**U. S. TROOPS ORDERED OUT TO PREVENT RIOTS.**

**The Pullman Strike Takes On Some Resemblance to Civil War—The Senate May Make An Inquiry—Stirring Times At Chicago**

DENVER, Col., July 2.—All the Western Union wires at Trinidad were cut last night by strikers. Reports by postal wires say that matters are extremely exciting. 200 striking coal miners adding to the tumult. A great amount of property has been damaged. Federal troops will arrive in Trinidad about 1 o'clock. Five companies seventh regiment infantry left Fort Logan at 3 o'clock this morning for Trinidad in command of Col. Ward and Lieutenant Halley. General Cook who was passing the day with Governor and General Hastings of Pennsylvania in Manitow returned at midnight for a conference with Marshal Israel. No fighting will occur, but the presence of troops is deemed necessary to prevent rioting.

The sentiment of the railway employees at Trinidad has always been to disregard court orders, and in disarming United States marshals yesterday they failed to observe the difference between sheriffs' deputies and those acting under orders of the United States court.

**The Senate Takes a Hand.**

WASHINGTON, July 2.—Mr. Call today introduced a resolution for the appointment of five senators to inquire and report the cause of the existing strike of railroad and Pullman car employees and the justice of the demands of the workmen and report such legislation as may secure justice to the workmen and be reasonable and fair to their employers and secure transportation of mails, freight and passengers without interruption.

Kyle offered a joint resolution providing that no warrant or other process shall be issued by any United States Commissioner or out of any circuit or district court of the United States against any person or persons for alleged obstruction of any railroad train or trains, unless it shall appear that such persons have obstructed or hindered in such manner as to interfere with the safe and convenient movement of the part of such train that is essential to the safe and convenient transportation of the mails. Also providing that the contents of any Pullman or other parlor or sleeping coaches from railroad trains shall not constitute any use against the laws of the United States. Both resolutions were laid on the table for the present, to be called up tomorrow.

**R. D. W. With the Bark On**

WASHINGTON, July 2.—Senator Davis of Minnesota, this morning received the following telegram from Duluth, Minn., July 1st, 1894: "Hon. C. K. Davis, U. S. Senate, Washington, D. C.: We, railway employees of Duluth, earnestly request you to support Senator Kyle's mail train resolution now before Congress. Please answer, D. D. McNair, President 2200 A. K. U."

To this Mr. Davis replied in the following telegram which needs no explanation: To D. D. McNair: "I have received your telegram. I will not support Senator Kyle's resolution. It is against your own real welfare. It is also a blow at the security, peace and rights of millions of people who never harmed you or your associates. My duty to the Constitution and the laws forbids me to sustain a resolution to legalize lawlessness. Some duty rests upon yourself and your associates. The power to regulate commerce among the several states is invested by the Constitution in Congress. Your associates have usurped that power by force at Hammond and their places and have destroyed commerce between States in these particular instances. You are rapidly approaching the overt act of levying war against the United States and you will find the definition of that act in the constitution. I distrust that wise thoughts will regain control. You might as well ask me to vote to dissolve this government."

**The Wabash Too.**

ST. LOUIS, Mo., July 2.—President Debs has issued an order for a strike on the Wabash system, which will completely tie up that road.

**Armed Men To Take Part.**

CHICAGO, July 2.—At five o'clock this morning 125 deputy marshals, under command of United States Marshal Arnold, left for Blue Island with the determination of aiding the Rock Island to raise the embargo on four trains held at that point with the mail. All the men are armed. It is given out at the government building that the marshal went in person by express orders of Attorney General Olney, wired here at 3 o'clock this morning, and that he is instructed to immediately report to the department should he find that his men are outnumbered or that the strikers are particularly ugly. This is taken as meaning that if the marshal returns an unfavorable report the department will ask the President to issue a proclamation and order troops from Fort Sheridan to the scene.

**Warm Times At Chicago**

CHICAGO, July 2.—Four hundred United States deputy marshals have been distributed among the various depots since 7 a. m. New men are being sworn in at the rate of ten a minute.

**Had and Getting Worse.**

CHICAGO, July 2.—Two hundred and fifty marshals and 75 deputy sheriffs sent to Blue Island to raise the embargo on the Chicago, Rock Island and Pacific railroad traffic, were overpowered and whipped by a mob of over 2000 strikers and sympathizers and are still in the hands of the lawless element. The second regiment of this city has been ordered to the scene and will leave on a special train.

**No Troops Ordered.**

WASHINGTON, July 2.—No action has been taken here today respecting the ordering out of troops on account of the strike and no applications for troops has been received thus far today. Attorney General Olney is expecting dispatches and the war department will have to await a request from him before it can act.

**WEAVERVILLE FACTS.**  
**College—Personal—Judgeship—Law—Wheat Good—Generous.**

WEAVERVILLE, June 29.—Our town is just a little bit dull at present, caused in a great degree by the 200 students of the college at this place going home. The closing exercises of the college was a success and the many compliments, heard on every side, of the teachers and pupils were very gratifying.

The rattle of the saw and the hammer keep us awake these very warm days. Several houses are being built. Weaver-ville, in spite of the hard times, continues to grow.

The boys belonging to the band are practicing again.

Mr. Geo. Kirby of Spartanburg paid his friends here a flying visit last week. The friends and relatives of your noted townsman ex-Judge H. B. Carter were glad to see him a few days ago. We are much gratified to know he is spoken of in connection with the judgeship of this district. He will, we are sure, have the hearty endorsement of all of this end of the country.

Mr. Zeb Weaver left today for Chapel Hill where he will attend for the next three months the summer school of law. The long drought of 322 days was broken Monday by a delightful rain. The growing crops look much better since. The freeze and the drought together have prevented the farmers from setting the usual amount of tobacco, so in this section there will be about half a crop. Some wheat is being cut and is reported to be good.

Mr. T. M. Dula, owner of Dula's mineral Springs has invited all those who are unwell to come and try his mineral water free of charge. This water is said to be excellent for indigestion and liver diseases.

**ADOPTED IN A LUMP.**

**The Senate Hurling Along The Tariff Bill**

WASHINGTON, July 2.—At 10:30 the tariff bill was taken up in the Senate and it was agreed that amendments to which there was no special objection be voted on in bulk. Sherman asked that the entire wool and woolen schedule be reserved. McLaughlin demanded a separate vote on the amendment excluding the salaries of President and United States judges from income tax. Separate votes were demanded by Hale on the lumber schedule, K. on the sugar schedule, Callinger as to hay, Chandler to the date when the law is to go into effect, also as to borax, lead, iron ore, barbed wire, lead ore, rice, brandy and spirits, silk and silk goods, the income tax and reciprocity.

The residue of the unreserved amendments adopted in committee of whole were concurred in in bulk.

Hill's amendment making the repeal of the sugar bounty to take effect "on the passage of the act" instead of on the first of January, 1895, has been agreed to, yeas 49, nays 32.

**A TIME FOR HUSTLING.**

**Several Thousand Dollars Dumped in a Trash Heap**

Saturday morning Collector Carter assorted a number of private papers, notes, mortgages, etc., in his office in the First National bank and placed them in a basket intending to have them taken to his office in the government building. Soon thereafter the janitor of the bank building carried the basket down stairs and dumped the contents into a garbage wagon and they were carted away to the Clayton barn beyond the French Broad.

The Collector discovered his loss soon after and there ensued some lively hustling for the recovery of the valuable documents. Some of them were found Saturday and yesterday the Collector went out with help fished among the trash heaps until he had recovered, as he thinks, about all the papers that were of much consequence. The lost Capt. Carter would have sustained had the papers not been found can be understood when it is stated that the basket contained several thousand dollars worth of private papers. The Collector draws this moral: "Don't put valuables in a waste basket."

**THE HOTTEST DAY.**

**Ninety-Nine In The Shade In New Orleans Sunday.**

NEW ORLEANS, July 2.—Yesterday was the hottest day New Orleans has ever seen, the mercury registering 99 in the shade and 115 in the sun. From adjacent towns come reports that the mercury registered 104 in the shade. Fifty persons are dead and a number are prostrated from the heat. A baseball game had to be stopped on account of the excessive heat and some players had to be taken to the hospital in ambulances. The suffering has been intense for several days, and deaths are more frequent than ever before.

**President Closed Was There.**

WASHINGTON, July 2.—Solemn requiem high mass for the late President Carnot of the French republic, was celebrated in St. Matthews church at noon yesterday in the presence of President Cleveland, the diplomatic corps and representatives of all branches of the Government. Invitations had been given by the French ambassador, who with his official family were there in the capacity of mourners.

**Dropped Dead in Salisbury.**

Chief Dispatcher Newell of the South ern received a dispatch this afternoon stating that Samuel H. Wiley, a prominent banker of Salisbury, dropped dead on the street there today. Mr. Wiley was known by business men in Asheville.

**ETERNAL LIFE AND DEATH**

**REV. J. L. WHITE'S SERMON SUNDAY EVENING.**

**The Second Of The Series On "The Immortality Of The Soul" Preached Before A Large Congregation.**

"Eternal Life and Eternal Death in Contrast" was the subject of the second series being preached on "The immortality of the Soul" by Rev. J. L. White, at the First Baptist church last evening. The congregation packed the church. Mr. White's text was—

"And the Lord God formed man of the dust of the ground and breathed into his nostrils the breath of life, and man became a living soul."—Gen. 2:7.

And these shall go away into everlasting oblivion: but the righteous into life eternal. Matt. 25:46.

In beginning his discourse Mr. White briefly reviewed the arguments in his last sermon, on the evidences outside the Bible of the soul's immortality. "But tonight," he continued, "I deal not with human theory, but all I say shall be taken from the Book before me, the Book by which all of us must be judged. The first reason for believing is that found in the creation of man. There are two elements in man—body and spirit. God did not first create a living soul and then surround it with a body. It is only said that He breathed into man's nostrils the breath of life and man became a living soul. In Adam the species was created, hence, as our ancestor, all who sprung from Adam have receiving souls. God gave him this crown of glory,Job breathed into the body, by which he became a living soul. There are many other evidences that in man there is an immortal soul, as shown in Job 27:13, 32:8, 33:4; Num. 16:22; Gen. 35:18, 1 Kings 17:21-22, Eccl. 12:7.

"What was the image God gave to Adam? Was it that of the drunken, blurred face we frequently see on the streets nowadays? The immortal spirit is the image of God stamped on man. There was no tint or speck of sin on him when he left God's hand. When man sinned his moral nature, his mind, his personality went wrong. The essence of man is his personality. There is something in man to save. God created every human being in the world, and now in that poor debauched man he sees something to save. He does not love his sin, but his soul. God doesn't save the dog, because the dog has nothing to save, but man's nature is in his image and has a soul to save.

"Another argument is the doctrine of the resurrection of the dead. He will quicken everyone that has gone back to dust. The spirit leaves the body and at the word of God comes back and is made alive with the body. As in Adam all died, so in Christ shall all live. We have it declared there shall be a resurrection of the dead. In Revelation it is said death and hell shall give up their dead. Before the judgment bar there will be a judging of all alike. It is simply absurd and ridiculous to say there is no immortality of the soul. The man is crazy who says to you, 'You needn't be afraid, for somehow you'll be part of my valuer dog.' As I see these blindfolded people I say pity them; they are blindfolded by the devil.

"Spiritual death is a breaking up of communion between God and man. God told Adam and Eve they should surely die, and yet they lived a long time before suffering a physical death. What is spiritual life? It is reconciliation, a regeneration on the part of man; not the adding of a new soul, but the recreation of the moral nature—a new heart. Christ comes into us, but we do not lose our personality in Christ. Spiritual life is a reconciliation with God; spiritual death is a separation from God. O dying man and woman I would throw my arms around your immortal soul and ask you, do you know whom where you are going? Pray God you may stop.

"As to the teaching of this doctrine of annihilation. It makes me think of a story told of Randolph and Macon. While they were talking together Macon went out and saw a number of jackasses in the street. Returning he remarked to Randolph that some of his constituents were out there, where-upon Randolph went out. When he came back Macon asked if he had talked with them. 'No,' he replied, 'they didn't have time, they are in such a hurry to get down to North Carolina to teach.' And I think some of them must have gotten down here.

"In all solemnity let me say what I tell you is from God's word. The same Christ who said eternal death said eternal life; you must accept neither or both. They stand together. The saddest thing about it is they are so, whether you think so or not, and when too late you will find it out. Wake up before the trumpet calls and it's too late for you to repent. In God's name realize what you are and where you are going!

Good singing by the choir was a feature of the service.

It is understood that in the foregoing sermon, as in any others of the series which Mr. White has preached or may preach, he has no intention of engaging in a controversy with any one, much less replying to any address or sermon that may be or has been delivered.

**THE "PIRATES"**

**The Opera To Be Sung at the Grand Tomorrow Evening.**

Preparations are now all made and tomorrow evening the lights of the Grand opera house will cast their radiance over the "Pirates," who, with the assistance of a strong cast and a well drilled chorus, under the direction of Mr. Morton, will sing Gilbert and Sullivan's sparkling "Pirates of Penzance" for the benefit of the Asheville Free Kindergarten association. Those who attend may be sure of an enjoyable evening, enhanced by the knowledge of their contribution to one of the worthy institutions of Asheville. During the evening Prof. W. H. Neave of Salisbury, one of the most noted musicians in the South, will render a trombone solo. Get your tickets for the "Pirates."

**CONDENSED TELEGRAMS.**

Secretary Herbert has issued an order suspending all work in the navy yards that is paid for out of appropriations for the use of the navy.

It is officially announced that Sir Chas. Russell has been appointed to succeed Lord Coleridge as Lord Chief Justice of England.

Thousands of people attended Carnot's funeral in Paris yesterday.

The House has adjourned till Thursday.
