

A COLOR-BLIND DIPLOMAT. His Honor Did Not Extend to the Young Lady's Mother. Society of the highly proper sort is laughing in its voluminous sleeves at an adventure which befell a handsome nobleman attached to one of the foreign legations. The young man, it appears, is not averse to admiring feminine beauty, and it is said that when he visits the theater he takes a seat in the front row and fixes his eyes on the fair portion of the audience, says the Washington Post.

It is only natural that a man with such splendidly soulful eyes and luxuriant mustache as the baron's should inspire reciprocal esteem in many of the weaker sex, and acquainted with many damsels to whom he has never received a formal introduction. The other day he espied an especially pretty brunette whom he immediately wanted to meet the worst way in the world. When she discovered his admiring glances she dropped her lids in that coquettish way which bespeaks a similar desire on her part.

The attaché is up to such demure little fibrousnesses and in less time than it takes to toll the bell of the church with her. Her mental brightness was even more pronounced than her personal attractiveness, and he was smitten. She refused his invitation to luncheon, however, and would not even let him walk home with her, but she said he might call and meet her mother, and in case the latter was favorably impressed with him he could continue his visits. This was a new type of the American girl to the diplomat, so he rapturously applauded her excellent good sense and straightforwardness, and made an engagement, in pursuance of her remarks, for the next night.

He was so anxious to make a good appearance that he printed a card and had it printed in the morning, and he had a dozen maidens before he had one of the proper terms of a lady. Then he called forth on command.

He reached his first fiancée's residence and a delight to him to see her seated in the hall. In answer to his inquiry Miss So-and-so was at home, the young girl replied that "father" was in the parlor. The peculiarity of this remark didn't seem to strike the foreigner, who had been told upon many times by American ladies and gentlemen.

AN ORDINANCE

Of the Board of Aldermen of the City of Asheville Adopted March 26

Whereas, the school committee of the city of Asheville has submitted to this Board of Aldermen a communication in the following words: "To the Honorable the Board of Aldermen: The undersigned, composing the school committee of the city of Asheville, respectfully ask your consideration of the following brief statement of the financial condition of the most important department of the city. There are enrolled in the public schools 1,990 children, while there are 2,500 persons who are entitled by law to the benefit of public education. Of these who are not provided for by this committee probably 400 are attending private schools, which leaves us to face the alarming fact that more than 1,200 of this city's future citizens, upon whose intelligence the safety of the community will depend, are today unprovided with any opportunity of education. This makes it evident that it is the duty of the committee to establish other buildings, those we now have being full and crowded to the verge of danger, and certain of discomfort. But while recognizing this duty, your committee has only been able to provide additional buildings, but under the fact that they cannot even continue the present schools next year unless the people of the city will allow us relief from the burden of interest which we now have to pay on the debt which has been contracted chiefly in the erection of the several school buildings. This debt amounts to \$25,000, and encumbers property which at a reasonable estimate is worth \$50,000. This debt bears 8 per cent. interest and amounts \$2,000 per annum of the appropriations made by the county and city. In fact our past experience teaches us that these annual appropriations are not enough to pay the current expenses and this interest charge. Therefore we would urge upon you to submit to the qualified voters the proposal that the city issue its bonds to the amount of \$25,000 of such denomination and bearing such interest as you deem proper, said bonds to be sold under such circumstances to be sold below their par value and the proceeds to be devoted solely to the extinguishment of the present debt of the public schools of Asheville. W. W. Rice, chairman; H. A. Gilger, Geo. S. Howell, J. E. Dickerson, Dr. J. H. Williams, W. F. Randolph, School Committee." And whereas the city is indebted to sundry persons for amounts of money aggregating \$85,000, all of which are due their maturity and on each of which the city is liable to suit at any time, and the debt of the School Committee bears interest at the rate of 8 per cent.

per annum, and whereas this amount of money can be borrowed at a lower rate of interest, thus saving a considerable sum now required to be paid from the current income of the city. Therefore, be it ordained by the Board of Aldermen of the City of Asheville, that a proposition be submitted to the qualified voters of the city, that they shall authorize the issue of the City's bonds in denominations of \$500 each, in the aggregate amounting to \$25,000, and bonds to bear interest at the rate of 6 per cent. per annum, as evidenced by coupons attached to said bonds, maturing on the first day of April and on the first day of October of each and every year and the principal of said bonds becoming due and payable at the expiration of thirty years from the date of their issue. Each of said bonds shall distinctly bear on its face a certificate of the Treasurer of the City of Asheville, that he has received at least its par value, before its issue, and the funds arising from the sale of said bonds shall be appropriated strictly to the payment of the debt of the School Committee and to the payment of the debt of this city which is here referred to and to any other purpose whatever. Be it Further Ordained, that at a election to be held in the several wards of this city on Monday, the 7th day of May, 1894, the judges of said election be authorized to prepare boxes in which shall be deposited the ballots of such of the qualified voters as desire to vote on the above proposition. Upon each of said ballots shall be distinctly printed or written either the word "Approved" or the word "Disapproved," and each qual-

ified voter who desires to express his consent to the above proposition shall vote a ballot containing the word "Approved," and each qualified voter who desires to express his unwillingness to consent to the above proposition shall vote a ballot containing the word "Disapproved," and at the closing of the polls at said election the judges shall count the ballots contained in said boxes, and declare the result, and certify the same to the Board of Aldermen. Be it Further Ordained, That in the event the judges of said election shall declare as the result of the same that the number of ballots containing the word "Approved" exceed in number one-half of the qualified voters of said city, the bonds of this city shall be issued in accordance with the above proposition. T. W. PATTON, Mayor. P. M. MILLER, City Clerk.
