PEDERAL ELECTION LAW The Bill Repealing It May Ready Nov L

Washington, Sept. 19 -Mr. Oates o Alabama has been instructed by the committee on the judiciary to report a bill to repeal the Federal Election law. When the call of committees comes the judiciary committee will be called earlier than the committee on the election of President and Vice-President. The bill from that committee will consequently be reported before the Tucker bill. It lies with the Committee on Rules to fix a special order for the consideration of either bill Judge Oates's bill is a little more conservative than the Tucker bill. It leaves n the statutes the clauses empowering governors of States to call upon the Federal government for aid in the event of violence and disorder. United State supervisors and deputy marshals at the oolls are, however, done away with. Mr. Tucker thinks a bill for the repeal ing of the Federal election laws on, ht to be ready for passage in the House by November 1. By that time, he thinks, the Ways and Means committee will be CIGARS! CIGARS! ready to bring in a tariff bill, and the Scuate can, in the meantime, take up the Eelection law repeal bill. He anticipater that the tactics of Republicans in the Senate against this bill will be precisely similar to that employed by the Demo crats against the Force bill.

The cost of the books this year is about 10 per cent, greater than last year, when they were sold by the committee.

TO THE HOSPITAL

The Stonecutters Present the Proceeds of Labor Day Sports. Last Sunday afternoon a committee of the Biltmore Stonecutters' association, under the leadership of their president, Donald Call, met the managers of the Mission hospital at the hospital and asked their acceptance of \$300, being the proceeds of the amusements on Labor day, saving that the gift was ten-

Several of the ladies present expressed their gratitude, especially being pleased that their management of the institu-tion had proved so satisfactory to their friends and supporters. They also assured the donors that their gift could not have been made at a time more acceptable, as they desired to complete one of the unfinished wards, and have it sub-divided into private rooms, where patients can be treated separately at a nominal expense. That, although no condition had been made by the association, it would be gratifying to its members to know that their bounty would enable the managers to carry out

speedily this desirable improvement.

The committee then presented to J. A. Conant a beautiful Masonic emblem, as a token of their appreciation of his services in bringing the Labor day program to so employed. gram to so successful a completion. DOWN THE HILL

A Montford Avenue Car Takes a Spin Yes erday.

Yesterday morning as the closed car on the extension of the Montford avenue line was descending the grade toward the bridge the dew on the track caused it to get beyond the control of the motorman and it took a lively race around

the curves and down the hill.

The motorman put on the brakes as tightly as possible, in fact, so tight that the wheels were locked, and even reversed the current, but it was all of no avail. The motorman and conductor, seeing that nothing more could be done to stop the runaway, jumped, and were followed by several Bingham school students. Only one person, Will Bolton, a plucky boy, kept his seat in the car.

The runaway made all of the curves

safely and on coming to the level juss this side the terminus came to a stop with wheels locked. No damage wat

THE CITIZEN rode over the Montford line this morning with Manager Baird, and unbesitatingly pronounces a trip over this line one of the distinct attractions of Asheville. The line runs within 100 feet or so of Pearson's bridge. The view of the French Broad river as the car emerges on the river front is beautiful. A force of hands is busily at work surfacing the track and putting everything in shape, so that within a week the cars will ride over the extension as smoothly as they have always done on the old portion of the road. The line is now about three miles in length.

TO CUT THE WATER OFF.

There Will be no Water for Two Hours Tomorrow.

Yesterday afternoon just after THE CITIZEN had gone to press Waterworks Superintendent Murray came to the office to give notice through the paper putting the notice in THE CITIZEN the stantly. majority of consumers could be notified. Users of city water are, therefore, in-formed that the supply will be cut off tomorrow, Wednesday, afternoon be-tween the hours of 3 and 5 o'clock. This s made necessary in order that a broken gate in the pipe line above the filter may be repaired. Remember the hours and govern yourselves accordingly.

NOW IT'S TOO MUCH MONEY

NEW YORK BANKERS NEVER HAPPY.

They Have Too Much Money and Too Much Gold, and They Are In a State of Mind-Cash Not At

NEW YORK, Sept. 19 .- The national banks of this city are receiving so much money at present from country banks that they are in a quandary as to its disposition. It was only a few weeks ago that cash of all kinds was at a prethe books used by the school children verse. One result of this condition is the movement of some of the national banks to retire the extra circulation they took out during the stringency. The Fourth national bank of this city has withdrawn \$500,000 of government bonds deposited to secure circulation surrendering the equivalent in its own notes. Several other banks contemplate

the same action. the same action.

So much gold has come into active circulation since the money stringency set in that a greater part of the daily settlements of clearing house balances are in gold. This necessitates the carying around of from one bank to another of between two and three millions in gold each day. The trouble and expense, as well as the risk of loss, by this method, has brought up the old question of one of the banks acting as a storage vault for all this gold and the storage vault for all this gold and the settlements made in gold certificates issued by the clearing house. This plan has been adopted before and it will probably be again. It is expected that the matter will be settled in a day or
