THE INSUE would be influenced if elected mayor by non-awners of slaves, to join in the civil any clique or faction hostile to the best interests of Asheville. He could be depended upon to act as conscientionsly for the good of the City as any mayor the City ever had. Such being the con ceded fact, the excuse a Democrat must present for not voting for Mr. Martin is that he, the voter, wishes the expression of no polities in City elections to come in the form of the maming of such rank Republicans to fill City offices as, for instance, H. S. Harkins.

The fallacy of no policies in city e cetan lies in the absurd assertion that straigh Democrats cannot give this city as clean as economical, as intelligent an adments tration of our city affairs as a man wha gives Republican work workers am wire pullers the chief places within in bestowal. There have been straigh Democratic administrations in this town that were above criticisms and then can be one after the May election Democrats do their duty
