**COLLEGES OF PHARMACY**  
GIVEN CONSIDERATION BY THE DRUGGISTS.

**This Morning's Session of the Pharmaceutical Convention—Last Night's Reception at Kenilworth—Personal Notelets.**

A question of the honesty of some colleges of pharmacy occupied the attention of the American Pharmaceutical Association for some time this morning at the meeting at the Battery Park hotel. At the Chicago meeting last year Prof. Hallberg of Chicago introduced a resolution meant to tie down the colleges and work some reforms that Hallberg thought were needed at once. His resolution provided the following requirements for graduates: (1) Age, 21 years; (2) Experience in pharmacy, four years, including time at college; (3) Two courses of at least six months each, extending over more than one year.

Prof. Hallberg's idea was that with the great multiplication of colleges of pharmacy in the United States in the last 10 years their status has become exceedingly questionable compared to what it was before 1880. He called attention to the fact that as the result of some new ideas some colleges graduate students within ten months from the time of entrance and he declared to be absurd to claim that a young man with little knowledge of pharmacy or training can learn enough to qualify him to graduate in such a short time. Prof. Hallberg said there was a necessity for putting a stop to those institutions which claim recognition for the graduates turned out in this way.

There were many delegates who agreed with Prof. Hallberg, but in response to a sentiment that was aroused this resolution was referred to a committee made up of S. A. D. Shuman, of Boston, William Simon of Baltimore and Charles M. Ford of Denver.

This committee reported at this morning's session of the convention on education at the Battery Park and showed itself firmly convinced that Hallberg's resolution was in the nature of an exercise of functions with which the association has nothing to do. It was suggested that the association could not run the colleges, and Hallberg's resolution was given an adverse report simply for this reason. The modified Chicago professor's idea to the extent of offering two substitutes for his resolution, one of which gave some suggestions to the colleges, the other providing for a committee from the association and the colleges to reach some agreement. Action was deferred till tonight.

A paper on the question "Can a minimum standard of pharmaceutical education be adopted?" was read by Prof. O. J. Adger of Chicago, and "Answers to queries" was the name of a paper by Prof. J. M. Good of St. Louis.

**Yesterday Afternoon.**  
Papers read at yesterday afternoon's scientific session were as follows: "Comparison of various methods of testing pepsin," by E. H. Bartley of Brooklyn; "Pharmaceutical Bacteriology," by Dr. Eccles of Brooklyn; "Demonstration of a new suppository mold," by Prof. Caspari of Denver; "Additional experiments in the distillation of stramonium" and "Relative value of two kinds of stramonium" by A. K. L. Dohme of Baltimore; "Official process for spirit of nitrate ether," by Chas. M. Ford of Denver; "Further notes on taraxacum dandelion," by Prof. Sayre of Lawrence, Kas.; "Powdered extracts" by Prof. Hallberg of Chicago.

The remaining papers were read by title only and referred to the publication committee.

**A MEMORABLE EVENT.**  
**The Reception at Kenilworth Last Evening.**  
Three hundred and twenty-four druggists and the wives and daughters of some of them came away from Kenilworth Inn at various hours last night and this morning firmly impressed with the idea that they had been entertained by the most hospitable people to be found anywhere in the nation. Individually and collectively they agreed without debate that Host Rhoades and his staff had done more in the one evening to make life a pleasure for them than any set of people on earth had a right to expect, and the result was that Asheville hospitality was given a boost of several more notches in the estimation of the visitors. The flattering opinion that they entertain towards the city has been growing rapidly from the very first, and last night the druggists all declared ready to put their feet down and seemed unanimously that things had come to a pass where it seemed point blank to be impossible for their entertainers to do more for them.

Mr. Rhoades certainly did the handsome thing toward his guests. His entertainment of them was elaborate to just the proper degree, and everything was arranged so that the visitors felt at home immediately on entering the inn, and the feeling increased proportionately as the hours sped along. There was little attempt at formality, for the vastness of the crowd would have successfully prevented anything of the kind, and this was one of the best features of the evening.

There was considerable impromptu dancing to Kenilworth orchestra music and the crowd went fairly wild when the players struck up a lively jig that reminded Polk Miller of the plantation dances and so enthused him as to make him call the figures in true plantation style. Miller's shouts were for all the world like those of the negroes of slavery days and he made the crowd forget all its dignity by his hearty reminder of old times.

The hotel was decked in potted plants and cut flowers, with designs appropriate for druggists and their business, and when supper was announced the first thing in the dining room that caught the eye of the druggists was a handsome mortar and pestle of cake and kisses in the center of the main table. Scattered all around were cakes covered with miniature designs in icing of things familiar to the men of drugs.

The serving of the supper was left to the visitors. After seating their ladies the men made frequent visits to the base of supplies at the entrance of the dining room where Mr. Rhoades' waiters dished the salads, ices, fruits and substantial, and turned them over to the guests.

The arrangements for taking the guests (CONTINUED ON FOURTH PAGE.)

**Towns in Danger in New Brunswick—Houses Burned.**  
St. John, N. B., Sept. 7.—Forest fires are raging for several miles outside the city. Already the damage has been great, and several villages are in danger. Yesterday a train which runs from St. Stephen and Calais was over three hours late in getting here because of the fires. It arrived at Lapreux, a station about 20 miles from here, just in time for the train hands to save a railroad bridge, which caught from the fires in the woods. The foot bridge at Lapreux was destroyed, and the people were crossing the river in teams, the water being only about three feet deep. Three dwellings and several barns were burned there yesterday afternoon and at last accounts others were in danger.

The woods on both sides of the track from St. George to Spruce Lake are on fire, and it is doubtful if trains will be able to run through the district. The loss to crops through Charlotte and St. John counties will be enormous.

The fire is rapidly working its way towards the suburbs of this city, and unless the wind changes the result will be disastrous. The fire has passed the woods on the main wagon road, just beyond the city limits, and has destroyed a house, large barns and several outbuildings. This city is enveloped in smoke.

**COLORADO POPS.**  
**The Are Against and For Many Things**  
PUEBLO, Col., Sept. 7.—The Populists' convention adjourned after completing the State ticket by the nomination of I. W. Warner Mills of Denver as Supreme judge and adopting the following platform:

"Standing for equal and exact justice to all, regardless of race, sex or religious or political affiliations, the People's party of Colorado hereby endorse the principles of the Omaha platform, endorse the State administration of Colorado and the congressional work of John Bell and Lyle Pence; demands free and unlimited coinage of silver at the ratio of 16 to 1; protests against the issuance of government bonds in time of peace; insists that the national government have exclusive control of all money issued by its authority, and demands the adoption of the initiative and the referendum and proportionate representation as a means of securing all reforms in harmony with the will of the people, whose will should be law."

**ASKED WHERE HE WAS.**  
**A Man From Buffalo Up in St. Louis Dazed.**  
ST. LOUIS, Sept. 4.—A stranger weaked into the Four Courts Police station last night and wanted to know where he was. He had in his pocket a number of letters which showed that he had been at Buffalo, N. Y., within a week. One side of his head was bruised as by a blow from a sandbag, and he was completely dazed. Gradually he recovered consciousness and said he was an engineer, and had been running a threshing machine for a farmer named Deibel, near Buffalo.

It was finally learned that he went to Buffalo on Thursday he went to Buffalo with considerable money. Further than that he could not remember, except that he thought his name was Charles Weiss. On his person several silver watches and an emerald set bearing the printed card of C. Callahan, a ticket broker at Buffalo. Weiss was sent to the city hospital—N. Y. St.

**THAT CHOLERA CASE.**  
**Some Improbabilities about I. The Surgeon General Thinks.**  
WASHINGTON, Sept. 7.—Dr. E. T. Duke, secretary of the Board of Health of Cumberland, Md., has telegraphed the marine hospital service in regard to the supposed case of Asiatic cholera discovered on a train arriving there, in the person of John Peter Walther, an immigrant from Bavaria, who sailed from Bremen recently.

There have been no cases of cholera reported from Havana to the Marine hospital service, and the surgeon general is inclined to regard the case as one of the many isolated cases resembling cholera which occur from time to time. Had it been true Asiatic cholera it is extremely improbable that the victim could have been afforded temporary relief so as to enable him to pass quarantine, as the report states.

**POPS GET SOMETHING.**  
**Use The Arkansas Republican Get What They Deserve.**  
LITTLE ROCK, Ark., Sept. 7.—Trustworthy but incomplete returns from the State election indicate that Clarke's estimated majority will reach 30,000. The Democrats have elected their State and county tickets in all except Nevada, Pike, Greene, Calhoun and Stone counties, in which the Populists have majorities. White and Logan are yet in doubt, with indications in favor of the Populists. The Republicans did not carry a county. The Legislature, no doubt, will elect James H. Berry to succeed himself to the United States Senate.

**Iron Weighs More Than Cotton.**  
BIRMINGHAM, Ala., Sept. 5.—Some 20 or more representatives and managing officials of the various railroads entering Birmingham met the Commercial club of this city in conference this afternoon. Many matters relating to the future growth of this city were discussed. It was shown that the tonnage furnished the railroads at Birmingham was largely in excess of the entire cotton crop of the South.

**China Purchases a Fleet.**  
LONDON, Sept. 7.—A Yokohama dispatch says Marshall Yamagata started for Corea Thursday to assume command of the Japanese army in that country. It is said that the Japanese forces in Corea will soon number 100,000. It is reported that the Chinese government has arranged to purchase half the vessels in the Chilean navy.

**YESTERDAY'S BASEBALL GAMES.**  
National League—Cleveland 13, Brooklyn 2; New York 9, Pittsburgh 5; Louisville 15, Boston 10; Baltimore 14, Chicago 4; Philadelphia 14, Cincinnati 7; second game: Philadelphia 16, Cincinnati 2; Washington 12, St. Louis 3.

**MARCH OF THE CHOLERA**  
**IT IS WIDESPREAD IN EUROPE.**

**The Marine Hospital Authorities at Washington Fear We May Not be Able to Keep the Plague Out of This Country.**

WASHINGTON, Sept. 7.—Officials of the marine hospital service display undisguised anxiety as to the continued spread of cholera in Europe and fear that the United States will not be able to escape the plague unless most careful precautionary measures are taken at every point.

The latest reports in regard to the Bavarian, Walther, who died at Cumberland, Md., are regarded as not conclusive or satisfactory by any means.

The 10 days' report of Surgeon Fairfax Irvine of the Marine hospital service, dated from Glasgow, Scotland, August 22, states that the period covered by the report has been characterized by a marked spread of the disease, especially in Austria-Hungary, Germany and Holland, which is greater than could have been expected and in excess of that which obtained last year.

It is extremely difficult to obtain reliable information from France or Belgium. For example, Marseilles has for some time past been under suspicion although the existence of cholera there is strenuously denied by the authorities. Late last week a fatal attack occurred at Bordeaux on a person who had come from Marseilles within the previous 48 hours. Marseilles must be regarded as a place where true cholera is existing, especially as most of the ports of the Mediterranean have now quarantine agents.

**JUST LIKE PEARSON.**  
**Accusing the Democratic Party of Making the Hard Times.**  
HELENA, Mont., Sept. 7.—The Republican State convention was held in this city yesterday afternoon. C. H. Loud of Custer was chairman; Charles Hartman, at present in Congress, was re-nominated by acclamation. W. H. Hunt of Helena was nominated for associate justice of the Supreme court.

The platform holds the Democratic party responsible for the hard times; denounces the tariff; condemns the repeal of the Sherman and federal election laws; demands the free coinage of silver at a ratio of 16 to 1, and pledges the candidates to support the cause of free silver.

**A BARKEEPER'S REMORSE.**  
**Mr. Brooks of Texas Burns His License and Liquors.**  
MARKET, Texas, Sept. 7.—A great revival under the auspices of the Methodist church has been going on here. Among the converts was J. W. Brooks, a saloon keeper. To prove that he was sincere in his professions Brooks took his entire stock of liquor out and set fire to the boxes and barrels. He also consigned all his licenses to the flames. A crowd of 500 witnessed the performance, which was conducted with impressive religious exercises and singing. The stock of goods was valued at \$1,000.

**MURDERED A NEGRO.**  
**Troops to Protect a White Man From Lynchers.**  
COLUMBIA, S. C., Sept. 4.—At Port Lawn, Chester county, a white man named Reeves has been arrested on the charge of outraging and then murdering a negro. He placed himself under the protection of the sheriff of Chester, who today telegraphed the governor that his prisoner was in peril of being lynched. Attorney-general Buchanan telegraphed Capt. Barber of the Chester light infantry to order out his company to assist the sheriff in maintaining the law.

**They Plead Guilty.**  
WASHINGTON, Sept. 7.—Information has been received at the state department to the effect that the two Americans banished from Nicaragua for complicity in the Mosquito rebellion are now in Costa Rica. It is said that these men are well satisfied to accept terms of banishment without demanding a trial or asking the protection of the United States minister to remain in Nicaragua.

**O, She is sane.**  
BUFFALO, Sept. 4.—William Wiltberger was in his garden whistling "Sweet Marie" when his neighbor, Mrs. Koes, a woman of ungovernable temper, shot at him with a revolver, and chased him into the house. She will be examined as to her insanity.

**Going To Work Perhaps.**  
NEW BEDFORD, Sept. 7.—There is a mysterious activity among the mill men and it has set on foot the rumor that the mills will resume work Monday morning. Inquiry at the offices, however, elicits no light on the subject.

**Tried to Kill a President.**  
PARIS, Sept. 7.—The Haytian minister has received the following telegram from Port Au Prince: "There has been an attempt against the life of the President. The authors have been shot. Perfect quiet prevails."

**The Fastest Pacer.**  
INDIANAPOLIS, Ind., Sept. 7.—On yesterday Robert J. made the second heat in his match race with Joe Patchen in 2:21, being the fastest mile ever paced.

**A Winner.**  
CONCORD, N. H., Sept. 7.—Col. Henry O. Kent was nominated for Governor by the Democrats in convention yesterday.

**CONDENSED TELEGRAMS.**  
The first contribution to a fund for the relief of the sufferers by the fires in the Northwest received in New York came by cable from Henry Irving—\$500.

The Populists failed to carry a single county in Arkansas. The Democratic majority is 30,000.

The Peary relief expedition has been reported as "well" at Godhavn.

The Republican majority in Vermont is estimated at about 20,000.

Peru and Ecuador are "spilling for a fight."
