## DETAIL OF VOTING PRECINCTS

### STUDY OUT WHERE YOUR BALLOT BOX WILL BE.

Asheville's Wards Are Divided Into Nine Precincts With Streets, River and Corporation Lines for the Boundaries—Changes in the Country.

The redistricting of several of the voting precincts of Buncombe, as carried out yesterday by Superior Court Clerk Cathey, under authority of an act of the last legislature, shows extensive changes in Asheville. The work was done in the presence of a very small number of citizens of city and county. Under the law there had to be a division of precincts in which there were more than 350 voters, and a perusal of the report of the work here given will show that in the future there are to be nine voting places in the city, instead of four as at present. The old four wards, each converted into two precincts, with the exception of the Fourth, which was cut up into three. The boundaries of each precinct where in changes were made, are given in the polling place directory each, follow:

**Precinct No. 1**—Beginning in the center of South Main street where it crosses the southern boundary line of the city limits, and running thence north with the center of South Main to the center of College street, then east with the center of College to the center of Davidson to the center of Eagle, then east with the center of Eagle to the center of Valley street, thence southwest with the center of Valley street to the center of South Beantown, then east with the center of South Beantown its various courses to the place of beginning.

**Precinct No. 2**—Beginning in the center of College street opposite the center of Davidson street and running thence with the center of Davidson street south to the center of College and thence east with the center of College to the center of Eagle to the center of Valley, then southwest with the center of Valley to the center of South Beantown, then east with the center of South Beantown its various courses to the place of beginning.

**Precinct No. 3**—Beginning in the center of North Main street opposite the center of Merrimon avenue and running thence north with the center of North Main to the center of Merrimon avenue, then northeast with the center of Merrimon avenue to the center of Chestnut, then east with the center of Chestnut to the center of Charlotte, then north with the center of Charlotte to the corporation line, then east with the corporation line to the northeast corner of the corporation line, then south with the corporation line to the southeast corner of the corporation line, then west with the center of College street, then west, north and west with the center of College street its various courses to the place of beginning.

**Precinct No. 4**—Beginning in the center of North Main street opposite the center of Merrimon avenue and running thence north with the center of North Main to the center of Merrimon avenue, then northeast with the center of Merrimon avenue to the center of Chestnut, then east with the center of Chestnut to the center of Charlotte, then north with the center of Charlotte to the corporation line, then east with the corporation line to the northeast corner of the corporation line, then south with the corporation line to the southeast corner of the corporation line, then west with the center of College street, then west, north and west with the center of College street its various courses to the place of beginning.

**Precinct No. 5**—Beginning in the center of Main street opposite the center of Merrimon avenue and running thence north with the center of Main to the center of Merrimon avenue, then northeast with the center of Merrimon avenue to the center of Chestnut, then east with the center of Chestnut to the center of Charlotte, then north with the center of Charlotte to the corporation line, then east with the corporation line to the northeast corner of the corporation line, then south with the corporation line to the southeast corner of the corporation line, then west with the center of College street, then west, north and west with the center of College street its various courses to the place of beginning.

**Precinct No. 6**—Beginning in the center of French Broad avenue opposite the center of French Broad and running thence north with the center of French Broad to the center of Haywood street, then west with the center of Haywood street to the center of Montford avenue, then north with the center of Montford avenue to the corporation line, then east with that line to the center of North Main where the corporation line crosses that street, then south with the center of North Main to the place of beginning.

**Precinct No. 7**—Beginning in the center of Main street opposite the center of Patton avenue and running thence north with the center of Main to the center of Patton avenue, then east with the center of Patton avenue to the place of beginning.

**Precinct No. 8**—Beginning in the center of Patton avenue opposite the center of Patton street and running thence south with the center of Patton street, crossing

with the center of Victoria avenue to the corporation line, then west with that line to the center of Graham, crossing Town branch and Southside avenue to the center of French Broad avenue, then north with the center of French Broad avenue to the center of Patton avenue, then east with the center of Patton avenue to the place of beginning.

This precinct contains about 190 voters. The voting place to be on Patton avenue between Bailey street and French Broad avenue, at a place to be prepared by the Board of County Commissioners.

**Precinct No. 9**—Beginning in the center of Patton avenue opposite the center of French Broad avenue and running thence south with the center of French Broad avenue crossing Southside avenue and Town branch to the center of Graham street, then south with the center of Graham to the corporation line, then west with that line to the French Broad river and the southwest corner of the corporation, then north down the river and with the corporation line to the center of Haywood, where the corporation line crosses the center of Spring, then east with the center of Spring to the center of Haywood, opposite Simmons' house and store, then northeast with the center of Haywood street to the center of Patton avenue, thence east with the center of Patton avenue to the place of beginning.

There are about 170 voters in No. 9. They vote at Peare's store.

**Gash's Creek Precinct**—Beginning on the Swannanoa township line where that line crosses the Swannanoa river, near the Asheville water works or old Patton mill place, then running down and with the meanders of the river to a point where the lower end of John Chesbro's place joins with the line of the Joseph Reed farm, then south so as to touch the road leading by the residence of Thos. J. Brooks, then northeast to a house, then with that road to the point where it intersects the Hendersonville dirt road opposite the residence of Robert P. Walker, then with the Hendersonville dirt road to the Asheville township line, then with the Asheville township line east and north to the place of beginning. The voting place is at the store of Thos. J. Brooks.

**Pritchard and Mott—Populists Say—E. C. Smith's Motive.** RALEIGH, N. C., Feb. 27.—Thomas R. Jerigan, so well remembered as a newspaper man in this State, but more especially for his excellent services as consul-general at Shanghai, China, has been paid the marked compliment of an election as one of the three judges of the court of appeals.

Senator Pritchard tells Dr. Mott that he fears that if fusion on the double-headed electoral ticket is not kept up the county officers will not be re-elected. Populists here are now saying that they will get some of the Democrats in the wreck. They suspect their hearts on the collapse or smash of the Democratic party.

One of the most prominent men in the Piedmont section and a Democrat of influence said today: "I believe the motive of Ed. Chambers Smith and other Democrats in going to Washington last week was an honest one—to restore white government in the State."

There is a desperate struggle in progress between the Holton and Duckers and the Pritchard and Russell factions of the Republican party and its State committee. Two years ago H. L. Grant, a member of that committee, succeeded Chairman Hayes. The plan now is to crush Holton in the same way. James H. Young, colored, of Raleigh, a devoted Russell man, has always claimed that Holton was not in line with the committee and that he would be crushed because he did not favor complete fusion. The Russell people want another man as chairman, and will do their best to elbow Holton out of the chair.

Ed. Chambers Smith says today that the country people are full of the idea of all the free silver people getting together.

## UNITED STATES MUST INTERVENE

### RIGHTS OF CUBAN INSURGENTS DISCUSSED.

Probable That the Belligerency of the Patriots Will be Recognized by Congress—A Recommendation to the President Looking to Cuba's Independence.

WASHINGTON, Feb. 28.—In the House yesterday Hitt on the committee on foreign affairs, reported a series of concurrent resolutions as a substitute for several propositions referred to the committee on the subject of the Cuban revolution. They recite that, in the opinion of Congress, a state of public war exists in Cuba, the parties to which are entitled to recognition as belligerents and between which the United States should maintain an attitude of neutrality; that Congress deprecates the destruction of property in Cuba consequent upon the continuance of the war; that Cuba should have a government of the choice of its people; that it is the sense of Congress that the government of the United States should use its good offices and friendly influence to bring this about; because of the close proximity of Cuba, the war entails such loss upon American interests as to demand protection of them; that this government should intervene if necessary; and pledge its support of Congress in any consideration in carrying out these resolutions. The reading of the resolution was liberally punctuated with applause.

An effort was made by Meredith (Virginia) to secure unanimous consideration and the passage of the resolutions, but McCall (Massachusetts) objected and Hitt stated that he was instructed to ask their consideration at the earliest possible moment.

The meeting of the Senate committee on foreign relations this morning resulted in a more vigorous character than the most ardent friend of the cause of Cuba was justified in expecting. It was agreed that, when the question reached the voting stage, Sherman for the committee, was to recommend and urge the passage of the following: "Resolved, by the Senate (the House of Representatives concurring), that, in the opinion of Congress, a condition of public war exists between the government of Spain and the government proclaimed and for some time maintained by force of arms by the people of Cuba; and that the United States of America should maintain a strict neutrality between the contending powers, according to each and all the rights of belligerents in the ports and territory of the United States."

Cameron then moved an amendment by adding the text of his resolution as follows: "Be it further resolved, that the President is hereby requested to interpose his friendly offices with the Spanish government for recognition of the independence of Cuba."

This amendment will be accepted by Sherman, speaking to the resolutions, said his convictions were made stronger every day that the condition of affairs in Cuba was such that the intervention of the United States must be given, sooner or later, to put an end to crimes almost beyond description.

**ALMOST A BAD FIRE.** Little Hilliard Campbell was Imitating His Father Lighting a Cigar. The residence of John M. Campbell was the scene of what came near being a disastrous fire Wednesday. While Mrs. Campbell was at the piano in the parlor, Hilliard Campbell, four years old, and his sister, Emily, were at play in another room. It is supposed that the little fellow was giving an imitation of his father lighting a cigar, for he rolled up a piece of paper and put a match, set fire to the paper. It burned his fingers and he threw it on the floor. The blaze was commuted to the carpet, then to the curtains and the shades, and was rapidly getting into the woodwork of the window when Mrs. Campbell, called by the cries of the children, ran to the room and by several minutes of hard work extinguished the flames.

**12 ARMENIANS KILLED.** A Report That a Russian Consulate Has Been Pillaged. CONSTANTINOPLE, Feb. 28.—United States Minister Terrell has received information from Marsovan showing that there has been no massacre there as reported. An outbreak has occurred at Adana in which 12 Armenians were killed and 40 wounded. It is reported that the Russian consulate at Adana was pillaged, but this report is not confirmed. The French consul who went from Merzin to inquire into the affair reports that order has been restored.

**FROM THE TELEGRAPH.** Two days ago the Halifax, N. S., Chronicle published a statement that Sir Charles Tupper, when high commissioner to England, had misappropriated \$40,000 of public money. Sir Charles has taken proceedings for criminal libel against the publishers of this journal. The Senate bill appropriating \$100,000 for a public building at Newport News, Va., has been passed. Lord Dunsen was last night expelled from the New York Yacht club as an honorary member by a vote of 39 to 1. The treasury gold reserve today is \$123,984,515, a decline since yesterday of \$646,000.

## NATURE'S REMEDY,

### Harris Lithia Water,

A water that is superior to any other water in the United States, which is shown by the following analysis: Its specific gravity is 1.0014 at 60° F.

Analysis made by R. Ogden Doremus, M. D., LL. D., Professor of Chemistry and Physics, College City of New York, October 7, 1891.

THIS WATER HAS NO EQUAL IN THE UNITED STATES. For curing Dyspepsia, Constipation, Liver Complaint, Nausea, Dropsy, Gout, Rheumatism, Diseases of the Kidney and Bladder, Hematuria and Catarrhal Derangements, Diseases of the Blood.

Read what the noted Dr. Thomas S. Powell has to say for Harris Lithia water: "Dear Sir:—I have found the use of the water from the Lithia Spring in South Carolina so efficacious in the case of a young lady patient of mine, who has suffered for years with diabetes, with all its different attendants, that I want to add my testimonial to the many you already have. The patient I refer to has used the water freely at home for several months now, with more benefit than results than from months spent at different noted lithia springs in different parts of the United States, besides long continued use of the same waters at home. Other of my patients and friends are now using the same with best results. I cordially recommend it to all suffering from similar diseases. Very respectfully yours, THOMAS S. POWELL, M. D., President Southern Medical College, Atlanta, Ga. Price, \$4.50 per case; rebate, \$1.50, when empty bottles and case are returned. Asheville agents,
