IN THE GOOD OLD WAY. And Sheriff White Was There tending this meeting.

To See The Whipping. A story is told of Sheriff J. A. White of Madison county which shows that that official knows a way of punishing offenders that sometimes is as effective as sending them to jail would be. A few days ago two children of a colored wo-man living below Marshall threw rocks where it would do the most good with a vigor that showed her hand and apparently her heart was in it. The sheriff was timekeeper, and after the whipping was over he gave the children a nickel apiece, which was salee to their burning anatomies. And it is safe to say there will be no more train rocking at that point.

Col. Cameron for some time and found him to be a gentleman always, kind-hearted and true and an enthusiastic lover of his native State. The Gold Leaf trusts that its good triend may be fully restored to bealth and that he may be granted many more years of honor and usefulness to the State and to the profession of journalism which he has adorned with such conspicuous ability.
