## REDUCED from \$50c. to \$25c. a Copy. to \$3 a Year. The foremost men of the world write the literature of contemporaneous activity for THE FORUM. Every great subject is taken up by The Forum when it naturally comes into public attention and is treated by the best authorities, without regard to parties or creeds. It will keep any thoughtful reader informed on the tasks and problems of the time, as no other periodical does. To many thoughtful people, the price of The Forum has hitherto been prohibitory; indeed all the great Reviews have been too high in price for the masses of intelligent readers. But now the number of readers of thoughtful literature - men and women who wish really to know what is going on in the world outside the narrow limits of particular sects and parties - is great enough in the United States to warrant so revolutionary a reduction in price. The Forum discusses important subjects, but it is not dull. The literature of contemporaneous activity is, in fact, the most interesting of all literature. American citizenship implies that a man shall know the opinions of the foremost men and the latest great achievements in every direction of activity. SIZE AND QUALITY UNCHANGED. The Forum is now as cheap as the magazines of mere entertainment. THE CHEAPEST, THE LARGEST, THE BEST, OF THE GREAT REVIEWS.
