### WINE OF CARDUI

**Woman Knows Woman.**

ZURICH, KAN., Jan. 31. I used Wine of Cardui for nervousness and weakness in the womb. After taking one bottle I was well again. I am a midwife and always recommend Wine of Cardui to my lady friends during pregnancy and after birth as a tonic. Every lady who takes it finds that it does even more than is claimed for it.

MRS. V. M. BOISVERT.

Nobody knows woman like woman. Men go to medical colleges, study books and listen to lectures. They learn indirectly of the diseases of women, but they are men and can never fully understand the ailments, the sufferings, the agonies of mothers, wives and sisters. A woman knows. Mrs. Boisvert knows. She has passed through the trials and tribulations of her sex. She has been near by when her sisters suffered. She has seen them relieved and cured with Wine of Cardui. Is it any wonder she recommends it? Is it any wonder that thousands of other women recommend it? They know. They have actual experience to prompt them. They spread the tidings from mouth to mouth, telling how Wine of Cardui helps young girls, helps the weak of all ages, helps and cures all womanly ills.

### PRESIDENT M'NAMEE IS A HARD WORKER

AND STATE FAIR COMMITTEE IS GIVING HIM ENTHUSIASTIC CO-OPERATION.

CHAIRMAN FOR A \$135,000 MILL IN CATAWBA—THE STATE GUARD ENCAMPMENTS.

Raleigh, N. C., March 2.—The new executive committee of the state agricultural society appointed by President Charles McNamee met today. He presided. The grounds are to be somewhat enlarged; the matter of the removal of the grandstand to the west side of the track is under consideration; many attractions are to be secured; the race program and the premium list for farm products will be issued very early next month; there are plans for athletics, a bench show of dogs, a flower show, etc.; also for an encampment of troops. President McNamee is a worker. The new committee has 30 members and will give him enthusiastic co-operation. Financially the fair is in fine shape, with some \$100,000 on the right side. The state charter for the E. L. Shuford Manufacturing company at Hickory. It will own and operate a cotton spinning and weaving mill on Henry's Fork of the Catawba river. The machinery will be brought from a mill in Maine. The capital is \$135,000 and the stockholders are E. L. Shuford and A. A. Shuford of Hickory; Mrs. Kate Shuford of Acworth, Ga.; H. J. Holbrook and E. W. Holbrook of Maine.

"Dr. Haire," who fakes the papers on smallpox news, deserves to take rank alongside the faker who some years ago sent out the news of the "Bloody Butchery at Bakersville."

S. A. L. EXCEPTIONS.

The corporation commission devoted today to a hearing of the Seaboard Air-Line's exceptions to its order requiring the continuous mileage be charged on freights over that line. The S. A. L. claims that it is not one system and not under the same management. The commission was entirely dissatisfied with the view and will in all probability not revoke its order.

The state superintendent of public instruction expected to go to Wilmington today to see about the accommodations for the North Carolina Teachers' assembly. He will not go until next Monday.

There are intimations that the encampments of the state guard this year will be held at Wrightsville, by regiments. The tents which were burned here this week will be replaced.

Senator Butler attacks the Democratic national convention for fixing the date of the convention as July 4. He sees in this an attempt to prevent co-operation between the Democrats, Populists and free silver Republicans on Bryan, but predicts that the convention in spite of these schemes will declare for harmonious co-operation. If his sayings and views are no more in line with national Democrats than they do with state ones he is wasting ink and words. It was the convention here today that "Butler can't put a ring in any Democratic nose."

Tomorrow the attorney-general will give to the press the criminal statistics for 1899. All the reports are now in his hands and he has verified his summary of them.

### CHEERING NEWS OF THE CONTEST

(Continued from First Page.)

on the Porto Rican tariff bill. Representative Atwater, the Populist of Richmond, has been very ill and it was thought that he had better not attend the house on Wednesday. However, he was present, and voted against the Porto Rican bill. Representative Bellamy of Wilmington was paired, but on each vote against the bill he was present and that, if he were not paired, he would vote against the bill. Mr. Bellamy is making an active record here, and is devoting himself not a little to the passage of needed bridge legislation for his section of the state. He has had a bill to maintain a bridge across Fishing creek, within the boundary lines of Edgecombe county, and has also secured legislation for a bridge across Lumber river.

A number of petitions have been forwarded to congress from the eastern section of North Carolina to secure a resident clerk of the United States Circuit and District courts at Charlotte. As is pretty well known in the Old North state, the western division of the state has a permanent clerk of the United States court, but that the court at Charlotte is not provided for.

Petitions have been presented from the members of the bar at Rutherfordton, Shelby and Monroe, and also from members of the Albemarle bar. All these go to the committee on judiciary of the house, where they will be considered. There is great pressure for legislation affecting the judicial districts before this committee, and it is no easy matter to get the bill on the passage of one bill would only be the precedent for letting down the bars and passing of many others. Nevertheless an effort will be made to relieve the situation at Charlotte, as it is a very urgent matter.

### WINE OF CARDUI

**"Housework is hard work without Gold Dust"**

Washing Feather Pillows

Feather Pillows need washing once a year. Choose a bright, sunny day; fill a large tub half full of water that is almost boiling hot; dissolve enough

### NUTS AS FOOD.

We have little idea in this country to what a considerable extent the nut is used for food in a few foreign lands. Nuts, when properly prepared, are very nutritious and fattening, containing certain food elements that make them a very desirable article of diet. With most people, however, they are hard to digest, and cause distress after eating.

The Sanitas Nut Food Co., at Washington avenue, Battle Creek, Mich., has discovered a unique process whereby nuts are manufactured into a most palatable and nutritious food, easy of digestion and assimilation by the weakest stomach.

Sanitas nut foods mark a new era in food elements, and are becoming the most popular prepared foods on the market.

One of these delicious new foods is Protose, a vegetable meat containing 35 per cent. more food elements than beef, a food that the dyspeptic and rheumatic can eat and relish with no fear of the ills that follow when one suffers from these diseases eat flesh foods. Six cents sent to the maker will secure a sample can free.
