VOLUME IX.—NO. 65.

ASHEVILLE, N. C., WEDNESDAY EVENING, JULY 19, 1893.

PRICE 5 CENTS.

PILLSBURY

BEST FLOUR

TEA IS TEA!

Of course, whatever its quality. Gold is gold, whether it be 9 karat or 22, but somehow people prefer the 22. In like manner they prefer the best quality of tea when they can get it, especially if the price is reasonable. We have a dozen different kinds and flavors and can doubtless suit you in price and quality.

SOME WORDS OF SENSE

GOOD ADVICE FOR TIMES OF FINANCIAL UNREST.

The South is on a Solid Basis and Has Nothing to Fear—Good and Bad Banking Business—How to Discriminate.

New York, July 19.—Comptroller of the Treasury James H. Eckles was the guest of his predecessor, ex-Comptroller A. B. Hepburn, at dinner at the Union League club last evening. In the course of his speech, on being toasted, Mr. Eckles said: "It is not the time of the panic because we have passed the period in our history when panic is a possibility, but it is one of slow liquidation, the result of undue speculation and unwise financial legislation. Nothing is to be gained by taking on fright that is unwarranted by either the immediate past or immediate future. What the American people ought to do in the midst of the failures that have occurred is not to give way to the uncalculated alarm but to study the character of the institutions which have failed, the causes which have produced them and the localities in which they have occurred. After such study, let them view the solvent institutions everywhere about them and the conclusion that must irresistibly follow is that the legitimate life of the country is not threatened, but instead will come out of the present out of the stronger for having passed through it. In the conservative business centres failures have been few either in banking or other lines. "Bad banking at any and all times is dangerous and must eventually bring distrust upon those who engage in it. The present stringency has simply hastened the closing of some banks because they were inherently weak; others have closed as the resultant effect of having kept alive the operations of speculators in the extreme West and in portions of the South. The art has not as yet been discovered of making something out of nothing, and the financier who stakes his all upon an untried city, reaching out into waste places, is the one who must bring about the ruin of his own and kindred institutions which have trusted in him and pinned their faith to assets yet unborn. The disasters have fallen upon the speculative institutions in the boom cities of the States of Washington, California, Colorado, Kansas and Missouri, which have in turn injured solvent ones, but the States of New England and East and Middle States and those of the Northwest, not less than of the South, have thus far escaped, and will because the foundation upon which they are built is of rock and not of sand."

THE SOUTH CAROLINA CASES.
One Alleged Offender Bound Over for Selling Beer.
CHARLESTON, July 19.—The postponed case against Vincent Chico, for the alleged illegal sale of intoxicating liquor in violation of the dispensary law came up before Judge Milan yesterday. The State had issued a second warrant in which Sanders, who acted as Chico's agent, included. But warrants were before court Tuesday, the first alleging the sale of three glasses of beer to Constables Jolley and Chappell. The only witness heard was Constable Jolly, who swore that he bought beer from Chico once only, and in the presence of Chappell. He affirmed that he never purchased any on that day in the presence of Pepper. Lawyer Bissell argued that the warrant only was before the court and that Jolly's testimony proved it to be false. He asked for the dismissal of this client on that warrant. Judge Milan consulted Solicitor Jervey and decided that inasmuch as the sale of the liquor was a material point and not to whom it was sold, Chico was bound over to trial at first instance and that the second indictment was done. Lawyer Bissell threatens to begin habeas corpus proceedings upon his evidence. While the community is in favor of the enforcement of the law, there is deep indignation at the outrageous conduct of constables on Saturday. Hoyle Pepper, the constable who tried to shoot Chico on Saturday in a trial justice's office, has been bound over in the sum of \$500 for trial at the county sessions for assault and battery with intent to kill.

3,000 MEN OUT OF WORK.
THE LARGEST COTTON MILL CLOSURE For a Month.
BOSTON, Mass., July 19.—The Amoskeag cotton mill has shut down for August. This is the largest cotton mill in the United States and probably in the world. It employs 8,000 operatives, uses 6,000,000 pounds of cotton per week, and pays \$225,000 per month in wages. The shut down was necessitated by the present unsettled condition of trade.

Spotis a Good Story.
WASHINGTON, July 19.—Any doubt that may have existed in the mind of the acting secretary of the navy as to the improbability of the story that the United States Moebian was fired upon and disabled by the Alexandria are now set at rest. All the latest versions of this narrative now agree in fixing the date of the alleged engagement as May 25. The records of the navy department show that the Moebian was at Port Townsend as late as May 27 and did not leave for the Behring Sea until some time after that.

A Tragedy of the Sea.
WAERLAND, Antwerp, July 20.—The Steamer Yumuri from Vera Cruz and Havana, which arrived today, while in lat. 32, lon. 78.18, passed the schooner Robert P. Chandler of New York, from Mobile for Matanzas, waterlogged and abandoned in the track of the north bound vessels.

WITH THE COLLECTOR.

District Attorney Glenn Comes Up to Have a Talk.

Today Collector Elias announced the appointment of T. G. Phillips, Mitchell county, to the position of brandy gauger, at a salary of \$3 a day and expenses. U. S. District Attorney R. B. Glenn, who "fought" in the last campaign, and whose admirable speech here will be remembered by every Democrat in Asheville, came up from Winston yesterday to have a talk with Collector Elias. He mentioned a couple of his friends to the Collector, who gave the Attorney a nice new pencil with which to "make a note" of a few things the Collector told him. The pencil was accepted without a formal speech, but Mr. Glenn remarked that presents of this kind were duly appreciated and proceeded to make a note. Mr. Glenn looks as vigorous as ever, and seems hardly entitled to meet half a dozen Maryann Butlers on the street if necessary. Collector Elias recently asked Commissioner Miller about the increase in the number of division deputies. The Commissioner replies that for the present the increase cannot be allowed. Shelves and cases are being put in on the third floor of the government building, and when the work is completed the old papers and records that are now stored in the old collector's office on North Main street will be removed to their new storage places. The government is now paying \$50 a month for this storage.

The Charlotte Observer says of the newly appointed stamp clerk: "Mr. Brenner is not only a gentleman of high character, deserved popularity and fine business qualifications, but he is experienced in the particular line of business which he is about to enter, having served in the revenue office of this district under Collectors Dowd and Craigie, 1885-89, keeping, under the latter, the bonded spirits account, the most difficult in the business."

THE VICTORIA COLLISION.

The Maneuver That Trvon Ordered Was Impracticable.

VALLETA, Malta, July 19.—The first witness today before the Victoria court martial was Rear Admiral Markham, whose flag was flying on the Camperdown at the time she ran into and sunk the Victoria. When questioned as to the impression made upon him when the signal of Vice Admiral Trvon was hoisted on the Victoria ordering that the distance between the two columns be six cable lengths, Rear Admiral Markham replied that when the signal was read he said to his flag lieutenant that the movement was impossible, since it was an impracticable maneuver. The Rear Admiral then reported the story of the signals as contained in his despatches to the admiralty. He said that when he signaled to the Victoria that he did not quite understand the signal the Victoria answered that the Camperdown was delaying the maneuver. It then occurred to the witness that he was to put the helm of the Camperdown down and turn her 15 points to starboard, while the Victoria would ease her helm and circle around outside of the division which was being led by the Camperdown.

THE DENVER BANKS.

They Still Continue to See Trouble Ahead.

DENVER, Col., July 19.—The following notice was posted on the doors of the State National bank: "This bank will not be opened for business this morning. Depositors be paid in full." At the hour of opening for business, crowds had assembled at the different banks, but there did not appear to be the same excitement among the depositors as existed yesterday. The doors of the German National bank did not open for business at 10 o'clock this morning. No notice was posted on the doors, but it is believed it has suspended payment. The excitement is rapidly increasing and runs are threatened on the other banks.

A SCOUNDREL SHOT.

While He Was Assaulting the Wife of His Employer.

PETERSBURG, Ind., July 17.—Henry Ault instantly killed Remy Miley a few miles east of this city late Saturday night. Miley had been employed for several years by Ault's father. Young Ault is a school teacher. The elder Ault is in Cincinnati on business. Ault and Miley met at Alford, during the evening and went home early and retired. About midnight Ault heard a noise in his mother's room and hearing a man threatening to shoot any one who came in, he realized that an attempt at assault was being made. He took his pistol, saw Miley there, and, without a word, shot him dead.

AN ULTIMATUM.

France Has Made Certain Demands on Siam.

LONDON, July 19.—M. Deville, French foreign minister, has telegraphed to M. Pavie, French minister resident in Bangkok, the terms of an ultimatum which the minister resident is to present immediately to the Siamese government. According to the ultimatum only 24 hours are given Siam in which to make answer to the French demands.

The L. R. & E. S. Road.

HOT SPRINGS, July 19.—[Special.]—James Wynn, president of the Laurel River and Hot Springs Railroad company, is here. He paid off all hands yesterday and pending a reorganization of the company, work on the road will stop for some time. The road is finished and running 2 1/2 miles and is graded four miles. The season at the Mountain Park hotel has now fairly set in and guests from all parts of the country are arriving daily to use the fine baths, excellent hotel accommodations, etc.

Yellow Jack a Passenger.

LEWES, Del., July 19.—The American bark Alice Reed from Cienfuegos, with sugar for orders, arrived at the Delaware breakwater last night. Both mates had yellow fever on the passage and one died, and was buried at sea. The vessel was quarantined and fumigated.

EXCURSION TRAIN WRECK

AN OPEN SWITCH DOES THE MISCHIEF.

Two Men Killed, 20 Excursionists Injured—Unusual Place For a Railway Accident—Fire Narrowly Averted.

BUFFALO, N. Y., July 19.—An excursion train carrying the Sunday schools of Bethany and Bethlehem churches of Buffalo, on the Western New York and Pennsylvania railroad, was wrecked at East Aurora at 7:30 last night. One man was fatally injured and perhaps 20 persons were more or less seriously hurt. The two engines were crushed into masses of twisted steel and, lying in the bottom of a turntable, were covered with the timbers, glass and iron of the first two coaches. These coaches were filled with excursionists, and that they escaped with no more serious injury is almost a miracle.

As near as can be learned the accident was due to carelessness. The evening local train from Buffalo to East Aurora has just pulled into the station where it stopped. Engineer Holland had taken his locomotive to a turntable, preparatory to heading it towards the city for the morning trip. The switch was left open, as the engineer intended taking his engine out on the main track and back to a siding for the night. Just beyond the turntable is a sharp curve and beyond that the track rises on a heavy grade. The engineer of the incoming train saw the danger, but too late to stop the train, and it piled into the pit on top of the engine already upon the table. The baggage car and first two coaches are a complete wreck.

The scene in the wrecked coaches was almost indescribable, women and children being thrown under and over seats and through windows, cut with living splinters, their limbs broken and bruised. The cars took fire, but the additional horror was averted by the prompt action of the village fire department. Citizens rushed to the rescue and doctors were summoned from the city. The injured were speedily relieved and all possible attention was given to them.

ANOTHER CONVENTION.

There is a Conservative Element in Colorado.

PUEBLO, Col., July 19.—The more conservative element of the people of Colorado realize that the silver convention held at Denver the first of the week accomplished nothing toward the purpose for which it assembled. A proposition is on foot to call another convention, which shall aim at the pockets rather than the sympathies of those whom it is hoped to convert to the ideas of the west. The proposed convention is to be composed of business men, and the direct object which is sought is a combination among the merchants with the intention of diverting the trade of Colorado and adjacent states from the wholesale trade of the east to that of the south.

THE SILVER DOLLAR.

It is Still Good Money and Will Always Be.

WASHINGTON, July 19.—The attention of the treasury department has been called to the fact that small tradesmen in different parts of the country have refused to accept silver dollars in exchange for commodities except on a basis of 50 to 55 cents of value. Speaking about this refusal Acting Secretary Hamlin yesterday said: "The silver dollar is a legal tender, and when offered in payment for any debt must be accepted, and if refused I don't see how the man can collect the debt again."

THE COLD STORAGE FIRE.

Several Accused Persons Held to Grand Jury.

CHICAGO, July 19.—The coroner's jury investigating the World's Fair cold storage calamity, reached a verdict last evening. The jury held to the grand jury the following persons: D. H. Burnham, director of the works at the World's Fair; Fire Marshal Edward Murphy of the World's Fair fire department; J. H. Skinner, president of the Hercules Iron company; Chas. A. McDonald, secretary and treasurer of the Hercules Iron company.

MADISON SHOOTING.

A Son Shoots the Antagonist of His Father.

MARSHALL, N. C., July 19.—[Special.]—A fight occurred on Shelton Laurel Monday night between Daniel Cutshall and Jack Gentry. During the progress of the fight Gentry's son shot Cutshall twice. One of the wounds is thought to be fatal. No arrest has yet been made, but diligent search is being made for Gentry.

Fatal Boiler Explosion.

ELMIRA, N. Y., July 20.—The boiler in the Tonawanda nail works at Tonawanda, Pa., exploded yesterday afternoon. Andrew Benjamin was instantly killed, Ross Hutton fatally injured and a man named Bennett severely injured and killed. In a few minutes after the explosion the whole plant was in ruins. The plant was owned by W. H. Goodrich and the loss is estimated at \$25,000, about half insured.

Lost \$10,000.

NASHVILLE, July 18.—W. H. Wallace, a prominent lumber dealer of Lebanon, Tenn., was either robbed or else lost a pocketbook containing notes and money, aggregating \$10,000, somewhere between St. Louis and Nashville Monday.

Leaves the Episcopal Church.

NEW YORK, July 19.—Rev. Edwin Benjamin Russell, the well known rector of the American chapel in Florence, has abandoned the Protestant Episcopal church and been received in the Roman Catholic church.

A Historian Dead.

AUGUSTA, Ga., July 19.—Col. C. C. Jones, jr., historian of Georgia, died this morning of Bright's disease, aged 62.

READ THESE TESTIMONIALS

Harris' Lithia Water,

Harris' Lithia Springs, S. C.

Office of Dr. John Hey Williams, Asheville, N. C., April 24, 1893. An extended use of Harris' Lithia Water, prompts me to the statement that I regard it as one of the best, if not the very best Lithia waters known to the profession. In the condition of "phosphatic urine" its action is marvelous. Its use in the rheumatic and gouty diathesis, affords me more comfort than either the Buffalo or Londonderry waters. Very truly yours, (Signed) JNO. HEY WILLIAMS, M. D.

R. P. Walker testifies: I have used Harris' Lithia Water and when using same was both pleased and benefited. In using it liberal quantities should be taken. For my experience teaches me that small amounts are disappointing, whereas a generous use is followed by most gratifying results. Yours truly, (Signed) R. P. WALKER.

STILL ANOTHER.

Asheville, N. C., April 14, 1893. I am glad to be able to say a word with regard to Harris' Lithia Water. I have used it with the greatest possible benefit in chronic rheumatism. As compared with the Buffalo Lithia, I find it quicker and it requires less quantity. It has my hearty endorsement. Very truly yours, (Signed) MRS. T. W. BRANCH.

These are all bona fide letters from people we know and have confidence in their statements. Analysis on each bottle. Wholesale depot for Asheville and Western North Carolina.
