NO EMBEZZLEMENT CASE

TWO CASES AGAINST GLOVER FALL TO THE GROUND.

No Evidence of Criminality Yet Shown On Glover's Part—A Notable Cross Examination—Negligence in Bookkeeping.

In the Glover case yesterday afternoon Dr. R. H. Reyes was on the stand to prove the charge of embezzlement. He was closely cross-examined by W. W. Jones. Capt. W. A. Dills was examined as to the sale for \$2,500 of a tract of land to the Asheville Kaolin company. He testified that he was paid \$1,000 in cash and that Mr. Glover gave him a note for \$1,500; that he afterwards credited \$500 on this note, though that amount had not been paid him; that he was induced so to do by Mr. Glover's representations that a factory would be erected on the land Dills sold to Glover, thereby enhancing the value of Dills' other land, and also out of good will for Mr. Glover whom he, Dills, considered had befriended him.

Under Attorney Cobb's cross-examination of Dills, which was a poem in the beguiling way it led Mr. Dills on, Mr. Dills swore that he endorsed this payment of \$500 on the note as paid, solely on Mr. Glover's personal account, and not as any return to the company, which he had not known in the transaction.

When Mr. Dills left the stand the attorneys for the State consulted a moment and then announced that they rested. Judge Armfield at once stated that no case of embezzlement had been made out by the State. Attorney J. S. Adams struggled heroically against this view, putting the opposite with probability all the force there was in it and asking time to gather the authorities in support of his position. Judge Armfield said that it would take an overwhelming list of authorities to change his mind, and the State dropped the subject. Later Judge Armfield directed the jury to find a verdict of not guilty, on the ground that according to the State's own showing, if any offense were committed at all it was not embezzlement, the one charged in the bill.

The case of State against Glover for obtaining \$2,500 from A. J. Lyman by means of false representations was then taken up and after the testimony of Mr. Lyman had been heard Judge Armfield said the State could not sustain the charge and had failed to make out any case, and directed that a verdict of not guilty be entered. Judge Armfield said that he was convinced that the State's attorneys had been misled by their clients.

At the meeting of the court this morning Mr. Adams, for the prosecution, asked that the court bind Glover to the next term of Criminal court, so that a new bill might be sent against him for the Dills transaction, presenting it as a false pretense instead of embezzlement. This Judge Armfield declined to do, stating that he had heard nothing of the case except what had come from the prosecution and that while he had heard nothing of defendant's side, yet from the State's testimony heard he could not see that a crime had been shown, and therefore would not hold the defendant to bail. The judge stated further that the evidence for the State showed negligence in bookkeeping, but at the same time it might have been inadvertence upon the part of defendant, and there was no evidence of criminality.

MELONS IN THE RIVER.
A Car Load Condemned by the Board of Health and Cut Up.
The Asheville Board of Health has manifested its existence and alertness in no uncertain way to the watermelon traders.

For several days past the members of the Board have had their eyes on the melons offered for sale under the trees in Tentville and in the store adjoining A. Whitlock on South Main street. This morning the Board, with the exception of the sick member, Alderman H. L. Guder, visited these places in a body. After an examination the entire stock was condemned as endangering the health of the city.

There was a car load or more of the melons thus condemned, and they belonged to Carrington & Duckworth. Some of the melons, it is said, had been on hand nearly two weeks. District Health Officers Noland and Rogers were placed in charge of the condemned melons, and had them hauled in wagons to Pearson's bridge on the French Broad, where they were cut up and dumped into the river.

The Board of Health will keep a strict watch over all of the melons kept on this market.

CRYING FOR FOOD.

Trouble in New York With Men Out of Work.

NEW YORK, Aug. 18.—A crowd of more than 5,000 men out of work forced the doors of Wallhalla hall on Orchard street because admittance was denied them. The police succeeded in partly dislodging the crowd. Those forming the crowd were mostly Hebrews and represented principally the clothing trade.

On almost all of the east side street corners stood groups of unemployed men with angry looks and determined faces. They said that hunger has made them desperate.

"We have hearts," said one man, "and when we hear our children crying for food we feel it. We love our children as well as the rich man likes his."

The police found it a difficult task to drive the mob away and were compelled to arrest seven more of the disorderly crowd.

Has Not That Power.
WASHINGTON, Aug. 18.—Attorney General Olney has decided that there is no power lodged in the Secretary of the Treasury or any other officer of the government to extend the time for the withdrawal of domestic bankers from the movement to obtain relief for distillers.

Where is He At Now?
WASHINGTON, Aug. 18.—Secretary Carlisle has requested the resignation of J. Webb Flanagan, collector of customs at El Paso, Texas. Flanagan is known to fame as the author of the famous, "What are we here for?"

For sale only by

Heinitsh & Reagan.

MCDOWELL MATTERS.

Morganon District Conference in Session at Marion.

GARDEN CITY, N. C., Aug. 17.—The gentle rain has come again, this being sufficient to mature all field crops. The farmers are glad and the merchant smiles. The good wheat crop and scarcity of money has made corn worth some more this season than wheat.

The McDowell court convenes in Marion next Monday with Judge Boykin in the chair. Some interesting and important cases will come up in this court. The Morganon District conference, composed of about ten counties, opened in Marion today with Bishop W. W. Duncan of Spartanburg, S. C., presiding. A large attendance and much interest is expected at the conference. This is the first time a bishop has presided here.

Mr. Gillespie, who was so severely scalded in the blowing up of Rev. M. L. Kite saw-mill boiler, has almost recovered from his painful injuries.

Mr. Tom Finley, who was accidentally shot on last Sunday, is now recovering. The second McDowell county Sunday school convention was closed in Marion on the 6th. The attendance was not as large as the last one, but the good accomplished in the county is highly encouraging. Twice as many children attended Sunday school in the county as did a year ago. This was brought about by the instrumentality of our reports in last year's county convention. Then we appointed a committee of three, each of a different denomination, to travel over the entire county, lecturing in the interest of a revival of the Sabbath schools. The result thus attained is that a much greater interest is manifested in this part of the church's work. Ours is a union work of all denominations for the good that may be done. At the convention Mr. W. G. Hunter was elected president.

The secretary, Rev. Wm. H. White, and Rev. John C. Brown were elected delegates to the State Sunday school convention, which meets in Greensboro on the 22-24 of this month.

Speaking with all due respect, the Congressional mill is grinding, but the grist comes down slowly. When, in what manner and how much money will be put in circulation for the great relief needed? The interest of the country first. Senator Vorhees' bill, with Secretary Carlisle's recommendation to put \$19,000,000 in circulation is eminently to the point. Let us have it soon. But if they need me up there they will send for me.

Grapho.

A NEW ROAD.

Also a Big Hearted Major and a Barbecue.

ALEXANDER, N. C., Aug. 16.—On Tuesday last the completion of the new road from Alexander to Blackwell's Springs was celebrated by Major Blackwell in the presence of many guests from the hotel and several visitors from Asheville. A barbecue with all the required accompaniments was provided for the convict women by the Major.

While the detail of cooks and workmen was busy with preparations for the table the remainder, indulged in singing, accompanied by instrumental music. The convicts enjoyed, certainly, for the first and perhaps it will prove the only time, contact with kindness and sympathy among those who have been benefited by the labor. Not sympathy with the cause of their present condition, but a hearty desire to exhibit in the most effective manner the generous character of a true life, prompted the great hearted Major to give them such an acceptable day of feasting.

There is much credit due to the skillful engineering ability of Capt. White, who has supervised the construction of the entire road, a remarkable piece of building that will bear favorable comparison with almost any other in this part of the country.

D.

CLEVELAND'S POSITION.

The Distinguished Governor of Missouri Talks Free Coinage.

MANITAU, Col., Aug. 16.—Governor William J. Stone, of Missouri, arrived here today on a tour of recreation.

Speaking of the President's message he said: "Mr. Cleveland has taken a false position, I think. He has not, to my mind, taken hold of the real cause of the trouble at all. The Sherman act has had almost nothing to do with it. We are suffering from a stringency in the money market. There is too little cash to do our business. To me it seems that our political doctors will be about as sensible if they entirely demonetize silver as those old time barber surgeons who used to bleed a man on principle, no matter what ailment he had."

"I'm a Democrat, a free trader, and a free silver man. I am inclined to be optimistic. I am confident that if the Senate agrees to repeal the Sherman act it will only be because it will at the same time pass a far preferable substitute. The President's message need not frighten our people to death. He is President, but he is not Congress. It is not what he wants, but what he proves, that counts. In my opinion he has proved nothing."

Wants Freer Trade.
MONTREAL, Aug. 14.—A Liberal meeting, attended by 8,000 persons, was held here this afternoon and was addressed by leading Liberals, including the party's leader, Wilfrid Laurier, who outlined the policy of the party. He denounced the protective policy of the Conservative party, and declared strongly in favor of tariff reform and freedom of trade with the United States.

The Queen's Health Is Good.
LONDON, Aug. 14.—Inquiries have reached this city as to the state of the Queen's health, it having been reported in certain quarters that she had been stricken with paralysis. The report is entirely without foundation. Not a whisper has been in court circles that the Queen is ailing in any way.

Earthquake in Roumania.
BUCHAREST, Aug. 18.—At 5 o'clock this morning an earthquake was felt in this city, followed in rapid succession by two others. Many of the residents left their houses with their night clothes on. Slight damage was done to a number of buildings, but no one was hurt.

O'Farrell For Governor.
RICHMOND, Va., Aug. 18.—The Democratic convention nominated C. T. O'Farrell for governor, R. C. Kent for lieutenant-governor and J. T. Scott for attorney-general.

THE SENATE SILVER BILL

IT IS REPORTED BY VANCE AND OTHERS.

The Majority Bill Has a "Declaration" in Favor of Bimetallism, But Repeals the Sherman Act Unconditionally.

WASHINGTON, Aug. 18.—The silver debate opened promptly this morning in the House with a speech by Sibley (Democrat) Pennsylvania, in favor of bimetallism and the Johnson interconvertible bond proposition.

The Senate finance committee this morning agreed upon and later reported to the Senate a bill for the repeal of the purchasing clause of the Sherman act, accompanied by a declaration in favor of bimetallism. The bill comes as an original measure, not as a report upon any bill previously presented.

Mr. Harris, president pro tem, presided over the Senate today in the absence of the vice-President. A motion to adjourn over until Monday was made on the Democratic side, resisted on the ground of the necessity of action on financial measures, and finally withdrawn on Voorhees' announcing that he would ask the Senate to proceed with the consideration of the National bank circulation bill. He then reported from the purchase of silver bullion under the Sherman act, with a declaration in the bill that it is the policy of the United States to continue the use of both gold and silver as standard money and to coin both gold and silver into money of equal intrinsic and exchangeable value.

A substitute for the bill was reported from the minority of the committee, Harris, Vance, Jones, Arkansas, Jones, Nevada and Vest, fixing the number of grains of silver in United States coins at 464 3-10 grains of pure silver per dollar and proportionately for minor silver coins.

The bill and the substitute were ordered printed and placed on the calendar, and Voorhees gave notice that he would call them up next Tuesday.

The bank circulation bill was then taken up.

YELLOW FEVER.

A Case on a Ship at Present at Philadelphia.

WASHINGTON, Aug. 18.—A telegram was received at the Marine hospital bureau this morning from the resident physician of the Philadelphia quarantine station, in reply to a dispatch from Dr. Wyman, stating that the schooner Etta H. Lister, from which a case of yellow fever was taken off yesterday, had been engaged in the coastwise trade between New York and ports south for the past six weeks.

The man who was taken ill with the fever had been on shore at Georgetown, S. C.

Dr. Wyman has telegraphed this information to the authorities at Georgetown and to the South Carolina State board of health.

Advices received from Surgeon Hutton in charge at Brunswick, Ga., state that a cordon 600 feet in all directions around Branham's house at Brunswick has been established, and that active disinfection is going on. Surgeon Hutton takes a favorable view of the situation so far as to the extension of the disease is concerned and has begun an inquiry into the origin of the case.

CRUSADE AGAINST CHINESE.

Unemployed White Men Want Their Job.

SAN FRANCISCO, Aug. 17.—A crusade against Chinese laborers has been started in Fresno and other places in San Joaquin Valley, where, owing to financial troubles, large numbers of white men are out of work, while many Chinese are employed steadily on ranches and vineyards. Thus far there has been no violence, but it looks as if the unemployed white men in the valley would displace Chinese labor.

SHOT TO KILL.

An Attempted Murder and a Suicide in a Tennessee Town.

DRESDEN, Tenn., Aug. 18.—At Gleason, Tenn., a small station on the Nashville and Chattanooga railroad, J. K. Alexander, one of the best and most prominent citizens in that section, was shot yesterday by Dr. Wilson, a druggist at Gleason. Wilson then shot himself, dying instantly. The two men have been at outs for about a year. Alexander's wounds are not necessarily fatal.

Trouble in Far Off India.

BOMBAY, Aug. 18.—The Chamber of Commerce of this city and the India currency association have sent protests to the Marquis of Lansdowne, Viceroy of India, against the sale of India council bills at a price under 1s 4d. They state that the action of the council in selling bills at less than 16 pence has demoralized trade, and is causing an immense loss to the commercial interests of the country.

Locomotive Explosion.

GREENFIELD, O., Aug. 18.—A freight engine on the Baltimore and Ohio Southwestern railroad, blew up near Rokab last night, instantly killing the engineer, named Basim, the fireman, named Roberts, and a brakeman named Quinn. The track was torn up by the force of the explosion.

Let It Come.

LONDON, Aug. 18.—Gold to the amount of \$3,980,000 was withdrawn from the Bank of England today for shipment to the United States.

SOUTHAMPTON, Aug. 18.—The steamship Columbia, for New York, has on board \$144,000 in gold for American houses.

A Winston Bank Suspends.

WINSTON, N. C., Aug. 18.—[Special.]—The People's National bank has temporarily suspended because of inability to get currency.

Every business man in Asheville and citizens of city and county generally who are interested in the formation of a Western North Carolina Fair association should attend the meeting for the organization of such an association, to be held here tomorrow.

THE FAMOUS

FIGARO CIGARS

66,000

SOLD IN THIRTEEN MONTHS

—BY—

Raysor & Smith.

It is undoubtedly the best

5ct. cigar sold in the city, as

the gradual increase of sales

prove.

Remember we are still giving

away coupons for the

World's Fair tickets, which

will close Oct. 1.

Remember to get your coupons

when you buy a cigar,

for two round trip tickets

to the World's Fair will certainly

be given away, and

you may be the fortunate

man.

If you have not tried this

famous Cigar, do so and be

convinced of its merit.
