WEBSTER'S LEGAL EARNINGS. A Little Leather-Covered Book That Gives His Receipts.

One of our correspondents has been so lucky as to fall, in with a little leather-covered book, like those of bank depositors, which contains Daniel Webster's autograph record of his legal receipts. This chronicle, says the New York Evening Post, fills twenty-eight pages and extends a little more than from 1833 to 1836, inclusive. The first entry, dated September in the former year, is of \$50, and the second is of \$20, for retainers on the New Hampshire circuit. The first fee of \$1,000 was paid in May, 1834, by a Mrs. Badger. Services regarding Cilley's will commanded \$800. The total amount for the first year was footed up as \$13,140, with the remark: "September 22, 1834, thus done and concluded. A similar summing up appears at the close of each other year. The second total is \$15, 83.74; the third is \$21,793. The first entry of \$2,000 was in 1835, March 7; the first of \$3,000 December 7 in the same year. The last payment was in respect to Fiorida land. The largest single honorarium was \$7,500. In February of the fourth year \$5,000 is set down as bestowed in a case of Trin-ity church (New York). In turning over this record leading metropolitan and even provincial lawyers are astonished that Webster, already twenty years in Boston, so undervalued his services. He learned better at last. When Robert C. Winthrop looked up the earliest was ending my studies in Webster's office," and the chirograph led him to add that Webster never wrote a firm hand. Nobody has surveyed the relie with more interest than Dr. O. W. Holmes. Among other things he said: "Had the influx been ten-fold, Webster's purse would have remained empty still. Had its capacity received like the sea, whatever entered there would have run off like water from the

eldent that occurred during our visit at the Rosebud agency in South Dakota," said Representative W. S. Holman the other day, recalling a tour of investigation which, as chairman of a house committee, he once made among the Indians. "One day an old squaw came trudging into the agency with a basket on her arm. The Indian agent informed me that she had walked a distance of ninety miles to see her stranded on a reef fifteen miles west of the Straits of Le Maire, with all masts pupil in the Indian school, and that she made that pilgrimage regularly once a month and never remained over an hour. Unobserved I watched the meeting between mother and daughter. There was none of the ordinary exhibitions of parental or childish affection. When the child came out to meet the mother, the latter carefully scrutinized her and then led her away about fifty yards, where the two sat down in the tall grass.

"Hardly a word was spoken. The mother emptied the contents of her basket, which were a lot of provisions and trinkets, into the child's lap, and the latter accepted them without any marked evidences of gratitude, as faas I could observe. After they had spent a half-hour together in this way the aged mother slowly rose, replaced
