ANOTHER SALOON LICENSE

THE BAR WILL BE ON SOUTH MAIN STREET.

License Granted by the Board of Aldermen Friday on a Tie Vote—New Uniforms and Rules For The Police.

The Mayor yesterday decided that Asheville shall have another saloon. It was at the meeting of the Board of Aldermen, and on a tie vote. Only four of the members—H. L. Gudger, Jones, Redwood and J. M. Gudger—were present at the time of the vote, although Mr. Hull came in soon after.

The matter came up as soon as the reading of the minutes was concluded by Clerk Miller, Hon. Theo. F. Davidson, for a brother attorney who could not be present, offered an application by A. G. Halberton, formerly of the Glen Rock hotel, to retail liquor in the building No. 48 South Main street, adjoining the Whitlock Clothing house. The application and certificate of six freeholders were read and the question came to vote on J. M. Gudger's motion to grant, seconded by Mr. Jones. The vote was Aye, J. M. Gudger, Jones, May, H. L. Gudger, Redwood. The Mayor voted aye and the new saloon goes, so far as the Aldermen are concerned.

Mr. Davidson referred to the question of offensive drammings on the streets by some merchants, which is in the hands of a committee. He said a farmer came to his office recently with his shirt almost torn from his body as the result of a contest between two merchants as to who should secure a "trade" with him. The committee having the matter in charge asked and was granted further time for report.

A proposition from J. B. Ward, who was hurt some time ago by falling over a corporation water box, was to arbitrate the question as to the damages to be allowed him, leaving it to City Attorney Sondley, Maj. Chas. M. Steadman and the Mayor. The proposition was accepted. Mr. Ward places his damages at about \$150, which includes time lost and physician's bills.

A lengthy report was sent in by the police committee, stating that new uniforms are to be procured for the force, to be paid for by the patronage, and new buttons, caps and badges, to be paid for by the city. Along with the report a number of rules and regulations were submitted for the guidance of the patrolmen. Members of the force are cautioned against any abuse of authority and urged that courtesy at all times is indispensable. They must be respectful to each other and to their superiors. They must give their name and number whenever asked to do so, and are never to use the baton except in urgent cases. They must not be seen in pairs, except by order, nor must they talk to any one except on business affecting the department. Sleeping on post or other neglect of duty will cause dismissal, as will the finding that physically a patrolman is not capable of filling his position. And last, but probably harshest, (for a 12 hours' stretch) the patrolmen must be on their benches with coat buttoned, belt in place, and cap on left breast of coat. The report was adopted.

The Mayor was instructed to call on the Board of County Commissioners asking them to take charge of Willie Goff, the boy who has been cared for at the city's expense for several months.

A number of rents in Central Market asked to be reimbursed for their expenditures in moving stalls according to the recent change. Referred to the market committee.

Henry R. Worthington asked for the payment of the \$2,000 guarantee he posted for the proper working of the new pumping machinery for one year. The year is not quite up for the steam pump and a little more than up for the water pump. The Mayor was instructed to correspond with the company.

The vote whereby Mrs. M. J. Malone was allowed damages to the extent of \$30 to her property on Bailey street was reconsidered and the question was referred to the street committee.

Mrs. Kelly F. Alexander made application for a permit to erect a new building 24 1/2 feet adjoining the McAfee block on Patton avenue. The east side of the building will be the brick wall of the McAfee block, the west side and rear of corrugated iron, plastered on the inside, and the front of brick and glass. Referred to the street committee.

Will Jackson and T. P. Johnson were elected members of Hose company No. 1, and E. C. Brown was transferred from No. 3 to No. 1.

City Tax Collector Fagg asked credit on his account for a list of insolvents presented. Granted. In the First and Second wards the insolvent taxes amount to \$859.45, and in the Third and Fourth wards \$149.52.

Park Commissioner Powell asked the Board for an appropriation of \$150 with which to properly beautify the Park park. A motion was made to refer to the finance committee but it was defeated and a motion to appropriate \$200 was carried.

Tax exemptions were granted as follows: A. F. Morgan, living outside the city; R. R. Hill, W. B. Gwyn, Mrs. Gwyn, error.

Bills ordered paid: Street payroll, \$107.45; sanitary payroll, \$96.19; water payroll, \$18.50; W. C. Templeton, \$19.80; H. E. Hall, \$2.50; Mrs. James Walker, \$22; Asheville Foundry & Machine Shops, \$6.00; S. P. Moser, \$4.90; Penniman Bros., \$6.10; J. S. West, 70c; W. N. Litch, \$12.27; Mrs. T. C. Collins, \$1.50; R. T. Owen, \$4.25; J. W. Albright, \$4; Asheville Printing Co., \$4.50; H. K. McBea, 25c; Asheville Woodworking Co., \$5.40; J. E. Dickerson & Co., \$1.90; J. W. Summers, \$2.50; Asheville Street Railroad Co., \$41.33; C. W. DeVaul, \$1.50; A. D. Cooper, \$38.83; Sam Gaway, \$1.80.

The Board then went into executive session, but did not tarry long, and some of the members were able to see the greater part of the baseball game.

KILLED BY THE CARS

A Farmer Tries to Board a Moving Train.

CANTON, N. C., June 9.—[Special.]—John Dills, a farmer, was killed at Addle today. While trying to board a moving train he fell under the wheels and was terribly mangled. He leaves a wife and three children.

One Nomination.

WASHINGTON, June 9.—The President today sent to the Senate the nomination of W. M. Dunklee to be postmaster at Christiansburg, Va.

VEST PLACES THE BLAME

THE REPUBLICANS TRYING TO KILL TARIFF BILL.

Kicked To Death By Grasshoppers. Is Not To Be The Epitaph On The Senate Measure—Democrats To Work Harder.

WASHINGTON, June 9.—In the Senate today the House bill to supply a deficiency in a grant of public lands to the State of Mississippi for the use of the State University passed.

At 10:30 the tariff bill was taken up. Gallinger's amendment to increase the duty on hay from 82 to 83 per ton provoked a discussion which, at the close, became rather excited. Vest, in an angry tone, accused the Republicans trying to kill the bill by delay, and said that if he had his way and if the Democratic Senators would remain in the chamber he would insist on sitting until 9 or 10 o'clock at night, when, if admitted, that the Republicans would defeat the bill if they could. Vest exclaimed: "Then do it like men, and do not assassinate it by parliamentary technicalities and by delay."

In conclusion he quoted the words of the chairman of the House committee of ways and means under like circumstances: "If you desire to be in at the death of this bill, strike it down in fair and open debate. Do not let it be nibbled to pieces by pismires and be kicked to death by grasshoppers." (Laughter.)

Stewart expressed his surprise at Vest's speech, and reminded him of how he and his associates had filibustered against and defeated the Federal election bill a few years ago. He thought that the Democratic side had received very liberal treatment from the Republican side in the pending bill and that the Republicans could defeat the bill by actual resistance. There was not a Republican Senator who did not regard the pending bill as injurious to the people of the United States, both North and South. It was not delay that was causing trouble in the country. It was fear of this bill that was partly hurting industry.

Senator Harris this morning circulated among the Democratic Senators a ready-made program they agreed, beginning Monday next, to remain in their seats to participate in the proceedings until such time as those in charge of the tariff bill see fit to adjourn. The paper was generally signed, but owing to the absence of a number from the chamber it was impossible to secure enough to make the agreement effective. He expects on Monday to obtain the necessary signatures and then a battle will begin.

NOT QUITE SO BAD.

Notwithstanding the Coal Strike, Business Improved Some.

NEW YORK, June 9.—R. G. Dun & Co.'s weekly review of trade says: The outlook for business seems a little better on the whole, though the change is not great. Moreover, it is impossible to distinguish between mere replacement of orders cancelled for want of fuel or other causes and the new business for which works are anxiously looking. That cancellations have been heavy is certain, and it is not entirely clear that orders of equal magnitude have gone to other works that are able to fill them.

Through the agency of strikes, the interruption of industry and commerce increases every week. Hence it is somewhat encouraging that the decrease in payments through clearing houses is but 24.3 per cent. for the first week of June, 27.2 at New York, but only 19.4 elsewhere. The decrease in comparison with 1892 is about 30 per cent. With only 2,357 colliery ovens working and 14,576 collieries with the capacity of discharging half a ton, and seven out of nine of the Carnegie furnaces at Bessemer out of blast the production and manufacture of iron and steel are smaller than at any other time for years.

It is believed that deferred work will ease heavy production after the strike terminates, the demand for products is at present much below general expectations even at the east. Other industries have been less affected, but many of the textile mills even in New England have now been closed for lack of fuel or orders. Besides the cotton mills a great number between the Atlantic and the Mississippi river. The market for goods is dull and weak with further reduction in price, and stocks visibly accumulating.

The banks here continue to receive from the interior about as much money as they lose by gold exports, though the crop moving season is close at hand. Custom receipts are again 36 per cent. less than a year ago and internal revenue 23 per cent. less for the week. Exports of domestic products have been exceeding last year's a little.

The return of failures are still encouraging, 216 in the United States against 222 last year and forty in Canada against twenty-seven last year. The liabilities in all failures reported in the month of May were \$13,305,357, about \$7,420,000 at the East, \$4,300,000 at the South and \$1,585,357 at the West. Of the aggregate, \$5,165,025 was of manufacturing and \$6,683,499 of trading concerns.

A PERMANENT EXPOSITION

One For The Benefit Of All The States And Territories.

WASHINGTON, June 9.—In accordance with a resolution adopted by the Southern Industrial Congress held recently at Augusta, Ga., Walsh (Ga.) today introduced in the Senate a bill to provide for a permanent exposition at Washington, "in which the products and resources of the several states and territories may be fully and properly displayed."

Provision is made for the appointment of a commission to consist of the Postmaster General, the Secretary of the Interior and the Secretary of Agriculture to report to Congress as early as practicable a plan for the establishment and maintenance of an exposition and the erection of a suitable building. The commission is directed to advertise for plans for the building and they are to be reported to Congress with a recommendation as to the site. The bill appropriates \$70,000 for the commission.

LAW BREAKING STRIKERS

THEY BURN A BRIDGE IN OHIO.

Several Hundred Coal Cars Partly Wrecked—Cars Moving Under Military Escort—Additional Companies Ordered Out.

WHEELING, W. Va., June 9.—The reception of state militia in Belwood this morning was most disorderly, troops were repeatedly stoned by gangs of mere boys and women and had to make several charges to disperse them. One militia man was struck on the head and badly injured.

BRIDGEPORT, Ohio, June 9.—Mobs of striking miners were driven from the bridge of the Lorain and Wheeling railway by Ohio militia last night and retreated to bridge No. 4. At four o'clock this morning the bridge was discovered to be on fire. It was completely destroyed. The burning of this bridge will delay the advance of the Ohio state militia to rushing where another mob of strikers is congregated.

Huntington, Parkersburg, Burton and Bellevue companies, West Virginia State militia, reached Boggs Run early this morning and after a short brush with the strikers succeeded in clearing the yards of the mob that held them twenty-four hours. Several hundred coal cars were found to be in bad condition, having been partly wrecked by the men and the track badly damaged. A train was made up and the cars are now moving under military escort. Seven additional companies have been ordered out, forming a complete guard for the Baltimore and Ohio lines from Fairmount coal region to the Ohio river. The B. & O. is now open to move coal at all points.

HE LIKES US.

Editor O'Gorman Spends His Time Here Pleasantly.

Editor D. A. O'Gorman of the New England Druggist, Boston, who has been at the Battery Park for several days and engaged in securing facts for an article on Asheville, left for home today. Mr. O'Gorman while here visited Vanderbilt's and other interesting points in the vicinity, and grew enthusiastic over what he saw of the city and people. He predicts that the druggists who attend the convention of the American Pharmaceutical association, which will be in session here for a week, beginning September 3, will have a very delightful time.

The next number of Mr. O'Gorman's journal will contain as a supplement the R. & D.'s "Land of the Sky" pamphlet, and the following issue will have his write-up. He says New England will send perhaps 150 delegates and, with the New York delegation, he expects to bring down a crowd that will number probably 200. They will come in a special train, arriving the Saturday before the association meets.

This was Mr. O'Gorman's first trip into the South, and his good words for the Southern people, their cordiality, hospitality and readiness to care for a visitor, are extremely gratifying.

THE COTTON PLANT

Weather Conditions Not the Best, But Average High.

WASHINGTON, June 9.—Returns of correspondents of the statistical division of the Department of Agriculture up to June 1st shows that over the greater part of the cotton belt the weather conditions of the planting season has been only moderately favorable. The average condition of the crop in the consolidation of the reports is 88.3 as compared with 85.4 last year and 80.9 in 1892. State averages are: Virginia 97, North Carolina 84, South Carolina 83, Georgia 86, Florida 92, Alabama 88, Mississippi 91, Louisiana 95, Texas 94, Kansas 97, Tennessee 78, Oklahoma and Indian Territory 100.

State percentage of average as compared with the average of the last years are: Virginia 97, North Carolina 96, South Carolina 99, Georgia 95, Florida 97, Alabama 99, Mississippi 102, Louisiana 98, Texas 107, Arkansas 107, Tennessee 96, Oklahoma and Indian Territory 100.

ATLANTA'S \$200,000 BILL.

Livingston Believes It Can Be Pulled Through.

WASHINGTON, June 9.—The bill appropriating \$200,000 for a government exhibit at the Atlanta exposition will come before the House within the next ten days or two weeks. Livingston of Georgia believes that the Republican side of the House will support the bill with practical unanimity, and that it will also receive considerable Democratic support. He is somewhat surprised at the opposition which has manifested itself against the measure on the part of some Democrats from Illinois and the northwest who were strong advocates of a government appropriation for the World's Fair. Notwithstanding this he has no doubt that the bill will pass the House by a fair majority.

Killed in a Wreck

ST. LOUIS, Mo., June 9.—East bound fast train of the Vandallia leaving here at 8:20 this morning was wrecked at Peachontas, Ill., 4 miles east of here. S. A. Faulton, fireman, was terrible injured. The mail clerk, Henry Albaugh, was probably fatally crushed. Engineer Thomas Fier was slightly injured.

Jerry Simpson Cannot Recover.

BERKLEY SPRINGS, W. Va., June 9.—Congressman Jerry Simpson was much worse yesterday. His rheumatism seems better, but a serious kidney disease has appeared and his recovery is despaired of.

CONDENSED TELEGRAMS.

The House committee is in favor of the construction of the Nicaragua canal and of government control.

John T. Callahan and Numa Dudausat, New Orleans aldermen, have been indicted for bribery.

The expected trouble between miners and militia in Alabama did not happen.

The Cripple Creek strike has ended without bloodshed.

It is said that no further loss of life will occur at Cripple Creek.

O. AND O. TEA.

W. A. Latimer,

No. 16 North Court Square.

Sole Agent in Asheville for O. and O. Tea.

Miss Mary Lawson Clarke, Superintendent of the Milwaukee Cook School, Has This to Say About Cottolene: We have used Cottolene for frying of all kinds—fish, chops, potatoes, drop-cakes, timbales, eggs and oysters, and should have used it for other things, if there had been anything else to fry. We also used it to shorten bread, biscuit and other breakfast breads, finding it better than lard for all purposes, for which lard is generally used.

TO READERS Of good novels and the latest bound books: I don't sell second hand novels or some old books which the publishers offer to dealers at almost nothing, and which some dealers of course pick up and make a run at 5c and 10c, so you will remember I have a full line of the very latest novels in cloth bound and paper covers, and sell them at regular prices. Come in and select your choice.
