DEMOCRACY IS IMMORTAL. THI WORD DEMOCRAT STANDS FOR HU-MAN LIBERTY AND HUMAN FREE-DOM AND CANNOT DIE.

-Zebulon B. Vance.

WE notice that several score of papers are generously giving advice to the effect established, he should be put where he monarchies on how to manage their can by no possibility follow the prompt. monarchies on how to manage their can by no possibility follow the promptanarchists. It is well to remember at this time that the governor of the great however, we are confronted with the State of Illinois of the United States of America pardoned two of the worst anarchists that ever walked the face of the earth. Our record in this connection that we can point to with pride is very

A RALEIGH telegram says: "Public sentiment here is very much in favor of the pardon of Lou Paris, the 17 year-old girl from Henderson county now serving out a fifteen year sentence for stabbing the man who accused her of incontinence. Governor Carr has the matter under consideration.'

Raleigh sentimentalists would do well to remember that they have nothing to do with the case. A Henderson county jury has decided that the woman should be imprisoned for her crime, and it is no more right for Wake county to put in a word for the prisoner than it would be right, for Henderson county were the situation

THE FRENCH AND ITALY.

It would appear at first thought that the French are acting very badly over it that anarchist governors are few and the assassination of their beloved Presidear between, dent, in that from the fact that his mur derer was an Italian they have drawn the inference that it would be proper to drive all of that nationality out of the country. The property of Italians is being destroyed in Paris and Lyons and several other of the principal cities, and they are in danger of their lives if they appear in public. One Paris newspaper says no Italian workman should be tol- President Chas. D. Melver, State Norcrated in France.

We know he is posted, and when he of Union county, selected by the Columbian society, and T. A. Smoot, Salisbury, says Uncle Sam has \$53,000,000 in his Hespian society, Wake Porest had J. Hilling inside pocket, and gold enough in his storage box, and is meeting his bills the first of every month when the collector comes around, and is on the whole in a far better way financially than he was a few months ago, why we feel that it is M. THE CITIZEN has greater hope than ever after this last output of the President that he has his eye on the mark and is certain to make a bull's eye before he lowers the musket. We were convinced some time ago that he hurries slower than any man that ever occupied the presidential chair, and that when he makes a mistake it can be seen on the darkest night the moon ever refused to look at. But on the whole he moves in the right direction. Let us all stand back and give the "old sheriff" room tion of whom I have any knowledge. and air; he is coming to himself all right, and the country is too.

THE ANARCHIST.

A Washington telegram says: "One result of the assassination of President Carnot was the introduction could do as I have, pay their own ex

today by W. A. Stone of Pennsylvania of a bill defining the term anarchist, and providing penalties for crimes attempted by anarchists. The bill provides that any person in any society formed to take human life or destroy public property likely to result in the loss of human life shall be considered anarchists and any such anarchists. who shall attempt to take human life or destroy public property, shall, upon conviction in any circuit court, be sen-tenced to death by hanging."

Of course the difficulty in securing convictions under such a law will be to prove that such a society exists in any particular place and that parti cular individuals are members of it. Such a law would not have prevented the great tragedy in France, for Santo seems to have been an entire stranger to

the police of both Paris and Lyons. Nevertheless it is incumbent on society if it would defend itself, to formulate, each country for itself, some law that shall reach these human devils before they have opportunity to commit the crime each has set his heart on. In the case of Santo there could be no motive, other than sheer deviltry, that could furnish even from his point of view an

against all law, against all forms of so ciety as they at present exist, and he affects to believe that his "cause" is advanced by the killing of notable men such as was the President of the French Rcpublic. But any sane man at once sees that the cause of the anarchists is not any more advanced by the murder of a wise and humane ruler like Carnot, than the "cause" of the mad dog is made at-

tractive by the awful death of his victims,

The fact would seem to be that the

marchist who wishes to wipe out society by the extermination of all who do not believe as he does must be moved by the workings of a diseased brain. He is dangerously insane, having a tendency to do murder, and he should be treated as such, and, as soon as his condition is ings of his insane impulses. Here again, enormous difficulty of proving that a suspected individual is an anarchist. He is not likely to admit it unless he has committed the crime be has taken upon himself to do, or unless some of his confederates, if he has any, will come to the aid of society in the attempt to weed out this murderous element-hardly a possi bility. But at all events the open and brazen advocates of revolution by assassination-such as for weeks together made the air hard with their ravings on the lake front at Chicago before the mur der of the police there, should be promptly recognized as murderers in intention and placed under such restraint as the penitentiary affords, with plenty of the severe labor that would be a severe

JUDGE MIVER

Stricken With Paralysis in Car thage a Week Ago.

om the Charlotte Observer Mr. J. S. Blake, of Messrs. Burwell & Dunn, on his return Monday morning from down the Carolina Central, brought news which will distress not a few here in regard to Judge Melver. Sunday a week ago, while on his way home from church in Carthage he was stricken with paralysis. One side and his tongue were affected but his brain remained clear. His condition when Mr. Blake left Saturday was improved. Judge Melver is one of the favorite judges who presides ever and anon in Charlotte, and his many friends here hope soon to hear of his en tire recovery.
