acter-Indications of Economy In Consumption NEW YORK, March 10.-R. G. Dun 8

Co.'s weekly review of trade says: lividences of present improvement in busi ness multiply, but confidence in future improvement does not seem to increase There is more business and a larger production by industries. The most dis

tinet gain is in iron and steel manufact ure. The output of pig iron March 1 was 110,166 tons, having increased 10 there are increased activity and replen-ishment of stocks, as is natural at this season. But the demand thus far falls much short of expectations, and its charetec indicates great economy in con sumption.

fee President and Mrs. Steven son on The Great Domain

When the Vice-President and Mrs Stevenson alighted from the "Minas" Pullman yesterday there were comparatively few persons about the station who were aware of the expected arrival of the visitors, but as the party crossed the yard to their carriage the crowd was quick to note their presence and there was an immediate flutter of agree-

able surprise.

Mrs. Stevenson was attired in a gray traveling gown and her husband wore the conventional frock coat and silk tile of the administration.

Mrs. Stevenson remained in her apartments at the Battery Park during the evening, resting from the fatigue of the journey, and today has entirely recovered. General Stevenson expresses himself as having come to Abacille, which self as having come to Asheville, which he remembers very pleasantly from a former visit, for recuperation from the grind of the session at Washington, and says he expects to remain in the city until Thursday of next week. At 11 o'clock today General and Mrs. Stevenson, accompanied by E. P. Me-Kisseck and Mayor Patton, drove to Mr. Vanderbilt's domain at Biltmore, where the many interesting points of the estate were viewed and enjoyed.
