Today was Democratic county convenion day and the candidate hied himself uptown bright and early to lock the ground over and stick a pin here and there as needed. The day was "shot to the core with sunshine," a glorious forerunner of that day in November when the Democratic sun will with its powerful rays burn away the lowering clouds of Republicanism and "co-operation." At 12 o'clock, at which time the court

pom was crowded. Chairman I. D. Murphy rapped for order. He said that with this convention his connection with he Democratic organization as chairman of the committee would cease. He reurned his thanks for the honors that and been placed in his hands for the past wo years. Mr. Murphy called Maj. D. A. Blackwell to act as temporary chairnan of the convention.

E. D. Carter offered a resolution, the reading of which was cheered, recogniz-ing the abilities, character, courage and patriotism of Hon. James H. Merrimon, who is prominently mentioned for United States Senator.

The resolution was unanimously

Charles N. Vance offered a resolution providing for a primary in Buncombe whereby Democrats could give expression of their preference for two United States Senators, the primary to be held on the day of election. This provoked a lively discussion, J. M. Gudger, E. D. Carter and others opposing it and Mr. Vance favoring it.
The townships were recalled and Mr

Vance's resolution was defeated by rote of 95½ to 47½. A motion by John M. Campbell was carried, to go into nominations and that speeches be limited to one minute. For Representative.

Nominations then began for the House f Representatives, and J. M. Gudger nominated Col. J. G. Martin, but Col. Martin requested the withdrawal of his name and it was done.

roo Many Physicians Are In The Prescription Business, And The Manufacturers Must Stop It The Colleges Considered.

Great faith in the boycott as a means of defence is entertained by the members of the American Pharmaceutical associa tion and another move in the direction of working reforms by this means was taken at this morning's meeting of the druggists. The first boycott agreed on by the session was on the manufacturers and agents who sell patent medicines to druggists who cut prices. This morning's blow was at the manufacturers who supply physicians direct with manufactured medicinal products

It is claimed by the druggists that year by year the doctors are getting more and more into the habit of filling their own prescriptions and dispensing drug from their own offices. This is claimed to be a great injury to the business of egistered druggists, or as it was naivel expressed in the resolution presented by Prof. Whitney of Massachusetts, "to the great injury of the science of pharmacy," defense of science evidently being con sidered more praiseworthy than that of the purely commercial question of the sale of goods.

The pharmacists believe that physicians should not interfere with the pre scription business and Mr. Whitney' and withdraw patronage of members of the association from the manufacturers engaged in furnishing physicians direct with their manufactured products. This resolution went through with a rush the druggists in attendance showing that they considered this habit of the doctors as being an alarming encroach-ment on their own business.

At last night's session of the scientific section the druggists considered the rather slim recognition that is given by army and navy of the United States to the profession of pharmacy. Attention was called by Dr. Payne of Atlanta in a resolution, to the fact that the army and navy do not properly ree gnize the science as a profession, but on the other hand were inclined to shove it back to a position more menial even than that of department messengers, day labor-ers and carpenters. The pharmacists in the two branches of the ser-vice receive \$60 a month and have no official rank, Prof. Payne quotes igures showing that many departmen clerks draw twice or three times as much messengers get just the same as the pharmacists and some laborers get even more. His resolution was to authorize the president of the association to appoint a committee to try to make a re form. This committee is to be com nosed of a member from each state, and its duty was to be to interest the phar-macists of their respective states so that they would use their influence with their ongressmen and Senators for the pas sage of a law placing the pharmacists of the same rank with assistant surgeon

This went through with a vigor that showed the pharmacists to resent the existing snub of the army and navy.

The work of this morning's session was taken up largely by routine work consisting of the reading and adoption of various committee reports. The re-port of the secretary of the council showed that 178 applications for memand Mackey lacked four one hundredths. But here it was found that Limestone had been passed over on the regular call, not being over on the regular call, not being ment of their annual dues. This is an ment of their annual dues. This is an annual dues of their annual dues. and is drawn largely from North Caro

On the strength of a report and recommendation from the transportation com-mittee it was agreed that hereafter the convention shall be in session nominally for two weeks, so as to make the rail way

tickets good for a longer term.

Jos. Morrison, third vice president o the association, was made delegate to the meeting of the American Public Health association to be held at Monreal this month.

At last night's session the convention This Morning
The Asheville excursionists came back from Charleston, S. C., about 7 o'clock for Prof. Hallberg's resolution, told of in yesterday's CITIZEN, was the one that filled the bill and this was adopted. This resolution calls for a committee from the association together with one represent ative from each college, the object being to try to reach some agreement.

At the close of today's session, just be-fore noon, final adjournment was taken hurry and started home on the 2.10

'TWAS A PLEASANT TRIP. Pharmacisis Go to Hot Spring

Yesterday's trip to Hot Springs was one of the most enjoyable features of the week's gaieties for the visiting druggists and that is saying a good deal in view o the lavish way entertainment has been dealt out by the citizens' committee. The trip was made by a special train of six coaches, leaving here at 1:30 o'clock and returning at 7:30. There was 297 people aboard and on reaching the Springs they were feasted by Manager Boden of the Mountain Park hotel. Many of the pharmacists enjoyed a plunge in the hot
