the girl speakers of the school: Misses Mollie Justice, Berrie Brock, Minnie Page, Harriet Justice, Sallie Brock, Alice Brock, Eliza Lance, Maggie Davis and Eugenia Case.

The boy speakers were: Edward Osteen, Thomas Osteen, King Justice, Ernest Williams, Luther Case, F. P. Jones, J. M. Edwards, E. A. Burns, A. B. Higgins and J. S. Stepp. Not a single mistake was made by any of the students, each one showing excellent training and close application.

The music was led by Miss Maggie Davis on the organ, accompanied by a stringed band of young men.

The literary address before the society was delivered by the Hon. John W. Starnes of Asheville after which Prof. Brock called on Tillman R. Gaines of THE CITIZEN to make the closing talk.

Then followed the picnic dinner spread on a long table of boards framed in the grove, on both sides of which the delighted throng refreshed their physical natures by a feast in keeping with the literary banquet they had just enjoyed. Blue Ridge.

FAIR AND CLEAR—that's the way your skin will be, if you'll take Dr. Pierce's Golden Medical Discovery. Eruptions, blotches, eruptions, and humors are utterly banished by this medicine. It takes away more thoroughly and certainly than anything else, the blood poisons or impurities that cause them.

For every Skin, Scalp, and Scrofulous affection, no matter how it came, the "Discovery" is a direct remedy. It cleanses, builds up, strengthens, and invigorates every part of the system. Eczema, Erysipelas, Salt-rheum, Tetter, Boils, Carbuncles, Enlarged Glands, and the worst Scrofulous Sores and Swellings are completely and permanently cured by it. Unlike ordinary spring medicines, the "Discovery" works equally well at all seasons. Practically, it's sold on credit. If it ever fails to benefit or cure, you have your money back. You pay only for the good you get.

No cheap substitute, urged by a tricky dealer, though it may be better for him to sell, can be "just as good" for you to buy.

LOVE'S SEASON.

In sweet days when he'll be flushed with love, when you'll be flushed with love, when you'll be flushed with love, when you'll be flushed with love.

Oh, then I think that I love you best! And yet when winter, that frost master, has laced a chain in walls of snow, and loomed and fettered where bold frost cut her.

But when in splendor the greenly summer, reigns over the earth and the skies above; When Nature lends to the royal summer, and even the sun dimes hot with love, when pleasure backs in the luscious weather, and sure the zest on the stars is set— Oh, whether you'll or whether I shall be, it is then I know that I love you best!

GLENN SPRINGS WATER

IS A SURE RELIEF TO SUFFERERS.

What Hon. T. D. Johnston says about it: "About four years ago I commenced the use of the Glenn Springs water, to rid my system of the malaria from which I had been suffering for some time. The water has entirely relieved me and I cheerfully state that I believe it to be as good water as can be found for all ordinary diseases of the liver and kidneys. For a general tonic and renovator of the system I believe it has no equal. Very truly yours, T. D. JOHNSTON."

From John P. Arthur, Esq., Attorney at Law: "I don't know the constituents of the Glenn Springs water, if I did I would make some for myself. Neither do I know how it acts; if I did I would act so myself. It is a well made water and it acts well. I can only say that its effects on me and my forefathers has been more beneficial than any other water we ever used and I am glad it has been put in the reach of a poor man as 'To Pelham's Pharmacy, May 25, 1893.'"

What C. T. Rawls writes Pelham's Pharmacy, Asheville, N. C.: "Gentlemen—I have used Glenn Springs water and consider it, as compared with other mineral waters, the best I know of. Everyone in South Carolina knows about 'Old Glenn Springs.' In fact it has been most favorably known there for a century. Yours truly, C. T. RAWLS."

HARRIS' LITHIA WATER.

HARRIS' LITHIA SPRINGS, S. C. Office of Dr. John Hey Williams, Asheville, N. C., April 24, 1893.

An extended clinical use of Harris' Lithia Water, prompts me to the statement that I regard it as one of the best, if not the very best Lithia Waters known to the profession. In the condition of "phosphatic urine," its action is marvellous. Its use in the rheumatic and gouty diathesis, affords me more comfort than either the Buffalo or Londonderry waters. Very truly yours, JOHN HEY WILLIAMS.

I have used Harris' Lithia Water and when using same was both pleased and benefited. In using it liberal quantities should be taken—for my experience teaches me that small amounts are disappointing, whereas a generous use is followed by most gratifying results. Asheville, N. C., April 14, 1893. I am glad to be able to say a word with regard to Harris' Lithia Water. I have used it with the greatest possible benefit in chronic rheumatism. As compared with the Buffalo Lithia I find it quicker and requires less quantity. It has my hearty endorsement. MRS. T. W. BRANCH.

—FOR SALE BY— Pelham's Pharmacy and Raysor & Smith.

STRAUSS' COSMOPOLITAN RESTAURANT:

ICE CREAM PARLOR.

Herewith I beg to inform the public in general that I am now again ready for business and will serve any orders in first-class style and at any time. My dining room is cool, large and airy. Regular meals I reduce from this day on to 35 cents each. Latest addition is a fine private parlour for ladies. Meals served at shortest notice; also orders taken for same to be sent to their homes. No extra charge for sending. Ice cream sent at 50 per quart. For particulars apply to
