TEA IS TEA!

Of course, whatever its quality. Gold is gold, whether it be 9 karat or 22, but somehow people prefer the 22. In like manner they prefer the best quality of tea when they can get it, especially if the price is reasonable. We have a dozen different kinds and flavors and can doubtless suit you in price and quality.

UP TO THE GREAT FATHER

THE SOUL OF CHIEF NIMROD SMITH TAKES ITS FLIGHT.

The Most Prominent Man in the Eastern Band of Cherokee Indians Dies Yesterday—Burial at Yellow Hill Tomorrow.

REYSON CITY, N. C., Aug. 3.—[Special.]—The eastern Cherokees mourn N. J. Smith, their friend, father and chief for many years. He died last evening after a long illness. He will be buried Friday with masonic honors at Yellow Hill.

Richard. The dispatch, which was sent by Chief Smith's son, Richard H. Smith, will be read with regret by many people in Asheville and all over Western North Carolina. Chief Smith was the most prominent member of the Eastern band of Cherokee Indians in Swain county. He was born in Cherokee county about 50 years ago and in that county was reared. He received a very fair education and was always looked upon by his people as a safe counselor. He was the soul of honor and made friends among the whites wherever he went. He was a man of splendid physique, straight arrow, while his hair hung in jet black curls about his shoulders.

Chief Smith's last visit to Asheville was last year, when he came here with a number of his tribe to take part in the celebration of Hucombe's centennial, August 10-11. The Indians camped on Cumberland avenue, and their camp attracted crowds continually. They gave their native dances at night and thousands witnessed them. One of these occasions is particularly remembered, when Chief Smith made an address to his people in the native tongue and then translated his words so that they might be understood by the whites. His address was full of good advice to the red men of the tribe.

Chief Smith had never been quite well since he returned from that visit to his home in Yellow Hill. He was a sufferer from Bright's disease, which at last claimed his victim.

As has been said, Chief Smith was held in the highest esteem by his people. He was for eight years their chief, which office he gave up only a very few years ago. He took a lively interest in everything that tended to the further civilization of the tribe, and while holding the place of chief lived in Washington some time, working for the welfare of the Eastern band, whose progress he had at heart. This was during Cleveland's first administration.

The dead man was a prominent Mason, and this fraternity will bury him tomorrow afternoon at Yellow Hill, in the city of the dead that is peopled by his friends and kinsmen.

Chief Smith was one-fourth white. He leaves a wife and two sons and three daughters. The daughters were educated at Judson college, Hendersonville, and are handsome types of their race. One of them, Miss Leticia, was particularly good looking and attractive.

Chief Smith was a good man and the Indians will long mourn his death.

NEW SUPPLY OF BANK BILLS.

New York Banks Buy Bonds and Issue Circulation.

NEW YORK, Aug. 3.—A new and unexpected element of relief has been injected into the financial situation. United States bonds have reached such a low figure that the national banks see their way clear to make a profit by issuing circulation against them.

Arrangements have therefore been made by some of the more prominent banks to increase their circulation from the minimum limit at which a state is permitted to such an amount as will materially relieve the present tension. It is estimated that \$8,000,000 or \$10,000,000 will be added to New York's supply of currency within a very short time. Orders have already been placed with the comptroller of the currency for part of the new bills, and some of the banks have bought their bills preparatory to depositing them in Washington.

GOT OFF LIGHT.

It Costs Little To Use Kucks In Graham County Sometimes.

JOHNSON, N. C., Aug. 3.—Last fall Charley Stratton had a fight with his aunt, Arline Nichols. The old lady got the best of it as she used a pair of pot hoops on his head. Stratton procured a pair of knuckles and hit her on the nose, the blow felling the old lady to the floor insensible.

A warrant was sworn out for Stratton's arrest, but he escaped. A short time ago he came home ill, and our good natured and amiable justice, Wall, allowed him to remain at home undisturbed while he brought the witnesses before him and tried him. The result was a fine of only \$2.40 and costs. No wonder Graham county is blessed with many outlaws.

CAN'T EXPLAIN IT.

Fatal Explosion on a German War Ship.

BERLIN, Aug. 3.—A disastrous explosion occurred today on board the German armor-plated stamer Baden at Kiel. Lints, Celsner and Zambach and seven seamen were killed and sixteen persons were wounded.

It appears that some of the men had just removed from the magazine a grenade measuring 26 centimetres in diameter. Through some cause, not yet known, the grenade exploded, killing or wounding nearly every person in the immediate vicinity.

The Baden is a vessel of 5,600 tons. She was launched in 1880.

THE CHOLERA IN NAPLES.

The Situation There Not So Favorable.

WASHINGTON, Aug. 3.—Surgeon General Wyman this morning received a cable message from Surgeon E. R. Young of the Marine hospital service stationed at Naples stating that the condition of affairs in that city in regard to the cholera was growing worse.

Suspended and Failed.

CHICAGO, Aug. 3.—Lazarus Silverman, a well known private banker, suspended today. Liabilities, \$500,000; assets in excess of that amount, and \$6,000 cash on hand.

ASTORIA, KAS., Aug. 3.—The Savings bank of Anthony failed yesterday.

SOUTH WANTS SILVER.

A Lot of It Headed This Way to Pay Laborers.

WASHINGTON, Aug. 3.—No more silver certificates will be issued by the Treasury department for the present, as the limit prescribed by the law has been reached. That is to say, as many silver certificates are now outstanding as there are standard silver dollars coined and in the treasury to redeem them. Standard silver dollars were issued under the act of 1878, commonly known as the Bland act. Under this law 389,336,374 standard silver dollars have been coined. Of this coinage there are standard silver dollars in the treasury, 333,164,583; silver certificates in circulation, \$330,282,480 worth; silver certificates in treasury, cash, \$2,909,092; net standard silver dollars in treasury after deducting silver certificates in circulation, 2,881,210; standard silver dollars in circulation, \$6,771,791, and standard silver dollars paid out by Philadelphia mint today, 500.

The reduction in the number of standard silver dollars in the treasury has been brought about by the large demand recently for silver dollars from the South to move crops in Georgia and the Carolinas and to pay off hands at work on the cotton crop.

THEIR WORK IS DONE.

The Behring Sea Commission Has Probably Rendered a Decision.

WASHINGTON, Aug. 3.—Indications that the Behring Sea arbitration commission will conclude its deliberation and agree on its decision before the end of this week, if it already has not done so, are given in official information received at the State department that Senator Morgan and Justice Harlan, arbitrators on the part of the United States, will sail from Southampton on New York Saturday. It is stated at the State department that Morgan and Harlan could not leave Paris until the arbitrators on the part of the United States are presumed that the commission has set the date for voting on the five points at issue, thus enabling the gentlemen named to make definite arrangements for sailing.

ENGLISH YACHT RACE.

The American Boat Navahoe Not In It.

LONDON, Aug. 3.—The yacht race for the town prize took place today. The Satanita crossed the line eight miles ahead of the Valkyrie. A gale was blowing and the American yacht Navahoe split her main sail and keeled over until her rail was well under and the observers on shore thought she was going to turn completely over. She gave up the race and headed for Southampton for repairs. Yachtsmen who have been watching the Navahoe with critical eyes are emphatic in the opinion that she is useless in a stiff breeze. The Callina also met with an accident and was compelled to give up the contest.

A NICE MUSS.

World's Fair Gates Topped Open Sundays by the Law.

CHICAGO, Ill., Aug. 2.—The opinion is unanimous among the lawyers that the gates of the World's Fair will be opened every day in the week from now until finally closed next October. The Appellate court will not be in session until after the midsummer vacation which ends in September and the appeal prayed for yesterday cannot therefore be passed on until October. Besides, the appeal is from an order in contempt, proceedings, and a decision in the case will have no effect on the injunction order, which must now be observed until the Appellate court can be reached.

GREAT DISCOVERY.

The "World" Has Ascertained a Woman's Name.

NEW YORK, Aug. 3.—The World claims it has discovered the identity of the woman who was in the company of old C. Harrison on the night of June 30 when he disappeared from the Old Dominion line steamer, Guvandotte, en-route from Norfolk to New York. The World says the woman's name is Mrs. Elizabeth Beaton, wife of Malcolm Beaton of Burlington, Ont., where Harrison formerly lived, and that she had been absent from home on several occasions when Harrison was known to be also away from home.

COMING DOWN.

Southern Railways Cutting Their World's Fair Rates.

CHICAGO, Aug. 3.—World's Fair rates on the Southern roads appear to be becoming totally demoralized. The Mobile and Ohio railroad has announced a \$22 rate, Mobile to Chicago, good for 12 days. There is a cut of \$13.20, the regular authorized round trip rate being \$35.20. In addition to this the Mobile and Ohio has arranged for a weekly excursion to the Fair from points on its line at one fare for the round trip, with round trip limits of 15 days.

LYNCHED FOR ASSAULT.

He Ventured Too Soon To Return To The Scene Of His Villainy.

OWENSBORO, KY., Aug. 3.—Information has just been received here that Felix Poole, a notorious character of Ohio county, was lynched Tuesday night for an assault committed on Miss York, aged 13, about a month ago. Poole skipped out, and had only just returned to the scene of his crime when the citizens caught him and hanged him to a tree. Poole served a term in the penitentiary for rape.

The World's New Editor.

NEW YORK, Aug. 2.—A sensation was created in the World office last evening when Col. Chase H. Jones, late of the St. Louis Republic, assumed the direction of the paper. He comes to the World as the personal representative of Mr. Pulitzer with supreme authority over all departments of the paper.

Manufacturers Want Free Tin.

NEW YORK, Aug. 3.—The general depression in trade is severely injuring the tin-box industry in Brooklyn, and it is said that the tin-box manufacturers will petition Congress to repeal the tariff on tin, both block and plate.

THE SILVER RESOLUTIONS

ADOPTED AT CHICAGO'S CONVENTION.

They Were All Bi-Metallists and Demand the Free Coinage of Silver—The United States Should Stand Alone.

CHICAGO, Aug. 3.—The following is the substance of the resolution adopted by the silver convention:

All legislation denaturing silver and restricting the coinage thereof must be immediately and completely repealed by an act restoring the coinage of the country to the conditions established by the soundness of the nation. We protest against the financial policy of the United States being made up on the opinion or policies of any foreign governments.

We assert that the only remedy for the financial trouble is to open the mints of the nation to gold and silver on the equal terms, at the old ratio of 16 of silver to one of gold.

Section 3 protests against the repeal of the Sherman act, except by an act restoring free bi-metallic coinage. The fifth resolution calls attention to the fact that national bank and legal tender money of whatever kind has not fallen in value a particle, and suggests for the consideration of citizens that the refusal of opponents of bi-metalism to propose any substitute for the present law or to elaborate any plan for the future, indicates either an ignorance of our financial needs or an unwillingness to take the public into their confidence.

GONE TO GRASS.

A Little Railway Laid By For a Time—No Fogs.

HOT SPRINGS, Aug. 3.—[Special.]—The Laurel River and Hot Springs railroad, which is only finished 2 1/2 miles and has been operated that distance only up to about two weeks ago, has suspended operations entirely, discharged and paid up all their employees and hands, sold their remaining fuel to Dr. Ross of the Mountain Park hotel, and laid up until financial matters assume a more hopeful condition. In the meantime that little 2 1/2-inch gauge road is getting a new crop of grass on its miniature track.

The Mountain Park hotel is assuming its usual lively midsummer activity, guests arriving on every train, and things are pleasant and sociable with many varied amusements during the day and evenings. The fine, pure air, the clear atmosphere, no mists, no fog, notwithstanding two rivers surrounding this picturesque spot, make one feel elastic and invigorated.

SLOW COLLECTIONS.

They Bother Others Than Coal Companies.

PITTSBURGH, Pa., Aug. 3.—The New York and Cleveland gas coal company, one of the largest concerns in the Pittsburgh district, whose mines are located on the line of the Pennsylvania railroad, are unable to pay their miners in full. A proposition has been made to 800 employees to pay them one-half their earnings for six months and the balance with interest at the end of that time. The officials state that unless this proposition is accepted the mines will close. It is thought the men will accept the proposition and continue work. The company is not short of orders for coal, but cannot make prompt collections.

LOOTED BEFORE BURNED.

The Cold Storage Warehouse Filled by Thieves.

CHICAGO, July 31.—A local newspaper prints a story to the effect that the cold storage warehouse fire, that cost so many lives, was of incendiary origin, the motive being to cover up a big theft of goods stored in the warehouse. The story is to the effect that for three weeks previous to the fire the big storehouse was systematically looted, night after night, by a ring composed of certain crooks on the outside and certain parties on the inside.

On one occasion, it is said, a watercart was loaded with bottles of wine and carted away.—N. Y. World.

An Old Soldier Appointed.

WASHINGTON, Aug. 3.—John S. Payne of Tennessee a retired army officer, has been appointed a member of the board of pension appeals in the Interior Department.

NEWS IN OUR OWN STATE.

—Wadesboro Messenger. Intelligence: In the upper part of this county and in Union county, it is said that wheat is being exchanged for bacon at the rate of one bushel of wheat for three pounds of meat. The crops in this county are sorry. The cotton plant is entirely too small, though well fruited. Early corn is almost ruined in many localities, and is badly damaged everywhere on account of the very hot and dry weather.

—Rockingham Spirit of the South: We understand that a gentleman in Moore county has been offered \$150 per acre for his grapes on the vine.—Mr. Thomas Covington, who lives between this place and Roberdell mills, it is said, cleared \$175 this year on an acre of cabbage.

—Murphy Scout: At the house of a Mr. Stiles, two miles from Squire Hammon's residence, Sol Murphy and Sam Smith engaged in a quarrel which soon resulted in a bloody encounter, in which Smith received 13 cuts. Our informant thinks some of the wounds are fatal.

—Mormon missionaries are at work in Person county. They are visiting and distributing tracts among the poor. They have announced a mass meeting to be held on the 30th of this month, when it is thought they hope to make a number of converts.

—A number of the cotton mills in the State have shut down or are running on short time. Some mills avail themselves of the stop to make repairs. A few are putting in more machinery.

—Governor Carr has issued commissions to a number of officers of the State Guard who, under the new regulations, have passed the prescribed examination for proficiency.

—The Murphy graded school will open August 14th under the efficient management of Prof. L. E. Mauney. A sufficient number of assistant teachers will be employed.

—Murphy Scout: Charles Heaton shipped over a ton of corundum ore to Liverpool, England, last week.

DRUGS,

MEDICINES AND SODA WATER.

A Strange combination, but when you have tested the new drinks at our fountain which, always delicious themselves, contain extracts of medicinal properties, the most popular of these are:

COCA COLA,
AROMATIC EGG PHOSPHATE,
HIRE'S ROOT BEER.

Besides these, our Ice Cream Soda, Pineapple Snow, Peaches and Cream are more popular than ever.

In drugs our stock is as complete as it is possible to be.

—We also carry a fine line of druggist sundries. Strangers will find our stock in this line far better than is expected of a town this size.

We have just received a very pretty new novelty in the Columbian Pen Knife, aluminum handles, and three good steel blades. We only have a few and will sell for \$1 each. Very suitable as a World's Fair Souvenir.

Don't leave Asheville without calling at our store. Open evenings till 11 o'clock.
