POPE ON PUBLIC SCHOOLS

THE LATTER NOT ENTIRELY TO BE CONDEMNED.

> But The Cathol'c Schools Are to be Multipiled In Number And Brought to a Perfect Equip-

BALTIMORE, Md., June 21 - Cardinal Gibbons has given to the United Press a Pope's love for America, culogizes Monsignor Satolh and gives the twofold purpose of his mission. His position on the school question, unexplained to archbishops in New York, and misunderstood by others, is endorsed by the pope who declares it to be in harmony with the action of the Baltimore council which remains in its integrity. After referring to the action of Satolli at the meeting of archbishops in New York when he laid before the meeting certain propositions on the Have You Furnished It? school question, the Pope says:

"But these propositions of our delegate having been inopportunely made public minds were at once excited and controversies started afresh, which through false interpretations and through malignant imputations seattered abroad in newspapers, grew more widespread and more serious. Then certain prelates of your country whether displeased with the interpretations put upon some of these propositions, or fear-ing harm to souls which it seemed to them might thence result, confided to us the reason of their anxiety, and we, knowing that the salvation of souls is the supreme law to be ever assiduously born in mind by us, and wishing more over to give you another proof of our solicitious effection, requested that each of you should, in a private letter, fully open his mind to us on the subject, which was difigently complied with by each one of you. From all of these letters it became manifest to us that some of you found in the propositions no reason for apprehension, while to others it seemed that the propositions partially abrogated the disciplinary law concerning schools enacted by the council of Baltimore, and they leared that diversity of interpretations put upon them would engender dissensions which would prove detrimental to Cath-olic schools.

"After carefully weighing the matter, we are convinced that such interpretations are totally alien from the meaning of our delegates, as they are far from th mind of this apostolic see. Then the principal propositions offered by him were drawn from the decrees of the third plenary council of Baltimore, and they especially declare that Catholic school are to be most sedulously promoted; and that it is to be left to the judgment and to decide according to circumstances, when it is lawful and when unlawful to attend the public schools. Now if the words of may speaker are so to be taken that the latter part of his discourse shall be understood to agree, and not to disa-gree, with what he had said before, it is surely both unbecoming and unjust so to explain his later utterance as to one, and this is more true since the meauure. He added moreover, that these eral rule of action, are faithfully to be observed, and that, although the public schools are not to be curirely condemned since cases may occur in which it is lawful to attend them, still every en-Catholic schools and bring them to per tect equipment. But in order that there may remain no further room for doubt we again declare that the decrees which the Baltimore council have enacted con-cerning the parochial schools and whatever else has been prescribed by Roman pontiffs, whether directly or through the sacred congregation, concerning the same matter, are to be steadistly observed."

FAIRVIEW NOTES.

That Railway Mass Meeting-Lumber Burned-13 Children.

FAIRVIEW, N. C., June 20,-Some of our citizens have gone to Asheville today, we learn, to enter a protest against the way Fairview was treated at the railroad mass meeting on the 17th inst. At this time your correspondent will withhold any comment, but will no knowledge his ignorance by contessing ford counties could vote as to whether the citizens of Buncombe had a right to tax themselves to build additional cail-roads. This right was conceded to them, as I understand in the above mass meeting. Will wonders never cease? The plank kiln in which there was 750 feet of flooring lumber for the Baptist church was destroyed today by fire. J. M. A Two-Hended Turkey,

The most interesting contribution to THE CITIZEN'S constantly growing muscum was made today, the contributor A JOKE ON 'EM

A Story That Has the Moral Read The Citizen. It's a good one, a really good one

secrecy, and here goes to tell it:

THE CITIZEN bas not been sworn to

Everybody in Asheville knows, or should know, that if you find four men here who are more interested in Asheville than Mayor Patton, Geo, S. Powell, Capt. M. J. Fagg and R. P. Walker, copy of an official translation of the much | you must get out hunting early. Those discussed encyclical letter from Pope Leo who are readers of THE CITIZEN learned on the school question. It shows the yesterday that the Southern Passenger association, a body that controls the railroads, was holding a meeting at the that the association was in session the four citizens named above, in executing what they thought their duty, spaired to the Battery Park where, after shaking hands with Hon. Kope Elias and Col. A. B. Andrews, they were shown into the ball room, in which the "road

gents" were holding a meeting. Col. W. A. Turk, the genial G. P. A. of the R & D, whose girth and size gen-erally impress every beholder instantly, arose and inquired of the committee what it would have. Mayor Patton, acting as spokesman for the committee, replied that the object of the call was to nake an effort to induce the railroads, was an effort to induce the railroads, through their passenger agents, to sell World's Fair trip tickets by way of Asheville allowing the tourist the privilege of stopping over here on his way to or from the Windy City.

Just here The Joke walked in and took a seat. Col. Turk straightened himself.

and, with manner suave and the faintest suggestion of a smile on his face, pro-ceeded to inform the visitors about thusly

"Gentlemen, we should be glad to grant your request now, but—the tickets you ask for have been on sale at our offices for some time past."

This was an astonisher to the commit-

tee, and after exchanging a few pleasant words with Col Turk and S. H. Hardwicke the committee left the room. The story evidently got out soon after the visit and the agents had hearty laughs and the laugh was on some person out side of the association. As a matter of fact, THE CITIZEN pub

ished several weeks ago the act that World's Fair tickets would have a stopover clause in all cases where the tickets read via Asheville. The story is told. The moral is: Read

osted. Jokes aside, however, as one of members of the association said of the visit, it is just as well for the business men of Asheville to let everybody know that they are alive to the interests of their city

PERRIBLE PANIC IN A MAD RID CIRCUS.

Explosion of Dynamite Caused a Rush and Some of The Audience, Falling, Were Crushed By Those Following Closely

MADRID, June 21 .- Great excitement prevails throughout the city in conse juence of an attempt last night to blow up with dynamite the residence of Senor Conovas De Castello, late Prime Minister. At the time of the explosion rates of passenger traffic of Southern a performance was being given at the circus, a short distance from the Battery Park. The shock of the explosion was so great that it caused part of the ceiling directly over the stalls occupied by part of the spectators to crash down upon their heads.

Among the occupants of the stalls were the grand-son of the Marquis of Havana, President of the Senate, and the son of the Marquis of Guadelest. The for-mer was struck on the head by a large piece of ceiling and sustained injuries that will cause his death. The son of the Marquis of Gaudelest attempted to rush from the building, when he lost his footing and the panic-stricken crowd trampled him to death. His body, removed from the building later, was hardly recognizable.

Several others were trampled upon by the crowds and seriously injured, while a large number who escaped unaided from the building sustained painful but not dangerous injuries.

Sickening Condition of a Cour Place Basement.

At the request of Mayor Patton THE CITIZEN this afternoon visited the base ment of the building No. 18 North Court place, in which Mayor Patton said be had found a nuisance. A half second in the building would be sufficient to convince anyone that the Mayor had put the matter lightly. The pipe leading to the sewer had became stopped up, causing an overflow, and the cement floor was covered for some distance round to a depth of an inch or more.

From this arose a stench that the word sickening scarcely describes.

It is such things as this that might cause sickness, and they cannot be attended to too quickly. It is said that there are other buildings in the city that are in similar condition, and the owners are in similar condition, and the owners owe it to themselves and the city of Asheville to see that such condition not allowed to exist.
