SEEDS!
For lawns, pasture and hay. You sow seeds expecting good results. Your expectations will not be realized unless good seeds are sown.
We have just received a car load of carefully selected red, sapling, alsike, and white clover, timothy, red top, orchard grass and fancy blue grass. All to be sold at lowest market price.

Stylish Wool Dress Goods.
In blacks and colors—the new weaves for '38—the kind that critical buyers are demanding—a large variety commencing about 19c, and ranging upward to about \$2 per yard. Many of these are well below today's prices, our contracts having been made early.
Silks, Satins, Liberty Silks, Chiffons, Drapery Nets, Gauzes, Mousselines de Soie, Shirred Silks, etc.
Choice styles in Ribbons, Embroideries and Laces. In Percales, Dress Ginghams, Chevrons, Denims, Outing Cloths, Batistes, Bicycle Suitings, etc. we are doing quite a business. Many of the crack styles are not to be found elsewhere.

Butterick Patterns.
We omit mentioning Fine Clothing only because most buyers take for granted that our usual superb stock awaits their convenience in calling.

TO WORK FOR GOOD ROADS
PRESIDENT MORRISON APPOINTS THE COMMITTEE.
It will Report to the Directors of the Board of Trade Plans for Permanent Road Improvement.
At a meeting of the directors of the Asheville Board of Trade 10 days ago, President T. S. Morrison was authorized to appoint a committee whose duty it should be to devise and report a plan whereby the permanent improvement of the roads of Buncombe county may be secured. This question is considered as the most vital important to the people of the whole county that has yet been given consideration by the Board of Trade, and realizing this fact President Morrison delayed the appointment of the committee in order that he might personally canvass the question among the members and secure the consent of the committeemen before their appointment was announced.
Today the president announced that he had appointed T. W. Patton, J. E. Rankin and Theo. F. Davidson as the committee, Capt. Patton being chairman, each having given their ready consent to serve.
President Morrison is an enthusiast on the good roads subject, and in a conversation with The Citizen today declared that nothing in Asheville or the county tributing to the need needed than a system of good roads for the development of the section.
"I do not anticipate a report from the committee," he said, "until the members have had ample time to thoroughly weigh the matter and digest their ideas. It may be a week or may be several weeks, but I feel sure that when the report is made the Board of Trade will have a practical plan upon which to work."
It is hoped that in the end Buncombe may secure a road system that will make the improvements upon the county's thoroughfares permanent. Under the system that has obtained for some years the road work can be no more than temporary, and, as the Citizen has frequently pointed out, the disposition is too often to regard a road as completed for all time once the convict force has gone over the route. The result is that the road becomes worn and at a season when the farmer most needs it, the road is in bad condition and he finds it sometimes almost impossible to get to market. With a good road kept up carefully year by year by a repairing force, the farmer could get to market in half the time required now, his loads could be increased, danger of damage to his wagons and injury to his horses would be greatly lessened, and the result would be a great benefit to everybody concerned.
The committeemen named by President Morrison are men of judgment and experience, and the people may reasonably expect a report that will tend to start Buncombe on her good road way rejoicing.

In the sewing the machine has a very strong tension, thereby drawing the thread as tightly as if sewed by hand, and from a pot of molten wax, from which the thread is drawn, it seals the holes made by the needle in drawing water or sweat from horses from penetrating the leather and rotting the thread. Mr. Alexander has some interesting things to say in his ad. in today's Citizen.
