# **CLOSING SESSSION** OF THE ASSEMBLY

Prof. W. H. Ragsdale Elected to the Presidency.

Prof. P. P. Claxton on the Training of Teachers.

ADDRESS BY PRESIDENT AL-DERMAN OF THE UNIVER-SITY OF N. C.

The opening exercises of the Teachers' assembly this morning were conducted by Rev. E. L. Bain, pastor of North Asheville Methodist church. President Graham then appointed the committee on "a course of English and Literature for the schools" to report at said, were directed against "the origithe next session of the assembly. The committee is as follows:

Prof. Edwin Mims, Trinity college; rof. J. Y. Joyner, State Normal colege; Prof. Thomas Hume, University of North Carolina; Prof. W. T. Whitsett, Whitsett institute; Prof. J. D. Eggleston, jr., Asheville city schools; Prof. B. T. Stedd, Wake Forest college; Prof. T. H. Harrison, Davidson college, and Principal J. A. Bivins, Charlotte graded schools.

Prof. P. P. Claxton then spoke upon the training of teachers in the normal schools. In the past, said Prof. Claxton, anyone could be a good teacher. The only recommendation was to be able to read and write a little and to have lost an arm or limb in the service of one's country. A little later a certain amount of knowedge was required. It was thought that anyone who had Jacksonville passed and repassed cone over a course of study was fitted o teach it, in his turn. The next step vas to demand a knowledge of the subect and some methods. This was the

ginning of the normal system. First, to be a teacher, one must be ian or woman. Now the teacher is oming to be regarded as the seed corn be planted from whom the harvest f future men and women is to be obained. Second, maturity of character is considered of great importance. Third, scholarship is demanded. One should have a broad and deep education, general scholarship, and an interliterature and science eacher should have special knowledge a thorough knowedge of the subject to taught, from the teacher's standint. This is the idea that has taken the strongest hold wherever the normal school is established.

Prof. Claxton said that when he be an to teach he could not have stood careful examination on the subjects be was about to teach. "I doubt," said e, "that Dr. Alderman could have stood in examination at the beginning of his aching." Mr. Alderman, sitting near the speaker, assured him that he could, but Prof. Claxton took the liberty to doubt it. In Germany two-thirds of the time is given in the normal training schools in teaching the teachers the elementary branches. "I hold," said Prof. Claxton, "that the teacher reunited country floated into the semi-who cannot teach any subject in her tropical sun. Veterans of both the class room without the text book, is not a teacher. As it is impossible to have a specialist to teach every sub- to witness at last such a sight. It was ject in the public schools the teachers should be specialists in all elementary

"The time the children stay in school limited; but not the quick method teaching is best, but the sure meth-The teacher should know some quick, good, sure device to impart This means a knowlof methods. Greatest eaching is not a process of imitation; one cannot watch a teacher teach and then imitate him, any more than one can watch a physician in his daily rounds and from that experience be ome a physician. A knowledge of psyhological principles should also be part of the teacher's equipment. How may the State provide trained teachers for its thousands of public schools: believe that in connection with the chools already established or a special chool a thorough course or a special lementary studies, with a practice thool in connection with it, should b established, the course to be divided into four months each. Then that the State should pass a law that six years from the establishment no teachers should be accepted who had not completed this course.

SUPERINTENDENT MEBANE. Hon, Chas. H. Mebane, State Superintendent of schools, spoke an earnest word for a union of forces between all the schools in the State, public and private, and for the removal of public chool work from party politics. As to the township system, Mr. Mebane said that, taken as a whole, it is the best hool law we have had in this State. After a brief intermission President Alderman of the University of North Carolina followed. He said: "As to the three great questions prominent before the assembly, local taxation, a bet-ter supervision of schools and an organic union of the primary and secondary schools and colleges, the Univer-

sity stands for the better and higher

education, and feels the importance of

closer union of the different

Mr. Alderman gave an interesting acount of the great Mohammedan uniersity in Cairo, with 14,000 pupils, boys and girls. In this institution Mr. Alderman said he found in the primary department a teacher lying asleep on a mattress, while his pupils were eagerly and frantically at work. Here, too, Mr. Alderman bought a slate and requested one of the pupils to write upon it in "There is but one God and Allah is his prophet." This, he was assured, could not be done for a "Christian dog." The dragoman of the party, however, inscribed the sentence upon the slate, but one of the teachers seeing the inscription, snatched the slate from Mr. Alderman's hand, and it was only restored after a violent altercation between the teachers and dragoman, and the party was requested to leave. At a future visit, however, Mr. Alderman met with a pleasant re-

ception.

Ada Kerley of Buncombe. George Jones and Essie Bellmore; In conclusion Mr. Alderman contrasted the Mohammedan college with Oxford college, which he visited soon after, as the antitheses of freedom and Bishop Hendrix at Central. slavery. He also recalled his sensations, Bishop E. R. Hendrix of Kansas Morgan's upon his arrival in New York from a foreign trip, and eulogized our country.

## GOING TO THE PHILIPPINES?

CADIZ FLEET IN THE MEDITER-RANEAN, PERHAPS.

GIBRALTAR, June 17 .- The captain of a German steamer which arrived this morning reports having sighted the Spanish Cadiz fleet off Ceuta, north east of Africa, about opposite and 17 miles south southeast of Gibraltar, last evening. The warships were going in an easterly direction.

The fleet consisted of two battleships, four large cruisers and four torpedo boat destroyers.

SPANISH OFFICIALS HAVE NOT AUTHORIZED EXCHANGE.

HAVANA, June 17.-The Spanish government, it is said at Governor-General Blanco's palace, has not authorized an exchange of the prisoners of the Merrimac.

The gunboat Yanez Pinzon exchanged communications yesterday with an American warship, under a flag of truce. The commander of the latter was informed that Blanco has no authority to exchange Hobson and his ompanions

The authorities deny that the cruiser Viscaya has been destroyed or damaged by the fire of the Vesuvius.

### FOR PORTO RICO. Thirty-Five Vessels Will Carry About 30,000 Men.

Department expects to utilize approximately 35 transports in the expedition for the invasion of Porto Rico. This statement is made officially. It seems to indicate that the Porto Rico army will equal, if not exceed, in numbers that which left for Santiago. The estimate is made that the 35 vessels will carry between 15,000 and 20,000 men with their equipments and subsistence. Army officials say that reports which have been received from reliable sources show that the number of Spanish soldiers in that country is probably 10,000 men, although their statements indicate that there is consider-

ably less than the number. It is stated positively that the embarkation point for the troops for Porto Rico has not yet been finally deter mined, and will not be until Secretary Alger and the President have had an opportunity to confer with Major General Miles, who will return to the city today. There is no doubt, however, that this embarkation will take place from some point on the Atlantic coast, with a probability in favor of Ferandina, Fla., or Savannah, Ga.

## THE NAVAL PATROL. It is Now Complete Let Spain Test

WASHINGTON, June 17 .- The Navy Department has now completed its arrangements of the Atlantic and Gulf coast patrol, and stretching from Eastport, Maine, around to New Orleans there are no less than 40 auxiliary naval craft, including swift yachts, reconstructed single turret monitors of the Civil war, tug boats, ferry boats, and not a few large and well armed merchantmen. These 40 ships are disposed at the several large coast and gulf cit-ies, while a 100 miles or more eastward an outer picket line is maintained by four of the larger and more effective

## DIED THE SAME DAY. Death at Waynesville of Pink Farmer and Wife.

warships of the San Francisco class.

WAYNESVILLE, N. C., June 17 .-On yesterday Pink Farmer and his wife died. Mrs. Farmer died at 1 o'clock a. m. and the husband at 6 p. m. Mrs. Farmer has been ill for several months, and when she died her husband went to the cemetery and picked

out the place of burial for his wife. He then refused to eat, drank heavily of alcohol, and died last night. They will be buried today together. Farmer was 48 years old and a fine mechanic. They leave four children, all small. His wife was a Davis, sister of J. M. Davis, ex-postmaster of this

## NEGRO LODGES. Recognized By the Free Masons of

SEATTLE, Wash., June 17 .- An important event in the history of Free Masonry in this State occurred at the session of the Grand lodge. It was a effect the recognition of negro lodges and their authority to confer Masonic degrees. The authority is limited to negro lodges holding charters from the Grand lodge of England. This is the first recognition of negro Masonry by any Grand lodge in the United States.
