The occasion will be celebrated and here will be an address by K. P. Battle, George T. Winston, E. A. Alderman, W. B. Phillips and Rev. J. C Froy. In 1890-91 there were 198 stulents; now there are 512, exclusive of the summer school. The present number is 51 greater than the largest at tendance before the civil war. In 34 years the gain has been 33 per cent; this being since President Alderman took charge. Eighty-two counties in the state are represented. New Hanover 14, Runcombe 15, Wake 21, Meckenburg 28. Thirteen other states are represented. In all there are 29 stu-

ents from other states. HOME STATE STUDENTS. The fact that 489 out of the 512 stuents are from this state is conclusive proof that North Carolinians attend heir own university in greater numbers than do the youths of any other ne state and that the university is loing its duty by the state which gives t support. There are 205 communiants of different denominations, 101 being Methodists. Of the students 35 per cent. are farmers' sons. No less han 156 have attended the professional schools. He thinks the Supreme court would act wisely by increasing the requirements for admission to the bar to two years' course for all students. In this way alone can the tendency be hecked to debase law schools from their high function into mere quizzing bees for obtaining license. The repeal f the dissecting law by the legislature 1899 endangers the medical school. The school of pharmacy is prosperous In its purely academic work the university has had a year of singular seriousness and success. The conduct of students is highly commended. Mr. Smith Expects to Have a Week's

Havre de Grace, Md., Feb. 4 .- On the farm of John Donneil Smith, on Spesutia Island, there is a herd of 100 or more wild boars. They are wild and viwill, Spesutia Island is about six miles south of this city and contains some | Mining company. 1500 acres of very fertile land, but in addition to this, there are vast marshes between it and the mainland. The island is divided into three farms of about equal portions, the Smith farm being on the lower extremity. Several years ago some of the hogs on the farm were neglected and allowed to inhabit the marshes. They bred there and withstanding the great loss to their progeny by drowning in high tides, the At first little attention was paid

their numbers and flerceness Mr. Smith has concluded to exterminate them, particularly as their depredations upon the crops are doing great damage. To prevent nocturnal visits to the farm Mr. Smith had water fences constructed, reaching a considerable distance from shore, but he found that it was only amusement for them to swim around these fences, even in a heavy seaway. It is generally believed that a hog can swim but a short distance until the contact of the front hoofs

against the boars in a few days and expects to get much sport from the hunt. A pack of dogs will be required to start the beasts from their lairs and bring them to the open, where they may be shot. This means the sacrifice of many of the dogs, as when cornered one of these boars will make short work of his antagonist. Some of the boars ar very large and have great tusks which would rip open a hound. The intention is to employ eight or ten men who are familiar with the marshes and haunts of the hogs. With these Mr. Smith and some of his friends, all armed with rifles and shotguns, will await the appearance of the hogs in Cape Fear railroad, with a capacity of the thoroughfares and shoot them they are roaming over hundreds of

WHITE SUPREMACY

CLUB ORGANIZATION

CHAIRMAN SIMMONS HAS COM-PLETED THE PLAN FOR FORM-ING THE CLUBS.

Raleigh, N. C., Feb. 22.-[Special.] Chairman Simmons has completed and vill send out this week to the various county chairmen the plan of organizaion of white supremacy clubs. Mr. Simmons says that these clubs will be organized throughout the state this year and by the middle of June he expects to see at least 2000 in full blast n North Carolina. He predicts that before the election there will be such coming together of the white people of North Carolina in support of the amendment as has not been seen in the state in any previous election.

The following is the preface of the plan of organization of these clubs: Our state is the only community in he world with a majority of white voters where it is seriously proposed to take the control of the public affairs of the state out of the hands of the white people and commit them to a po-litical combination composed chiefly of egroes and dominated almost entirely y negro influence. By the united effort of the good white

people of the state, irrespective of party, in 1898 the state was rescued rom negro rule and the amendment to he constitution to be voted upon by the people in August is submitted for the purpose of forever removing the danger of recurrence of negro ascendoncy in the state.

The necessity for the continued co-

peration of the white people of the state for self-protection is shown by the fact that the party which so reently negroized the state, and which for this and its other shortcomings was hurled from power in 1898, is again serfously asking the people to restore t to the control of the state, and actully indulges the hope that, with the aid of 120,000 negro votes solidly cast or it, it may succeed in regaining conrol of the government.
The purpose of the 'organization is

declared to be: To fully restore and to make permanent in North Carolina the supremacy of the white race; to promote individual effort in behalf of the earty and its candidates on the part of the voters, and to bring the head of the rganization in the counties and state ore closely and easily in touch with he township organizations and the inlividual party voter. Article 3 of the plan provides: Neith-

oaths, grips, signs, nor passwords shall be allowed, and meetings shall be pen. Any club may, if it so desires, adopt a badge, button, insignia, or uni-

The fifth section of the plan provides Every white man who desires white government in North Carolina, and is villing to use every practicable and honorable means to restore and pernanently establish white supremacy therein, and who proposes to support andidates pledged to affect that purpose, in the ensuing election, shall be ligible to membership of the township

The 14th section of the plan provides: The clubs, in their organized capacity, shall not seek to influence the nominawhile they were joined by a young col-ored boy, Clarence Dixon, and it was fined to building up and promoting the interests of the party generally, and the election of candidates, after the same have been regularly nominated. and inculcating among the people the recessity of establishing and maintain. ing white supremacy, as the only hope for the preservation of our civilization. The following is the concluding proision of the plan:

The clubs will be working bodies, not ess parade organizations. Important ork will be assigned to each member. This work will be such as he can perorm without loss of time from his own usiness. It will be such work as he an do, and no work will be assigned to any member to which he objects, and no work will be assigned to any member which is not honorable, legitmate and proper.

The Democratic party will appeal to the honor, character and highest, asplrations of the people, and it will condemn any except honorable methods of campaigning. The state committee believes that a

man can render the party better service by being a member than by re-maining outside. But no man's Democracy or fealty shall be brought into question because he does not join. The propriety of joining is left to each per-The state committee has a definite plan of campaign which it will put into ffect this year, and these clubs will be

COLORS SUITED

PALE BLONDES MAY WEAR BLACK, DARK RED, VIOLET, TWO BLUES AND A PINK.

A Parisian authority upon the subject of dress has just given a list of colors suited to different complexions. For brunettes with a creamy skin, and black or brown hair the list comprises ivory white, orange, very pale pink veiled with white lace or gauze, bright red and brilliant black in combination

with white or a color. Women with warm color, brown hair and a brownish complexion are allotted bright pinks, very pale turquoise blue, pinkish lilac, cream and especially such combi-nations of color as mastic and red gray and pink, brown and blue and, generally speaking, striped effects. For the golden brown locks, with a fair, pale skin, there are black, pinkish gray, periwinkle blue, navy blue, dark red, milk white and very dark green. Rosy olonds should wear golden brown, beige, mastic, ruby, bright violet, all whites, canary yellow and white. Pale onds are permitted dull black, dark red, all violets, sapphire blue, bright turquoise blue and very pale pink. A sketch is given which illustrates a

cwn of olive cloth and velvet. The ower skirt is of velvet, the tunic of cloth. The lower edge of the tunic is rimmed with bands of yellow, and an mbroidered motive decorates the side. The cloth corselet bodice is trimmed with bands of galloon and has large revers faced with velvet. The sleeves are also trimmed with galloon. The collar and chemisette are of cream moire. TO COMPLEXIONS GAIN FLESH

An Absolute Necessity in Many Cases.

A DECREASE IN WEIGHT FREQUENTLY INDICATES A DECLINE.

Our Modern Rebuilder, Vinol, Will Help You Do It.

THE WAY IT ACTS ON A DE-PLETED CONSTITUTION IS SIMPLY MARVELOUS.

Are you getting thin? If you are you had better watch yourself. Take Vinol. It will build you up quickly

A healthy man does not vary much from year to year in his weight. This is as it should be. Vinol enables the organs of the body to renew flesh, muscle tissue, bone structure, and attends to purifying the great vital cur rent of the human system, the blood. Vinol contains the active curative properties of Cod-Liver Oil in a highly concentrated state, and is the m

wonderful tonic that we have ever had anything to do with. Vinol acts upon the stomach in a beneficial way, enabling it to obtain for itself the necessary ingredients from the food that is taken into it to build up the pure healthy body and increase the weight. Mr. H. M. Stufell, who is a well-

known passenger trainman on the Boston and Maine Railroad, suffered, as many railroad men do, with kidney and other troubles. He writes as fol-"My kidneys troubled me a great deal, my bowels were very irregular, I

had great distress in my stomach, suf-fered with bilious headaches, had no appetite, could not sleep nights, and was losing flesh rapidly. I began to take Vinol, I am now on my third bottle, and it is doing wonders for me. My kidneys are better, my bowels are again regular, my stomach no longer troubles me, and no more headach and as for appetite, don't speak of it; I sleep like a top and have gained thirteen pounds. You can count on me always to recommend Vinol as the king of medicines." With many such testimonials as

the above coming before us, it is not strange that we endorse Vinol as strongly as we do. We unhesitatingly agree to return to any one who has taken Vinol and is not satisfied that it has accomplished all med with flowers and foliage and has that we claim for it every cent that an end of lace falling over the hair at they have paid us for this remedy.
