IF Matthew Stanley Quay's scheme for killing the Wilson bill in the Senate should result in passing the measure through that body with the free coinage and the repeal of the ten per cent. tax on State banks attached, the tattooed Pennsylvania Senator would place in the hands of the House a club which that body would speedily convert into a besom of destruction for the Republican party in the United States, by passing the bill promptly with the riders on.

One of the ablest and most influential Third party men in North Carolina in conversation with a hymneratic femal a solution. Mrs. L. Maldux, Robert Davidson, Mr. O'Brien, Pennaman & Co.

Third party men in North Carolina in conversation with a Democratic friend a few weeks ago said, "It will be impossible for our party to combine with Republicans in North Carolina. To think that such a thing can be done, is to think that the Third party is composed for men controlled by the party is composed of men controlled by the party is composed to the party is party in the party in the party is party in the party is party in the party in the party in the party is party in the party in t of men controlled by prejudice and passion and not by reason. If such a scheme is undertaken it will fail. A bargain may be attempted, but the goods will never be delivered. The Democrats may not do all we want; the Republicans have done and will do nothing we church, \$21; Mrs. Froneberger, \$15. cans have done and will do nothing we want." These are actually the facts. Coalition along this line is impossible. ONLY ONE CODE OF FAIR

The rage of the average Republican over the position taken by President Cleveland and the Democratic party with reference to the Hawaiian matter is almost frantic. The foundation of all their fuss is their chagrin that the shady methods of Mr. Harrison's minister, Stevens, should be uncovered. Feeling has so far gotten the advantage of judgment that the fact that the deposed Queen was the daughter of a negro barber is urged as a reason why she should be sacrificed in order that a few white sugar planters and speculators should grow rich.

Mr. Cleveland thinks the United States should treat the woman fairly, if she is a negress and the daughter of a barber that this country should not have one code of international cthics for governments ruled by white people, and another for governments ruled by colored people. Elsewhere, as at home, the law should know no race, color or previous condition of servitude.

REPUBLICAN BOOKKEEPING.

The Republicans are crying aloud, through every newspaper or stump speaker they can control, "the treasury is empty, factories are stopping work, the poor laboring men are out of employment, and the Democrats and the Wilson tariff bill are doing it all " It is the old dodge, and stop thiefery which bas ever characterized the hypocritical evil doer. The Democrats turned over a full treasury and a prosperous countr to President Harrison and his party and when Mr. Cleveland went into t! White House, and Mr. Carlisle into th treasury building, the cry of the labor was coming up from every section of th country, a bankrupt treasury stared th new secretary in the face, and the crow of Republican politicians who we turned out of the departments began to cry aloud of the bard times which the themselves had brought about.

It has been charged, and never su cessfully contradicted, that during Ha rison's administration the style of bool keeping in the treasury department was twice changed, once (soon after Mr. Cleveland retired) to prevent showing how much money was in the treasury, and again (just before Mr. Harrison retired) to prevent showing how little money was in the treasury. This is Republicanism.

The Nominee Must Have All the Democrats Back of Him

HOITOR THE CITIZEN:-I have beard a number of distinguished names mentioned in connection with the Democratic nomination for Congress in this district this tall. Among them I will mention Hon. James H. Merrimon, Hon. Locke Craig, Col. Frank Coxe, Hon. B. F. me that our present representative, Hon. W. T. Crawford, is the logical candidate. He will inevitably be a part and parcel of the issues before the people in the com-ing campaign. He has stood with the Democrats of the nation at the capitol at Washington and helped to make th issues, and while he may not have acted in accordance with the wishes of each separate and individual Democrat in this district, no man can say that W. Crawford has swerved one hair's breadth from the platform upon which he was elected, and upon which the party's fight was made last fall in North Caro-

Some independent newspapers like Times and Salisbury Herald have rebuked railroad corporations for their attempted interference in poli ties. Now a writer in the Charlotte Observer says:

"And so the bankrupted Richmond and Danville railroad is going into politics. Well, let them 'try i' on' and see who comes out on top. I think their attempt to influence public opinion against the Wilson bill by disseminating hostile literature through the South is one of the most impudent an I infamous specimens of bad taste and bad judgment I have witnessed or heard of,"

Now the father writes and asks that the child be sent in the rdinary style of passengers. Learning that the King's Daughters had been very kind to the caild and to the persons wh had been taking care of her, the father very politely wrote that if one of the K D's, would accompany the child to Texas he would marry the lady.

Gorman Has Heard Something from the Springfield Republican

Senator Gorman of Maryland is th accredited leader of the democratic opposition in the Senate to the Wilson bill He will not say that he intends to vote gainst it, but he does say it will be materially changed. But since he said this the Maryland Senate by a large majority has sent to him a resolution that he and his colleague support the tariff measure about as it stands. Some of Gorman's triends sought to modify the resolution in his behalf, but they were voted down.
