OFF TERRIBLE HATTERAS

AWFUL EXPERIENCE OF A PASSENGER STEAMER.

She Was Driven Ashore, But Almost Miraculously, No Lives Were Lost—Another Steamer Rescues The Passengers.

SAVANNAH, Ga., Aug. 31.—The steamship Birmingham of the Ocean Steamship company, two days overdue, arrived at Savannah at 7 o'clock last evening bringing a portion of the passengers and crew of the steamship City of Savannah, wrecked Monday morning on the shoals six miles from St. Helena light house, South Carolina at 5 a. m.

The City of Savannah left Boston on Thursday afternoon. Sunday she encountered the full force of the gale and the water began pouring into her hold. Seeing that the ship could last but a few hours longer, Capt. Savage headed her for shallow water. Early Monday morning the steamer was heard firing against the bottom and the passengers knew they had reached shallow water. The vessel was run as far aground as possible. The huge waves broke over her with increasing force, and she was able to pieces. The cabins were smashed and carried away. Capt. Savage and the officers and crew used every effort to prevent loss of life among the passengers, and they were successful. Not a life was lost from aboard the ship. The passengers were moved first from one side to the other low water portion of the ship where the waves seemed to beat with less force.

Tuesday morning the two life boats were manned and filled with the women and children, about fifteen in all. They arrived at Coffin Point, St. Helena Island, where they are at present.

Those who remained on the City of Savannah were rescued by the City of Birmingham, which left New York Saturday, August 25. Cape Hatteras was rounded on Sunday about midnight, and about 2 a. m., the wind and sea increased fearfully and with daylight one of the greatest but most fearful of sights met the eyes of the passengers who were able to raise their heads from their pillows. As far as the eye could reach could be seen the enormous seas which seemed to lash each other in their mad race. The ship seemed to be but a mere speck of the elements to be dashed about at their mercy. At 1 o'clock p. m., however, the storm began to abate and just before dark the ship was again put on her course.

At daylight Tuesday parts of vessels such as spars, portion of decks, pieces of lumber and paraphernalia of every description were seen in the water, and cargo were to be seen in every direction.

Tuesday at 6 p. m. the City of Savannah was sighted ashore in the breakers about six miles south of St. Helena light house. It was impossible to attempt to rescue the unfortunates until day light. The Birmingham was anchored, and on Wednesday morning boats in charge of First Officer Johnson and second Officer Hamilton reached the ship and the rescue of those on board was effected with safety.

The passengers of the wrecked steamer who were seen at the ship spoke in the highest terms of Captain Savage, of the Savannah and also of Captain Berg, of the Birmingham. To the bravery of these men they said they owed their lives.

GOOD CROPS.

They Will Bring Wealth Into Old Carolina.

DAVIDSON, N. C., Aug. 27.—Your correspondent has lately made a tour of South Ireland, even from here to Statesville, and talked with a goodly number of farmers in this section, (which, by the way, is about as good as any in the State). They all say the wheat crop was the best in years, the grain being very large and perfect. One threshing machine firm reports having threshed over \$15,000 bushels of grain. They had been in the business about 15 years and they say this is the best crop they ever threshed. One crop, that of Mr. John K. Goodman, of Rowan county, gave 538 bushels of wheat without one grain of weed or chaff. Mr. Goodman is one of the men who makes farming pay although he has no advantage over hundreds of others, rather the opposite, as he is physically weak to do much labor. If he succeeds, why not others? as he must hire nearly all his labor.

The cotton crop in the above section is rather short, but there was more planted which will probably make up for it. Early corn in some neighborhoods was badly damaged by drought. The fruit crop is the most abundant in a long time and everybody was very busy drying and canning it for winter use, every one supposing there would be no market for it at all.—Charlotte Observer.

BLACK MOUNTAIN NEWS.

The Burning of Rev. T. K. Brown's Mill—Personal.

BLACK MOUNTAIN, N. C., Aug. 28.—Mr. Charley Vance, secretary to Senator Vance, is spending a few days with his family, who at present are stopping at the Mt. Mitchell. Among the late arrivals at this hotel are Messrs. Thos. and Miles Pogram of Charlotte; Mr. Chas. Tate of Greensboro, and Mr. Finger of Frankfort, Ky.

Profs. Toy and Kane, together with Dr. Whitehead of Chapel Hill are the guests of Mrs. Washington.

Mr. L. Briggs of New York City is visiting his son, our worthy townsman, Pierce Briggs.

Rev. T. K. Brown, whose dwelling house was burned a few months ago had the misfortune to lose his mill, which was totally destroyed by fire on Thursday night last between 11 and 12 o'clock. It was evidently the work of an incendiary, a pine torch being found by those who arrived first on the scene and which the fire is thought to have used in its work. The mill had been recently fitted and equipped with the best modern machinery and was valued at about \$6,000. Mr. and Mrs. Brown have the sympathy of the entire country.

Abandoned at Sea.

BALTIMORE, Aug. 31.—The steamship Decatur H. Miller arrived in port this morning with the shipwrecked crew of the British ship Astoria. Tuesday morning, 20 miles North of Hunting island, the Astoria was sighted with distress signals flying. The vessel was enroute from Pensacola to Antwerp laden with yellow pine. Capt. Faulkner, his wife and crew of 20 persons were taken off and the Astoria abandoned.

AROUND THE DEPOT.

Trainmaster Foster Talks About Railroad Business.

"Yes, sir," said Trainmaster Foster, of the Richmond and Danville, to THE CITIZEN, "times were never so dull with the railroads as they now are. This time last year I was skimming around after train crews, so great was the traffic. Now—well, we run only two freight trains each way a day on the main line, while on the Murphy branch our freight trains are tri-weekly. If the movement of freight over there gets much less, why then it will be a tri-weekly sure enough. As yet there has been no intimation of a cut in the wages of our employees, although I have reduced forces whenever it has been possible, without impairing the service. But several of the great roads of the country have cut wages, and there's no telling what will happen."

Then Mr. Foster talked about the storm of Monday, which brought out the fact that he had been in something of the kind in 1887 at Morehead City, when the wind blew so mightily that one could see the walls of the hotel pressed inward by the fury of the blast. Mr. Foster was one of the lessees of the hotel at Morehead in 1887.

No. 11 as she goes out of Asheville now is a beauty, carrying seven coaches. One of these is a sleeper for Chicago, another a sleeper for Cincinnati and a third a chair car for Hot Springs.

No. 13, on the A. & S., was 3 1/2 hours late last evening, the detention being a consequence of the storm in South Carolina.

Trains 15 and 16 on the A. & S. and the Sunday train between Asheville and Waynesville on the Murphy branch will be discontinued on and after tomorrow.

FUN ON LABOR DAY.

Foot Races, Hardie Races, a Game of Baseball, Etc.

The Labor day athletics under the auspices of the Billmore stonemasons, and given for the benefit of the Mission hospital, form a topic for general discussion and beyond a doubt will attract a large crowd to Carrier's track next Monday, when the sports begin at 1 o'clock p. m.

Almost every variety of race will be seen, from a foot race to a test of speed between Arden M. Field on a bicycle and Frank O'Donnell's horse. A prominent feature will be the five-innings game of baseball between the Business Men and Stonemasons. This promises to be as interesting as the famous We Union One game last season. For the Business Men Dr. J. S. Grant will catch while Lawrence McLoud and H. Merriman will relieve each other in the pitcher's box. Banker W. H. Penland, who has been here before, many a time, and who knows baseball when he sees it, or even hears it, will cover first base for all it is worth. Mr. Penland and Dr. Grant are wearing injured fingers today as a result of practicing yesterday, but they will be on deck for the game.

The sports throughout will be interesting and the people of Asheville should give them a very liberal patronage.

STEADY, THREE!

An Office That Carries a \$25 Fine With It.

Waterworks Superintendent Murray calls the attention of the public to section 711 of the city code, and promises that violators thereof, who bob up frequently, will be punished, whenever discovered. The section reads:

"Any person or persons who shall take water from a public fountain or fire plug within the city of Asheville, in a barrel, or water a horse or any animal at the same, or willfully or negligently, by violent use or otherwise injure or damage the same, shall, on conviction, be fined \$25."

Violations of this ordinance, Superintendent Murray says, occur often, it apparently being quite the thing for a person to open the plug by means of a wrench and get all the water he wishes.

COMFORT AND CONSOLATION

Nearly a Million Dollars of Cyclone Insurance in Charleston.

It is gratifying to know that so many Charlestonians have had the good fortune to protect themselves against loss by tornado and cyclone insurance. It will come in very handy for supplying the means with which to repair the damage done by the cyclone. The agencies did not seem disposed to give out the figures of the cyclone insurance they have in force, but at an approximate figure it may be put at something over a million dollars. Of course, at this time, it is impracticable to say how much the companies will lose, but they make the conservative estimate of 10 per cent. losses.—Charleston News and Courier.

THE PRESIDENT SATISFIED.

He Congratulates Chairman Wilson, But Not the Country.

WASHINGTON, Aug. 31.—The following telegram from President Cleveland respecting the vote in the House on Monday by Chairman Wilson, who introduced the repeal bill:

"Spartanburg, S. C., Aug. 28.—To Hon. Wm. L. Wilson, Washington, D. C.—Please accept for yourself and your associates in Monday's achievement my hearty congratulations and sincere thanks. Grover Cleveland."

CHOLERA ABROAD.

Immigrants Must Be Detained and Watched.

AMSTERDAM, Aug. 31.—Nine fresh cases of cholera and five deaths were reported in Leerdam yesterday. The Dutch-American Steamship company has notified its agents that all emigrants before embarking must remain five days under observation of an American physician in the company's hospital. Emigrants will not be allowed to come or go at pleasure, but will be obliged to sleep and eat in the hospital.

Worth a Million, But—

DANBURY, CONN., Aug. 30.—Frederick A. Hull, president of the Log Mountain Coal, Coke and Timber company of Pineville, Ky., and member of the firm of E. A. Hull & Co., this city, made an assignment today. His Kentucky property is valued at \$1,000,000. His Danbury interests are extensive. Hull is prostrated at his home in this city and may not live.

A TARIFF FOR REVENUE

PERSONS INTERESTED WILL BE GIVEN A HEARING.

A Republican Objection Met By An Instruction from Chairman Wilson—The Contingent Fund Will Be Drawn on for Expenses.

WASHINGTON, Aug. 31.—The decision of the committee on ways and means yesterday to give a hearing to persons interested in the preparation of the tariff bill between the 4th and 20th of September does not exhaust the intentions of the committee in that regard. Chairman Wilson has been instructed to present a resolution for consideration by the House, authorizing the committee through its various sub-committees to pursue investigations of several subjects over which they have special charge. The expense of these investigations is to be paid out of the contingent fund of the House upon a warrant of the chairman of the committee. This will meet the criticism of Reed yesterday that "18 or 20 hours seems a short time to devote to a presentation of the great manufacturing and producing interests of the country."

SILVER RULED OUT.

It May Be Legislated on in the Dim Future.

WASHINGTON, Aug. 29.—The most surprising vote of the day was the tremendous majority against free coinage at sixteen to one. It was as much a surprise to the administration leaders as to their opponents. They had not counted on more than 40 majority. A round hundred was more than they had ventured to hope. The break in the Southern delegation was the most striking feature of the change. Texas, cast three votes against free coinage, Arkansas one, Alabama two, and Georgia three. On this ratio West Virginia three, Tennessee four and Kentucky seven. Of the two from Alabama, Colonel Gates was one. He came in from his sick bed to vote against free coinage, and for repeal. The passage of the repeal bill through the House by such a tremendous majority is expected to act like a tidal wave flowing upon the Senate. The most enthusiastic free coinage men could hardly now persist in any plan to prevent action on repeal without substitute legislation favorable to silver, provided a majority proves to be for unconditional repeal, and that is no longer a doubtful question. The Senate undoubtedly stands for repeal, and it has it upon the authority of the leading members of that body that it will act within less than three weeks.

Thus it may be put down that silver is ruled out for the present. There may be legislation later favorable to silver, but that is in the dim and distant future.—Atlanta Constitution.

NO MORE SUNDAY OPENING.

Settled at Last that the Fair Will Keep the Sabbath.

CHICAGO, Ill., Aug. 31.—The injunction restraining the directors from enclosing the World's Fair gates to the public Sunday has been dissolved. Judges Dunne and Brentana united in a decision to this effect this morning. Judge Goggin dissented and upheld the decision of Judge Stein. The injunction was granted by Judge Stein in the Superior court in a bill filed against the Columbian exposition by Charles W. Clingham. A motion was made before Judges Dunne, Brentana and Goggin to dissolve the restraining order and that motion has been sustained by Judges Dunne and Brentana. The directors are now at liberty to use their discretion in opening the gates on Sunday and the rule adopted by them against opening the fair on the first day of the week will, therefore, be in force.

TILLMAN'S TRADE MARK.

He Cannot Register It For Out of the State Trade.

WASHINGTON, Aug. 31.—The commissioner of patents has rendered a decision in the matter of the appeal to him of the State of South Carolina from the refusal of the examiner to register a trade mark applied for in the name of the State, consisting of the word "Palmetto," to be printed on the liquor bottles together with the arms of the State and the name of the liquor. The commissioner sustains the examiner.

Little Ruth on the Blues.

GREENWICH, Ct., Aug. 31.—The yacht Onieda, with the President and family on board, anchored off Captain's Island last night. E. C. Bendit, owner of the Onieda, who came with the party from Buzzard's Bay, came ashore early this morning and was driven to his residence about a mile and a half distant. It is believed the Onieda will sail for New York this afternoon.

Just a Rumor.

COLUMBIA, S. C., Aug. 31.—A man from Spartanburg reports that it is rumored there that friends of George Turner, the wealthy white man who is to be hanged Friday for killing his brother-in-law, are preparing to raid the jail at Spartanburg and release him.

No Strike Can Win These Days.

NEW YORK, Aug. 31.—The strike among the longshoremen is at an end. This morning they relinquished the struggle without gaining a point and applied for work at the various piers at reduced rates.

Coming Around All Right.

LOUISVILLE, Ky., Aug. 31.—Two more suspended banks, the City National and Merchants National, resumed business yesterday.

CONDENSED TELEGRAMS.

Mayor Campbell Brown, probably the wealthiest live stock breeder in Tennessee committed suicide at Grand Rapids, Mich., Wednesday by shooting himself through the head. Major Brown leaves an estate valued at over one million dollars and a large family. The cause of the suicide was ill-health.

The Chicago mob Wednesday was short lived. The police ended the riot with their clubs.
