This Daily Citizen, Democratic, is published every afternoon (except Sunday) at the following rates—strictly cash: One Year \$6.00, Six Months \$3.00, Three Months \$1.50, One Month .50, One Week .15

FRIDAY, AUGUST 18, 1893.

The effect of the decision of the Behring Sea arbitration tribunal is that Great Britain and the seals win and the United States loses. We shall now have a big bill to pay for seizing Canadian sealing vessels.

A Winston dispatch says: "T. A. Dance, formerly of North Danville, Va., who was convicted last week of setting fire to his furniture store, was released today upon the understanding that he pay the costs and leave town within 20 days. The motion was made by the Solicitor, prosecuting attorneys, and acting mayor."

In other words, Winston has kindly sloughed off on to any other community unfortunate enough to receive him, a convicted fire-bug, who, going hence practically without punishment, is now free to practice his profession of house burning at will. Winston has set a bad example.

Women who run snivelling to their husbands when some important "matters" to them, lack good sense and womanly dignity. If a few freezing words are not sufficient to cool the ardor of such an indiscreet man, a scolding with a broom or any convenient object, will impress on him the fact that he's "in the wrong pew."—Chattanooga Times.

Then the first time the editor of the Times goes home to dinner to find his very much better half dispensing congealed verbalities and broom swipes he will not ask her to come "snivelling to her husband" and explain, but will understand that the "ardor of an indiscreet man" is being cooled after methods approved by the editor himself. They have queer people in Chattanooga as well as elsewhere.

It has been stated in our Washington correspondence that two and perhaps more of the North Carolina Congressmen are opposed to the proposition to allow national banks to issue circulation to the par value of their bonds deposited. We should like to know the reason why. It may be overwhelming, but we have not yet seen or heard of an objection to this apparently simple means of putting into circulation a larger, additional amount of currency of a quality as good as gold.—Charlotte Observer.

We suppose the objection is based on the old assertion that, whereas the banks collect interest on all bonds they deposit with the United States Treasurer and also on the bank notes therewith obtained, they already have too large a share of the leaves and fishes, and that they should not also be given the basket as well. It is stated that the United States Treasurer is in shape now to redeem millions worth of United States bonds and thus put that much currency into circulation. As it is the people, and not the banks who are suffering, perhaps the latter way of increasing the circulation is the better.

MR. BLOUNT'S ADMISION. Minister Blount did not intend to say much on landing at San Francisco from Hawaii, but he let fall one expression of his feelings that is significant. He said:

"The native Hawaiians are a landless people, who have been robbed of their natural right to a share of the soil. Only a very small part of the domain ever reached the common people, and of 20,000 acres they secured when constitutional government was begun very little remains, as they have sold it for foreign lands. Large foreign corporations have also secured the bulk of the other land, except that vested in the crown."

"The result is that the country today furnishes the most striking contrast to the land system of the United States, and I see no way for the United States to annex the islands so long as these vicious land laws remain in force. Nowhere on the face of the earth has land monopoly reached such power as in Hawaii, and to make the islands American soil without revolutionizing the land tenure would be as absurd as to annex a part of Russia."

Considering that we do not need, and, as a peace nation, can have no use for the Sandwich Islands other than that already secured to us by treaty, why undertake to revolutionize this little Russia? It would be equally sensible to cut off, say Florida, and low it mika out into the ocean for the sake of having a detached state that would be wrested from us at the first outbreak of a war in which it might, for the first time, be of some value to us.

No detached territory, no far off provinces!

NOTHOUGHT OF RESISTANCE.

A beautiful Tribute To The Pope From Archbishop Corrigan's Address Sunday.

"For myself, if I may be permitted to allude to the subject, I count it a special grace that I made my studies in philosophy and theology under the shadow of the Vatican. In his well known work entitled 'Recollection of the Last Four Popes,' Cardinal Wiseman observes that, as a rule, attachment to the Holy See, for those who have lived as students in Rome, is not so much a conviction of the intellect, luminous and far-reaching as it is, as a deep-seated and growing affection of the heart. How can one live amid the constantly recurring memories of the martyrs, how can one visit the grandest Basilica on earth, and kneel down at the spot where Peter was crucified, not have engraved deeply on the table of his heart the divine words, 'On thee will I build my church,' 'Feed my lambs,' 'Feed my sheep.' Do thou, when converted, confirm thy brethren. All one's subsequent study and reading in theological channels strengthen and intensify the convictions of early years, and one who had enjoyed such advantages counts it no glory, but rather a humiliation, that it should ever become necessary for him to do aught that detracted even of resisting the Holy Father's will, much more of disobeying his positive enactments, never found lodgment in his mind."

DUMMY LINE SCHEDULE.

Leave Court House Square on Charlotte street electric car for Sunset Park at 9 a. m., and every 30 minutes thereafter until 12:30 p. m.

Commencing then at 2 p. m., take car at square every 30 minutes until 7 p. m.

THE BATTLE FOR SILVER.

Mr. Bryan of Nebraska in the House. The question was not whether the President was honest or not. The question was whether he was right. The President had won the confidence of the people, but he had been deceived. He had said in his message that the people demanded the repeal of the Sherman act. He had heard from the boards of trade and from the chambers of commerce, but he had not heard from the farmers or the men in the workshops, and he could no more judge of the opinion of the people than he could measure the ocean's depth by the foam on the ocean's wave. Let the friends of silver call the battle on and never leave the field until the people's money was restored.

Must stand by the People

In conclusion Mr. Bryan said: "The Democratic party stands today between two conflicting forces. On the one side stand the corporate interests of the United States, the moneyed interests, aggregated wealth and capital—imperial, arrogant, compassionless. They are able to crush, with their all-pervading influence, any who may dare oppose, and to those who favor and flatter they may bring ease and plenty. These demand that the Democratic party shall become the agents to execute their merciless decrees. On the other side stand an unnumbered throng, those who gave to the Democratic party a name, and for whom it was assumed to speak. Work-worn and dusty begrimed, they make their mute appeal, and too often find their cry for help beat in vain against the outer walls, while others less deserving gain ready access to legislative halls. This army, vast and daily vaster growing, blends with the Democratic party to be its champion in this terrible conflict. It cannot press its claims and sounds of revelry, it cannot march its phalanxes in grand parade. No gaily banners float on the breeze. Its battle hymn is 'Home, Sweet Home,' its war cry, 'Equality before the law.'"

Things would be different.

From the Chicago Daily Tribune. "Proud young woman—Ho! I wouldn't marry you if you were the last man in the world."

What will we serve?

"Between these forces hesitating, in doubt which side to turn, yet conscious that upon its decision must rest its fate, stands the Democratic party, and to it standing thus come the words of Israel's second law-giver, 'Choose ye this day whom ye will serve.' Ave, my friends, let me invoke the memory of him whose dust made sacred the soil of Monticello, when his spirit went to join the dead but sceptered sovereigns, who still rule our spirit from their earth. Thomas Jefferson was called a demagogue. His followers were called a mob, but he dared to follow the best promptings of his heart. He dared to place man above matter, humanity above property, and dared to smite the bribes of wealth and power and to plead the cause of the common people, and because of his devotion to their interests the Democratic party was inevitable while he lived, and because of that devotion his memory will be revered while history endures."

NEWS IN OUR OWN STATE.

The North Carolina Agricultural Experiment Station has now on hand a small crop of crimson clover seed in the chaff, which will be sent to every farmer who will make application to the station and pay freight charges on the seed. Ten pounds will be sent, which is sufficient to sow one-fifth of an acre. This clover will thrive on land in moderate condition, but, like some other forage plants, will pay best where given a rich soil. The composition of crimson clover hay shows it to be a highly nutritious food. Address P. E. Emery, agriculturist, experiment station, Raleigh, N. C.

A syndicate of West Virginia capitalists recently purchased the Adams gold mine near Weldon. They have organized a company, to be known as the West Virginia Mining and Milling company, and will begin work as soon as the machinery arrives. The mine has been visited by members of the company, who say it is a rich one. They expect large returns for the amount already invested and for the additional amount which they propose to put in the works.

Commissioner of agriculture Robinson has just returned to Raleigh from a round of farmers' institutes. These are over for the present, the last one being held at Boone, in Watauga county last week. In most places farmers seem to take great interest in the institutes, and they are carrying new ideas in farming and stock raising to many portions of the State.

Cotton is small, but is fruiting remarkably well. Buyers anticipate no trouble in getting money sufficient to move the crop. They say there has always been enough when the time came and they anticipate little trouble from that source.

Secretary Ayer is preparing a number of attractions for the approaching State fair. The Wild West show, which attracted so many last year, will be excelled this season, and many first-class attractions will be there.

Remember The Platform. From the Columbia, Mo., Herald.

Let the Democratic party keep faith with the people. To do otherwise is not only bad politics, it is downright dishonesty. Broken pledges invite defeat; they bring disaster and deserve it. Nothing is gained by dodging issues. Everything is lost when principles are sacrificed. Remember the platform.

CHILDREN who are puny, pale, weak, or nervous, ought to take Doctor Pierce's Golden Medical Discovery. That builds up both their flesh and their strength. For this, and for purifying the blood, there's nothing in all medicine that can equal the "Discovery."

In recovering from "Grippe" or in convalescence from pneumonia, measles, or other troupal and builds up the whole system. As an appetizing, restorative tonic, it sets at work all the processes of digestion and nutrition, rouses every organ into natural action, and brings back health and strength.

For all diseases caused by a torpid liver or impure blood, Dyspepsia, Biliousness, Scrofula, Skin, and Scalp Diseases—even Consumption (or Lung trouble) in its earlier stages—the "Discovery" is the only guaranteed remedy.

If it doesn't benefit or cure, in every case, you have your money back. W. A. & S. BRY'S SCHEDULE. Regular half hour schedule to Sulphur Springs without change. Cars leave rear of postoffice 8:30 a. m. and thence every half hour until 8 p. m. Round trip 25 cents. Car also leaves postoffice at 7:45 a. m. to Spartanburg train.

To insure change of advertisements running on regular contract, copy must be handed in by 10 o'clock a. m.

THE STOCKING SAVING BANK.

From the Knoxville Tribune. Times, indeed, are very hard and money very scarce. And labor goes in idleness and men stand round about. But we know no change is likely nor very apt to come. Till the old style stocking purse is turned inside out.

In a lengthy message our ruler may advise. And Congress rave on silver and the Senate loudly spout. But the times will still get harder and currency be scarce. Till the old style stocking purse is turned inside out.

Gold will flow from England and banks new notes issue. And your "banker" gladly take anything you have to spend. But the sun will never shine nor the clouds all clear away. Till the old style stocking purse is turned inside out.

Then do not wait for confidence nor legislation's way. But stand aside with hat in hand and mouth all fixed to shout. For the times will surely mend and the wheels go round again. When the old style stocking purse is turned inside out.

Things would be different. From the Chicago Daily Tribune. "Proud young woman—Ho! I wouldn't marry you if you were the last man in the world."

What will we serve? "Between these forces hesitating, in doubt which side to turn, yet conscious that upon its decision must rest its fate, stands the Democratic party, and to it standing thus come the words of Israel's second law-giver, 'Choose ye this day whom ye will serve.' SOUVENIRS

Harris' Lithia Water, Harris' Lithia Springs, S. C.

Office of Dr. John Hey Williams, Asheville, N. C., April 24, 1893. An extended use of Harris' Lithia Water, prompts me to the statement that I regard it as one of the best, if not the very best of all waters known to the profession. In the condition of "phosphatic urine" its action is marvelous. Its use in the rheumatic and gouty diathesis, affords me more comfort than either the Buffalo or Londonderry waters. Very truly yours, (Signed) JNO. HEY WILLIAMS, M. D.

R. P. Walker testifies: I have used Harris' Lithia Water and when using same was both pleased and benefitted. In using it liberal quantities should be taken, for my experience teaches me that small amounts are disappointing, whereas a generous use is followed by most gratifying results. Yours truly, (Signed) R. P. WALKER.

STILL ANOTHER. Asheville, N. C., April 14, 1893. I am glad to be able to say a word with regard to Harris' Lithia Water. I have used it with the greatest possible benefit in chronic rheumatism. As compared with the Buffalo Lithia, I find it quicker and it requires less quantity. It has my hearty endorsement. Very truly yours, (Signed) MRS. T. W. BRANCH.

These are all bonafide letters from people we know and have confidence in their statements. Analysis on each bottle. Wholesale depot for Asheville and Western North Carolina. aug714f Asheville, N. C.

The Normal and Collegiate Institute, FOR YOUNG WOMEN. ASHEVILLE, N. C.

Second Session, September 13, 1893.

This institution is located in the most beautiful suburb of Asheville, N. C. The spacious building, recently completed for its use as a college building, is furnished with pure water from Springs on the premises, is lighted with gas, heated by hot water and provided with hot and cold baths.

The health and habits of the pupil are carefully guarded. Besides the ample space given for outdoor exercise, a well equipped gymnasium will be fitted up with doors. No expense has been spared to make the social and sanitary arrangements perfect. Each pupil will have her share in the domestic work, as a part of her practical training for life, and whilst aiming at thoroughness in every department, the management will strive to provide for those committed to their care the advantages, not in rely of a christian school, but a christian home. No pupil will be received who is not in reasonable health, or who cannot furnish credentials as to moral character.

FOUR SEPARATE COURSES OF STUDY ARE OFFERED TO THE STUDENT. 1. THE NORMAL COURSE, for the thorough training of teachers under instructors from the best Normal schools. 2. SEMINARY OR COLLEGIATE COURSE, including ancient and modern languages, sciences, music, drawing, etc. 3. COMMERCIAL COURSE, including stenography, typewriting, bookkeeping, etc. 4. DEPARTMENT OF DOMESTIC SCIENCE, (a) Scientific cooking, the study of the production and manufacture of foods, etc. (b) Sewing—embracing the cutting and fitting of garments, millinery, etc.

The teachers at the head of this department are from the famous Pratt School, Brooklyn, N. Y., and the others from the best institutions in the country, chosen with reference to Christian character, experience and ability as teachers. A thoroughly organized preparatory department has been furnished for all such as are not prepared for the higher classes. The school year is divided into two terms; cost to pupil \$50 per term, or \$100 per year, which barely covers the expense of board, the school being practically free, having been provided for by a few liberal friends of female education. A limited number of day pupils received at \$25 per term. For further particulars apply to REV. THOMAS LAWRENCE, Asheville, N. C.

GLENN SPRINGS WATER IS A SURE RELIEF TO SUFFERERS.

What Hon. T. D. Johnston says about it: "About four years ago I commenced the use of the Glenn Springs water, to rid my system of the malaria from which I had been suffering for some time. The water has entirely relieved me and I cheerfully state that I believe it to be as good water as can be found for all ordinary diseases of the liver and kidneys. For a general tonic and renovator of the system I believe it has no equal. Very truly yours, 'T. D. JOHNSTON.'"

From John P. Arthur, Esq., Attorney at Law: "I don't know the constituents of the Glenn Springs water, if I did I would make some for myself. Neither do I know how it acts; if I did I would act so myself. It is a well made water and it acts well. I can only say that its effects on me and my forefathers has been more beneficial than any other water we ever used, and I am glad it has been put in the reach of as poor a man as JOHN P. ARTHUR, 'To Pelham's Pharmacy, May 25, 1893.'"

What C. T. Rawls writes Pelham's Pharmacy, Asheville, N. C.: "Gentlemen—I have used Glenn Springs water and consider it, as compared with other mineral waters, the best I know of. Everyone in South Carolina knows about 'Old Glen Springs.' In fact it has been most favorably known there for a century. Yours truly, 'C. T. RAWLS.' Asheville, N. C., May 27, 1893.
