### MISCELLANEOUS.

For SALE-Ten milch cows. Fine stock. Can be seen at John A. Mur-doch's farm, south of Bingham School.

There is only one St. Paul's, and upor Recent experiences in little wars in the summit of its dome there is but one the far east and in peaceful practising ball. At long intervals a Londoner, have caused military experts to class and more frequently a tourist, climbs the shrapnel as the gunner's most to this ball and sticks his head and shoulders inside. Having done this many improvements in the shell and and looked upon the heart of the world the manner of using it in recent years. It consists of a hollow cylinder of steel filled with a charge of powder from the stone gallery and the golden gallery, and upon the congregation from the whispering gallery, he rejust sufficient to break the cylinder turns to earth and tells his friends and when desired. The charge is fired by a time fuse, which lights itself after a nequaintances of his feat, and advises them to follow his example. The numflash in the gun and fires the charge ber of persons who make this pilgrim- after a fixed number of seconds, or by age averages about forty per day. To a percussion fuse, which explodes the reach the ball it is necessary to climb six hundred and forty steps of many charge whenever the shell strikes the object aimed at. The time fuse makes vorieties. The proportions of the the shrapnel do its deadliest work. gilded globe are in perfect keeping with its surroundings. It has a diam-eter of six feet, and twelve persons Firing at a target three thousand yards away the gunner will time the fuse to explode the shell one hundred yards can stand within its walls. It weighs short of the target, when about fifteen can stand within its wails. It weighs five thousand six hundred pounds. The gilded cross that towers above it is fifteen feet in height. From this ball nearly all London is seen on a clear day. Why there are so many kinds of steps in the cathedral no one pretends to explain. In the oninhout of the target, when about fifteen feet from the ground. The one hun-dred and fifty bullets rush on, spread-ing as they go, and carry destruction to as many points over an area twenty yards wide and three hundred yards long. "One such crash of bullets," to explain. In the opinion of those who have counted them, to climb studying the effects of the shrapnel these steps is equal to covering twenty fire in actual warfare and in artillery miles on an ordinary road. It is uni-versally considered, however, that the return journey is equal to a Russian bath. The first steps are of wood. These are succeeded by steps of stone, and these in turn by iron ones. Then there are ladders some with a greated miles on an ordinary road. It is uni-

there are ladders, some with a gentle they swept. The modern gunner's of slant, while others stand so straight jeet is accordingly to cover with they swept. The modern gunner's obthat to those who climb they appear to quick succession of shrapnel-bullet lean backward. The first ladder stands hurricanes the region where his enemy on the crown of the second dome, is to be attacked.

SUPERSTITIOUS GAMBLERS.

How the Expression "Dead Indian Under the House" Arose.

"There must be a dead Indian under

the house." How many times that has

where an officer gives necessary directions to such men as want to see the ball, for few try to go above the crown of the dome, being content to rest there and watch some exceptionally active sightseer do the rest.

STUPENDOUS ERUPTIONS.

Havor Created by Some of the Larger know the origin of the expression, Volcanoes.

Volcanoes. Few people of this country imagine dent. Its meaning was well-known. what terrible work a volcano of the however, as everybody was heard to regulation size can do when it once use it when the cards were against gets fully aroused. In 1838 Cotopaxi him. Still, for all that, a dead Indian, threw its fiery rockets more than 3,000 feet above the crater, and, in 1857, when the blazing mass confined in the same mountain was struggling for an gambling houses of Helena from the outlet, it roared so loud that the awful noise was heard for a distance of 600 short time ago.

miles. In 1797, says the Philadelphia Record, the crater of Tunguragua, one of the great peaks of the Andes, flung out torrents of mud and lava which Rather than disturb the bones the dammed up a great river, opened new builder concluded to let them rest dammed up a great river, opened new lakes, besides making a deposit of seething mud, ashes and lava 600 feet deep over the whole area of a valley which was 20 miles long and averaged

which was 30 miles long and a large a line in the propriet where the propriet where the line in width! The stream of lava knew he was there, and whenever luck which flowed from Vesuvius in 1837 an against the game it became the custom of the dealers to lay the blame del Greco is estimated to have been 3,000,000 cubic feet of solid matter.

In 1760 Actna poured out a flood of against the bank took up the expres-melted stones and ashes which covered sion, and when a steady run of bad Si square miles of fertile country to a Inck followed them it was the custom depth of from 10 to 40 feet. On this to remark: "There must be a dead Inpecasion the sand, seoria, lava, efc., from the burning mountain formed the past six months the Exchange has Mount Rosini, a peak two miles in circumference and over 4,000 feet high. In the cruption of Vesuvius in the year 79 A. D., the time of the destruc-

tian of Pompeii, the scoria, ashes, sand and lava vomited forth far exceeded the size of the volcano itself, while in 1660 Actna disgorged over twenty times its own mass. Vesuvius has sent Its ashes into Syria, Egypt and Turkey.
