#### A Little Leaven

A subscriber writing to the Citizen to thank it for its efforts to secure for the country people good roads, better schools, and proper mail facilities, says:

"I know of nothing that will be greater help to us in every way than good mail facilities. As the city has all possible conveniences in the way of mail delivery and other methods of ted States Senate today, the Boston communication, it seems to me it's Traveler says: "We would rather see about time some thing was being done the whole Senate filled with fighting by the statesmen we send to Washington, for the remote and out-of-the-way country sections. Without the aid of tible, than to have one senator sit in good roads we cannot have good mail that body who owes his admission to facilities, without good mail facilities the profligate use of money." the cause of education cannot be expected to prosper as it otherwise would. When will our people recognize these had a lynching and Alabama burned a things and demand good roads of their legislators and good mails of their Conon earth can keep out good schools and about at a lively sort of rate, accommogood churches.

Well said, truly, and well within the facts. A few men in a community with, much to the people among whom they ripe North Carolina strawberries and live. They are the leaven that will finally leaven the whole lump and make Western North Carolina what the God of Nature intended it should be- at once the richest, the most beautiful, and most prosperous section of the South.

The proposed Summer Art School ought to attract a large number of students and teachers to Asheville during the months of June, July and August. Mr. Worrall, the director, has designed it especially for those who are taking a vacation from the school who disfranchises himself other than room, and it will give them an opportunity to spend the heated term in the mountains at small cost and in a most profitable way. For a studio he has selected one of the most beautiful spots in all this can't ourselves." country, and he has so planned his school as to make it a delightful artists' outing. It ought to be especially attractive to art teachers in Southern schools, who desire, while taking their vacation, to also pursue their art studies and associate with those engaged in the same sort of work.
