

ASHEVILLE DAILY CITIZEN

THE DAILY CITIZEN, Democratic, is published every afternoon (except Sunday) at the following rates: One Year, \$6.00; Six Months, \$3.00; Three Months, \$1.50; One Month, .50; One Week, .15.

The severest criticism founded on fact that has ever been passed on the New York papers is that made by a well informed writer in the August Forum. It is to the effect that even the Chicago papers cannot print all the sensational matter the New York papers concoct; it must be "toned down" for the Chicago public. When one remembers how the "wild and woolly west" has been derided by the New York newspapers, this is a hard blow to their hollow pretensions of finer morals and more becoming manners.

JUST A FOOL FRIEND

The Philadelphia Ledger, which has been accused of being the President's personal organ, says: "No matter what Congress may threaten to do or actually do, sensible people will remember that President Cleveland is honest and courageous, and that while he is President Congress can do no great mischief, though it may do little good."

THE ENGLISH RIOT

The CITIZEN proposes to take the public unreservedly into its confidence, and confess that it has wickedly enjoyed the recitals of the hand-to-hand conflict in the English House of Commons the other day. For the last century we have been criticised so frequently and with such an overpowering air of virtue for our bad manners, by the English newspapers that the chance to get in a return dig at them is something to tickle the average American risible all through.

Perhaps no other parliamentary body in the world ever before made such a spectacle of itself as did the members of the Commons on the occasion we refer to. In reconstruction days the colored brethren in State legislatures assembled may have rivalled the antics of the historical monkey and parrot, but not much was expected of them. Here, on the contrary, were gathered the chosen representatives of the most civilized people on the globe—if you let them tell it. And on a comparatively small pretext they proceeded to make a howling bear garden of a great deliberate body. It had all the aspects of a saloon row in the low quarter of a city except that the provoking cause of the saloon row was lacking and there was little blood shed. Here is a pen picture of only one aspect of the riot:

"A free fight then broke out at the top of the gangway. The centre of it was William Redmond, Parnellite, who had taken advantage of the general license to push over Col. Sanderson, the champion of the men of 'later. Sanderson was rescued and led an attack on the Parnellites. Blows were struck right and left. Members fell and were picked up by their friends to fight. The whole space between the front benches was filled with a struggling, cursing mass of members, striking, clawing, and unsetting each other. Manful efforts were made to separate the combatants. Both sergeants-at-arms forced their way through the thick of the fight, but as fast as one group was pacified another came to blows."

NEWS IN OUR OWN STATE

Governor Carr has pardoned William Garren, for the past five years a convict. In 1880 he was convicted of horse stealing in Henderson county and sentenced to ten years' imprisonment. After eighteen months as a convict he escaped. He went to Georgia and his record there was excellent. He returned to this State and was arrested and returned to the penitentiary. He was only seventeen years old when convicted.

Charlotte News: "Mr. Watt Kirkpatrick milks 14 cows and sells 125 pounds of butter every week, for which he gets 25 cents per pound." Fourteen cows, 125 pounds of butter every week? Nine pounds to each cow.

As yet no work has been done on the proposed quarantine station at Southport because the city of Wilmington has not paid the \$5,000 which it promised in case the Legislature appropriated \$20,000.

From the Gastonia Gazette it is learned that the new cotton mills at Kings Mountain have been organized, with a capital stock of \$50,000.

Shelby Review: Col. Reuben McBrayer, who some three weeks ago had a third slight stroke of paralysis, is quite sick.

Little Palmis, son of Mr. and Mrs. V. C. McLean, of Swain county, fell off the porch last Friday and broke his arm.

ANOTHER LETTER FROM SENATOR VANCE

Senator Vance has addressed the following letter to the editor of the Charlotte Observer:

Dear Sir:—I take no exception to your comment on my recent letter to the Mecklenburg County Alliance, beyond the fact that you authoritatively designate me as differing from my party, and misrepresent my words with the letter before you. The charge that a Democrat is at variance with his party, who refuses to favor the unconditional repeal of the Sherman law, depends for its truth on what the party laid down in its platform at Chicago, if promises and pledges amount to anything. Let us see: The Chicago platform demands inter alia, the repeal of the Sherman law, as a necessary makeshift, an obstruction to the free coinage of silver, etc. The obvious meaning of this is, if that law was out of the way we could have free coinage (I quote from memory, having no copy of the platform before me). That is one of the things I propose to put in place of the Sherman law; and I propose to vote against repeal unless that be done. If my party is opposed to that, then its utterances at Chicago were insincere and intended to deceive; if it was sincere, then I am trying to stand on the platform. Again, it pledges the party to the use of both gold and silver, on equal terms, without discrimination against either as to coinage, etc. etc. Now, if we cease to coin one and refuse to tender it in payment even of obligations which by the contract are payable therein, we do discriminate against the metal in coinage and virtually cease to use it. The repeal of the Sherman law without some substitute preserving the use and coinage of silver, I am squarely with the party, and those who favor an unconditional repeal are not with it but are violating its solemn pledges.

Again, the platform pledges the party to such legislation as shall maintain the parity between gold and silver, so that a gold dollar and a silver dollar shall be interchangeable and one as good as the other. Now, in objecting to the repeal of the only law on our statute books which binds us to the use of silver at all, and to some substitute or condition tending to maintain the parity between the platform, no honest man can doubt that I am with and not against the party which made those promises. The only possible way to avoid this conclusion is to assume either that those promises were fraudulent and not binding, or that the party has since changed its position and now favors abandoning silver altogether, and neither of these propositions is there any proof acceptable to me. The pledges of the platform are joint and not separable on the subject of silver money. You cannot undo the repeal of the Sherman law for example, and propose to redeem it alone and denounce those who insist on the fulfillment of all its other pledges. The law now in existence can be kept thus by the non-concurrence of either the House, the Senate or the President to its repeal; whereas, that Sherman law once repealed, the measures (whatever they may be) which are to take its place—to continue the use of both gold and silver, maintain their parity, remove the tax on State bank circulation and the like—would have to be passed by affirmative legislation requiring the concurrence of all three branches of the law-making department. No one who is acquainted with the situation can believe for a moment that such measures could be passed under such circumstances. The power of the combined capital which has forced the calling of the extra session and is threatening to destroy again, and finally, the use of silver money, would certainly be able to influence at least one branch of the legislative department, which would be sufficient for their purposes. If not deceived, evil communications corrupt good politics as well as good men. The professed friend of silver money who will favor the unconditional repeal of the Sherman law, trusting to the justice of the cause, and the sympathy with the favorable legislation thereafter is either a traitor or a fool.

I cannot conclude my letter without expressing to my sincere and sincere regret at other statements in your editorial. Hints that my letter gives aid to Republicans and Third party men I was prepared to see, as also the coupling of my name with that of "Merrill Butler," by such a lying money toady as your "able" correspondent, "Gold Bug," but I know of nothing in your past life or my own which led me to expect such things from you.

In the closing paragraph you speak of my letter as containing "a public and deliberate avowal of sympathy with the financial policy of the Farmers' alliance." Now, sir, unless you assume what no intelligent man will grant, that the maintenance of silver as money is exclusively the "financial policy" of that organization, a re-reading of my letter would at once have shown you that there was not one word of truth in the statement; NOT ONE. Read the letter over and see if you are not compelled to confess that you spoke too soon.

I am squarely on the Democratic platform. I want all the pledges kept, those which favor the people as well as those desired by the bankers and brokers. If the refusal to serve them first without some guaranty that the people shall participate also, puts me out of the Democratic party, you will, my dear sir, if you live a few months longer, see the greater part of that party deliberately walk out of itself—leaving nothing behind but a smell of brimstone and Wall Street. Yours respectfully, Z. B. Vance.

Well! From the Charlotte Observer. We have never constructed the language of the platform to be a declaration in favor of the free coinage of silver nor do we think the party or the country so construe it.

DIVERSIFIED INDUSTRIES

Why Charlotte Is Prosperous These Hard Times

Correspondence Wilmington Messenger. The special reason why Charlotte is prosperous, however, is because of its diversified industries. Let me catalogue some of them. The city has a wagon factory, an ice factory, a bucket and barrel factory, a paper box and bag factory, stove works, a canning factory, carpet mills, two spoke and handle factories, four sash and blind factories, and a furniture factory which greatly interested me. This plant cost \$60,000. It takes the native oak wood of this State and converts it into beautiful furniture, not a set of which is sold in North Carolina, but is shipped North immediately from the factory, and it can sell all it can make.

Charlotte has two cotton seed oil mills, one of which is the property of the Standard Oil company but the other, the largest in the South, and costing \$250,000, is owned here. The city, moreover, has two large iron foundries. It has a hosiery factory which makes 3,500 pair a year; a dyeing establishment, patronized by the North; and it has an establishment, I don't know the style of it, but it is presided over by one of the brightest men in this country, Mr. J. A. Tompkins, which can build a cotton mill or a cotton seed oil mill, or put up an electric plant, or do most anything in the line of machinery needed in this country. Then last, but by no means least, Charlotte has six cotton mills, three of which have lately increased their capacity enough to count for three new mills.

BIG BARGAINS

In Real Estate

I will offer during August Thirteen Lots of 10 acres each, two miles north of the court house, at the very low price of \$200 per acre. This land is well watered with fine springs, has nice groves of oaks, is only one half mile from the electric car and adjoins the dummy line. It is very rich and suitable for truck farming, dairying, or poultry raising. Think of securing a farm in the edge of Asheville for \$2,000 which you can make a living on, where taxes and expenses are not so high. I am determined to sell this land in August, and first comes will get first choice. When the city grows out over this land, which it will do in a few years, think what ten acres is worth to make into lots and sell.

I also have 10 seven-acre lots, one and one-fourth miles east of the court house for sale at \$140 per acre. This land is rich and lies well for truck farming. Nice groves and is well watered and adjoins the Suttle mineral springs. Terms easy. Respectfully, J. B. BOSTIC

Harris' Lithia Water, Harris' Lithia Springs, S. C.

Office of Dr. John Hey Williams, Asheville, N. C., April 24, 1893. An extended use of Harris' Lithia Water, prompts me to the statement that I regard it as one of the best, if not the very best Lithia waters known to the profession.

(Signed) JNO. HEY WILLIAMS, M. D.

R. P. Walker testifies: I have used Harris' Lithia Water and when using same it was both pleased and benefited. In using it liberal quantities should be taken, for my experience teaches me that small amounts are disappointing, whereas a generous use is followed by most gratifying results. Yours truly, R. P. WALKER.

STILL ANOTHER. Asheville, N. C., April 14, 1893. I am glad to be able to say a word with regard to Harris' Lithia Water. I have used it with the greatest possible benefit in chronic rheumatism. As compared with the Buffalo Lithia, I find it quicker and it requires less quantity. It has my hearty endorsement. Very truly yours, (Signed) MRS. T. W. BRANCH.

The Normal and Collegiate Institute, FOR YOUNG WOMEN. ASHEVILLE, N. C.

Second Session, September 13, 1893.

This institution is located in the most beautiful suburb of Asheville, N. C. The spacious building, recently completed for its use at a cost of \$60,000 is furnished with pure water from Springs on the premises, is lighted with gas, heated by hot water and provided with hot and cold baths.

The health and habits of the pupil are carefully guarded. Besides the ample space given for outdoor exercise, a well equipped gymnasium will be fitted up within doors. No expense has been spared to make the sewerage and sanitary arrangements perfect. Each pupil will have her share in the domestic work, as a part of her practical training for life, and whilst aiming at thoroughness in every department, the management will strive to provide for those committed to their care the advantages, not merely of a christian school, but a christian home. No pupil will be received who is not in reasonable health, or who cannot furnish credentials as to moral character.

FOUR SEPARATE COURSES OF STUDY ARE OFFERED TO THE STUDENT. 1. THE NORMAL COURSE, for the thorough training of teachers under instructors from the best Normal schools. 2. SEMINARY OR COLLEGIATE COURSE, including ancient or modern languages, sciences, music, drawing, etc. 3. COMMERCIAL COURSE, including stenography, typewriting, bookkeeping, etc. 4. DEPARTMENT OF DOMESTIC SCIENCES, (a) Scientific cooking, the study of the production and manufacture of foods, etc. (b) Sewing—embracing the cutting and fitting of garments, millinery, etc.

The teachers at the head of this department are from the famous Pratt School, Brooklyn, N. Y., and the others from the best institutions in the country, chosen with reference to Christian character, experience and ability as teachers. A thoroughly organized Preparatory department has been furnished for all such as are not prepared for the higher classes.

The school year is divided into two terms; cost to pupil \$50 per term, or \$100 per year, which barely covers the expense of board, the school being practically free. Having been provided for by a few liberal friends of female education. For further particulars apply to REV. THOMAS LAWRENCE, Asheville, N. C. jy29

GLENN SPRINGS WATER IS A SURE RELIEF TO SUFFERERS.

What Hon. T. D. Johnston says about it: "About four years ago I commenced the use of the Glenn Springs water, to rid my system of the malaria from which I had been suffering for some time. The water has entirely relieved me and I cheerfully state that I believe it to be as good water as can be found for all ordinary diseases of the liver and kidneys. For a general tonic and renovator of the system I believe it has no equal. Very truly yours, "T. D. JOHNSTON."

From John P. Arthur, Esq., Attorney at Law: "I don't know the constituents of the Glenn Springs water; if I did I would make some for myself. Neither do I know how it acts; if I did I would act so myself. It is a well made water and it acts well. I can only say that its effects on me and my forefathers has been more beneficial than any other water we ever used, and I am glad it has been put in the reach of as poor a man as "JOHN P. ARTHUR, "To Pelham's Pharmacy, May 23, 1893."

What G. T. Rawls writes Pelham's Pharmacy, Asheville, N. C.: "Gentlemen—I have used Glenn Springs water and consider it, as compared with other mineral waters, the best I know of. Everyone in South Carolina knows about 'Old Glen Springs.' In fact it has been most favorably known there for a century. Yours truly, "G. T. RAWLS." Asheville, N. C., May 27, 1893.
