DECORATED ALL GRAVES

HONORS FOR THE BLUE AND THE GRAY.

The President goes to Arlington to take part in the exercises at Washington—a great day at Richmond.

FREDERICKSBURG, Va., May 30.—A decoration day opened here this morning by conferring honors upon both blue and gray. A large party arrived from Washington at 9 a. m. and was met at the train by the Mayor and a committee of prominent citizens and escorted to the Confederate cemetery where the graves were decorated with flowers, wreaths and set pieces. The procession was then reformed and proceeded to the Federal cemetery where the graves of the Union dead were strewn with floral tributes. The orator of the day was Lieut. Lucien Young, U. S. navy, who is the first naval officer ever invited to deliver a decoration day oration in the South. His oration was very interesting and was received with a good deal of enthusiasm.

WASHINGTON, May 30.—A decoration day was observed in Washington in the usual manner. The chief exercises took place at the Arlington, but appropriate exercises were held at the soldiers' home, and various cemeteries. The district militia headed a procession of Grand Army men and other veteran associations, which marched to Arlington.

Interest in the celebration was increased by the personal participation of President Cleveland, who left the White House at noon and drove directly to Arlington. RICHMOND, Va., May 30.—The unveiling exercises of the Confederates' private soldiers' monument occurred today with a cavalry reunion. Fitz-Hugh Lee, Wade Hampton, Gov. O'Ferrall, Rev. G. W. Williams Jones and Gen. Rosser made speeches. The latter was bitter in his arraignment of the United States pension system. The crowd was the largest in the city since the unveiling of the Lee monument. The vast procession began to move shortly after 3 o'clock. The monument exercises began before 5. A marked feature of the parade was the children's division. There were many hundred in line, each decked with bunting and flags, and carrying flags. There were hundreds of little ones from five years up. Not a grown person was allowed in the ranks.

ATLANTA WILL GET IT

A Government Building Probable For The Southern Exposition.

WASHINGTON, May 30.—The subcommittee of the House appropriation committee who had under consideration a proposition for the erection of a building at the Atlanta exposition to contain the government exhibit have agreed upon a bill which will be reported to the full committee as a substitute for the bill previously reported by them. The subcommittee bill provides for the appropriation of \$150,000 for the removal of the government building from the World's Fair grounds at Chicago and its erection upon the exposition grounds at Atlanta. If the removal of the building be not practicable, or if the removal and re-erection of the building is not possible within the amount of the appropriation, then the Secretary of the Treasury is authorized to have a new building erected at Atlanta, not to cost more than \$50,000. If the old building be removed one-half it is to be occupied by a government exhibit and the remainder set aside for an exhibit of the colored people of the country. In either case the building is to be under the control of the government board of managers.

The bill also carries an appropriation of \$150,000 to defray the expenses of a government exhibit and this sum as well as \$50,000 for the building, is to immediately available. SYMPATHY FOR STRIKERS. Serious Trouble Threatened At A Missouri Coal Mine. MACON, Mo., May 30.—The situation at mine No. 6 at the Kansas and Texas Coal company near here is serious. Last night a gang of strikers assembled near the mine and threatened to drive out the men at work. A large force of deputy sheriffs surrounded the shaft and prevented an attack. The strikers are angry and, it is feared, will set fire to the buildings. The feelings of the villagers is in sympathy with the strikers, and the sheriff finds difficulty in securing deputies to assist him in preserving order.

COLUMBUS, Ohio, May 30.—Sheriff Riley of Athens county has appealed to Governor McKinley for troops. The strikers are preventing the moving of coal trains on the Toledo and Ohio Central railway at Glouster, Ohio. The Governor is in Cincinnati, to which place the request has been telegraphed. MR. GORMAN TO RET. May Not Return Before The Tariff Bill is Disposed of. LAUREL, Md., May 27.—Senator Gorman's nervous system is completely prostrated, and it is doubtful whether he will be seen in the Senate again before the tariff bill is disposed of. He probably will leave his family some time this week for the Virginia springs. His physician has ordered rest and quiet. Mr. Gorman has been in poor health for two or three months. His constitution is very much broken. For years he has suffered from neuralgia. The strain of the past six months has taken from him the little strength he had left, and the recent delivery of his speech in the Senate was a severe tax on his nervous system.—New York World.

Caught Between The Cars.

ROANOKE, Va., May 30.—W. E. Hughes, fireman on the Norfolk and Western railroad, was caught between the cars last night while changing a switch at Houchins siding near Christiansburg and so badly injured that he died here this morning. He was 22 years old and resided at Christiansburg.

Cabinet Maker Wanted.

SOPIA, May 30.—The resignation of M. Stambuloff's ministry is due entirely to personal friction between several members. M. Grekoff has declined to undertake the reconstruction of a cabinet, and has advised Prince Ferdinand to summon some representative of the opposition for that purpose.

COMMONWEALERS IAILED

THEIR PURPOSE NOT A COMMENDABLE ONE

So Says The Judge Before Whom They Were Tried—Congress Not To Be Coerced By The Lawless Mobs.

HELENA, MONT., May 30.—Leaders of the Seattle contingent of the commonwealers were brought into the United States court yesterday to answer the charge of contempt in seizing a train on the Northern Pacific railroad at the western line of the State May 18.

J. W. Kelly, the leader, who is a brother of the Kelly whose army is now in St. Louis, was sentenced to the county jail for six months. John Ross, the engineer who had served two terms in the penitentiary and was released January, was also given six months. Wm. Blair, Stewart Lackey and Tom Davidson were each sentenced to 30 days in jail.

In passing sentence, Judge Knowles said the whole army seemed to be crossing the country with a purpose in view which did not commend itself to reasonable men. The idea, he said, of any number of men in the United States purporting to assemble in Washington with the intention of coercing Congress was not to be endured if the government was to live.

IN THE 'EXAMER'

A Visit To The Normal And Collegiate Institute.

The days of review and final examination before "commencement" are being done by the students of the Normal and Collegiate Institute, and in its comfortable study halls and well appointed class rooms, among the learners, with President Lawrence as a guide, THE CITIZEN yesterday had a brief but a delightful visit.

The application of the pupils to the study in progress at each particular period coming within THE CITIZEN'S observation was noted to be carefully close and the class or its individuals showed their intelligent understanding of the subject, the prompt, correctly-given responses to queries from the faculty. The efforts in bookkeeping, typewriting and stenography were noteworthy on account of the degree of neatness, precision and rapidity attained in these special lines that are nowadays denominated "woman's work."

Like the sensible young women that they are the students put on each day the white apron and cap of the cooking class. The dainties and substantial of healthy living are evolved in an apartment conveniently adapted for fair hands in the manipulation of the varied culinary processes. The art of bread making is taught in the minutest detail and convincing proof was made of the skill of the bakers as the ovens were emptied of batches of beautifully browned, plump loaves.

In the "gym," an exhibition of the daily exercise in health cultures given and the scene was an interesting feature of an altogether pleasant occasion. Dumbbells, Indian clubs and evolutions in marching made up the program, and the drill was easily observed to be a factor in promoting the graceful bearing of the young ladies and an inspiration in the system that obtains in the happy and well regulated household of the Institute.

THE HISTORIC GOVERNORS.

They Meet After A Long Separation—Immigration.

WASHINGTON, May 30.—Twenty five members of the Southern immigration association, composed of delegates from New York, Maryland, West Virginia and the District of Columbia left here yesterday over the Richmond and Danville railroad to attend the Southern immigration and industrial Congress, to meet in convention in Augusta, Ga., today. The association organized its third annual congress today at noon. President M. T. Bryan, presided. Speeches of welcome were made by Mayor J. H. Alexander, President Joseph Lamar of the Young Men's Business college of Augusta, Gov. W. J. Northen of Georgia and United States Senator Patrick Walsh, president of the Commercial Club, Augusta. Responses were made by Gov. McCorkle of West Virginia, Governor Tillman of South Carolina and Gov. Carr of North Carolina. President Bryan followed with an address giving a history of the association and its objects. The convention is composed of representative men from all over the South and the outlook is for a successful and useful session. The roll of delegates showing the states represented will not yet be made. The convention will last till Friday.

Coxey's Decoration Day.

WASHINGTON, May 30.—Coxey's ragged army of tramps have been reinforced by 150 men under "General" Galvin, who arrived at the Coxey camp yesterday. They marched into town this morning, decorated the peace monument on Pennsylvania avenue at the Western end of the capitol grounds with evergreen and wild flowers, and marched back to camp.

Will Parallel The N. & W.

BALTIMORE, Md., May 30.—The Manufacturers' Record says the Chesapeake and Ohio railroad company has decided to parallel the Norfolk and Western through Southern West Virginia, and tap the finest coal seams and some of the best timber lands in the world.

A Cyclone In A Grave Yard.

WICHITA, Kans., May 30.—A cyclone said to be 200 feet wide passed over the Northern portion of this county last night destroying a country church and overturning monuments in the Kechi cemetery. So far as heard from, no one was killed. YESTERDAY'S BASEBALL GAMES. National League—St. Louis 9, Brooklyn 8. New York 2, Cleveland 0. Philadelphia 14, Chicago 7. Pittsburgh 3, Baltimore 2. Washington 12, Louisville 2. Boston-Cincinnati game postponed. Southern League—Mobile 10, Charleston 6. Nashville 13, Atlanta 9. New Orleans 10, Savannah 2. Memphis-Macon, no game.

EIGHT LIVES WERE LOST

A WRECKED TRAIN TAKEN FIRE.

Four Persons Taken Out Dead—Others Are Missing—Engineer and Firemen Among the Dead—An Open Switch.

MILWAUKEE, Wis., May 30.—A Marshallfield, Wis. dispatch says that an accident resulting in the loss of eight lives and the injury of from 15 to 20 persons, more, or less occurred here at 3:15 a. m. Train No. 4 on the Wisconsin Central railway went through an open switch, and was completely wrecked. The cars afterward took fire and were consumed. Four persons were taken from the wreck dead and four others are missing. It is supposed they were caught in the mass of broken timbers and consumed. Among the dead are the engineer, fireman, brakeman and one of the Tweedy brothers.

HILL AND THE PRESS

The New York Senator Standing By The Newspaper Men.

WASHINGTON, May 30.—In the Senate discussion of the bribery committee report yesterday by Mr. Hill, he said that if a newspaper man who had written something as to speculations in sugar was on the stand and said that he wrote it in good faith and had derived his information from confidential sources, why Mr. Hill asked should he be pressed on that point instead of having the parties called against whom the charge was presented. "How are we to ascertain," asked Mr. Allen, "who they are, when the witnesses refuse to disclose their names or the sources of their information?" "I swear all the Senators, if you have any doubt about it," Mr. Hill replied with a snap, and the galleries applauded. "So long as you have," Mr. Hill went on, "entered upon this inquiry—foolish in my judgment—it is your duty to exhaust it and to go to the bottom. I think that the Senate is treading on ground which it ought not to tread. I think that no good will come of investigation in thus seeking to persecute these men. I deny the right of the presiding officer, without any action of this body, to certify the facts to the district attorney of the district, and I believe that it is within the control of the Senate to say whether this prosecution shall go any further in that direction. I desire to offer a resolution on this subject." Hill's resolution went over till today.

READY TO SETTLE.

Coal Operators Have Had Enough of the Strike.

MOSBORO, Pa., May 30.—There were fifty representatives present at the meeting of the Pittsburgh coal operators' meeting which was called to hear the report of the committee of fifteen, which had been appointed to formulate a plan for the settlement of the strike.

This committee failed to agree on any plan and asked that it be discharged. The request was granted and immediately afterward Alexander Dempster suggested that a committee of ten be appointed to take the place of the discharged committee, but with unlimited power to act.

The suggestion was acted upon without much discussion and the following committee was selected: M. H. Taylor, chairman; Thomas Young, U. A. Andrews, D. W. Schulerberg, F. L. Robbins, Alex. Dempster, R. H. Boyle, John H. McEwen, Brannell and W. P. Dearmitt.

The instructions given the committee denote a general desire on the part of the operators to wind up the strike with all possible haste and at the best terms to be secured.

Mr. Lease And His Sick Wife.

WICHITA, Kans., May 29.—Charles L. Lease, husband of Mrs. M. E. Lease, denies the story of separation from his wife. When interviewed yesterday he wept bitterly and seemed to think his wife might die. To add to his troubles, his wife's health is so poor that he fears she will die in a few days. He says he will go to Olathe and take his children with him to the bedside of his sick wife. He expects the house to be burned and is alarmed over the matter.

\$7,000,000 For The Elgin Plant.

ELGIN, Ill., May 29.—A representative of an English syndicate has offered \$7,000,000 for the plant of the Elgin National Watch company, and President Avery notified the stockholders here that three-fourths of the owners of stock had agreed to sell.

Found Him and Fortune.

PORT TOWNSEND, Wash., May 28.—Frank C. McMill, a restaurant keeper, lately of Port Angeles, has turned up as a long lost heir to a fortune in Chattanooga, Tenn., valued at \$50,000. He has been absent from home for fifteen years and several thousand of dollars have been spent in vain in endeavoring to ascertain his whereabouts.

CONDENSED TELEGRAMS.

George Shirney tells a magistrate of Wilkesbarre, Pa., that he was an Austrian count left penniless by the rascality of the trustees of his estate and reduced to the necessity of working for 60 cents a day in coal mines.

Many districts in the north of Spain and the south of France are under snow. Two tramps died in Madrid of exposure and cold.

Gen. Jas. B. Weaver was nominated Populist candidate for Congress from the Seventh Iowa district yesterday.

W. P. Rend, the Pennsylvania operator, says he will import negro miners if the strikers do not return to work. A solid bottom has at last been found for a light house off the dangerous coast of Hatteras, N. C. The California orange crop is 20 per cent. below last season.
