They Raise Prices and Make Millionaires and Paupers.

**Build Up Extremes of Society** at Expense of Middle Class.

GEORGIA'S CHIEF EXECUTIVE SPEAKS PLAINLY BEFORE THE UNITED STATES IN-DUSTRIAL COMMISSION.

Atlanta, March 20.-Governor Cander appeared before the industrial com mission today. He was called to testiy regarding trusts. He said:

"Trusts raise prices and make full ionaires and paupers. They build up two extremes of society at the expense of the great middle class so necessary to the prosperity of the country. The evils that arise from them can be lessened by national legislation.

"The condition of the agricultural classes in this state is much better than it has been in some years, but there is still room for improvement." Jack J. Spalding, a prominent lawyer was summoned to testify on trusts, He said: "Trusts are inimical to the best interests of the country. The tariff is the most fruitful source of trusts,

Trusts are hurtful because they shuff out individual effort and prevent competition "I favor remedial legislation that would prevent trusts from sending their products across state lines, Trusts are formed on a dangerous ba-sis and if not controlled will precipi-tate one of the largest panies this ountry ever knew. He was followed by Judge George Hillyer, who confined himself to the question of municipal ownership.
