The principles of Jefferson are the definitions and axioms of free society. And yet they are denied and evaded with no small show of success. dashingly calls them "glittering generalities;"another bluntly calls them "self-evident lies." Others insidiously argue that they apply to "superior races." These expressions, differing in form, are identical in object and effect, in supplanting the principles of free government and restoring those of class, caste, and legitimacy. They would delight a convocation of crowned heads, plotting against the people. They are the vanguard, the miners and sappers of returning despotism. We must repulse them or they will subjugate us. This is a world of compensation, and he who would be no slave must consent to have no slave. Those who deny freedom to others, deserve it not themselves, and under a just God cannot long retain it.-From a letter by Abraham Lincoln, April 6, 1859.

DEMOCRATIC PRIMARIES TO-NIGHT AT 8 O'CLOCK.

The Citizen knows of no better object lesson for good roads than the long brick fence piled up on the Haywood street sidewalk, waiting to be placed where they will do most good, while the street is full of mud and holes. To a less degree the same condition obtains all over Buncombe county. The roads are full of mud and holes, while within easy reach is enough rock to macadamize every foot of road in the county so that the farmers could bring to Asheville with one horse more produce than they can now bring with two or three horses, to say nothing of the wear and tear of wagons and harness,

They say that small grain dealers are suffering from gross discrimination in freight charges to the Atlantic seaboard.

This is merely an appeal to J. P. Morgan, a private citizen vested with legal privilege, to stop the constant and iniquitous violation of the federal railway law, instead of appealing to the body created by congress to deal with such cases. It is an admission on the part of the members of the Chicago board of trade that the private citizen, propped by his legal privileges, is more powerful than the United States government

When will the people arise and abolish law-made special privileges?

The Citizen has received the first number of the Good Roads Bulletin, a monthly publication issued by the Good Roads Association of Asheville. The Bulletin is free to every resident of Buncombe county, and any one interested in good roads may get it regularly by sending his name to the "Good Roads Bulletin, Box 591, Asheville, N.
