Rural Telephone Systems

delivery route. It brings the benefits and they are wise in keeping him in with the outside world and puts him a

munication that will be of even greater made without a journey of perhaps miles, and news of importance may be spread quickly over the section.

Local telephone systems have been | Democracy of Bun imbe with such in-struments as the Hon. Dillon Luther | cations of his language are that he north 57 degrees west would condemn any union movement stake in McFee and Reestablished in many sections of the and the Hop. Dan Reynolds they are and all union officers. In effect he leg-south 3 degrees we islated into existence a large number passing J. Patu off State, but nowhere, perhaps, is there mighty poor judges of wedges. a better and more extensive rural 'phone system than that in Union coun-

it and points out its benefits: There are in the county ten telephone exchanges and six of these are in the and the system is yet in its infancy in the only man left out of jail. the rural districts. At the present rate of increase the number of 'phones in | 100 per cent within the next twelve like to have on the bench. months and it is only a question of short time before this county will be a

The Asheville Citizen farmer will have a 'phone in his house. The telephone system, together with rural free delivery of mails, will revolutionize things in favor of country life, rendering it less isolated and more attractive. Even now all important news is transmitted to every part of the county as soon as it occurs. Two hours after President McKinley was shot at Buffalo, the affair was being talked about by our farmers through their neighboring exchanges. During the recent congressional convention at Monroe farmers sat in their homes and received the ballots as they were ast for the various candidates and many of them knew who the nominee was before the first applause from the friends of the successful candidate had

> Of course it takes no argument to show the advantages a community enjoys that possesses such a method of ommunication, but the Progressive Farmer well states some of the pleasures and profits that are thus added o country life. It says:

The telephone puts t e farmer in such with his neighbor and with the narkets; herein lies its (a)ue. Without oss of time in changing your clothes. hitching the horses, or iriving over he roads, the telephone, with all the peed of electricity, puts you into com unication with the person you seek. You can call up Merchant Brown and get his prices on butter or beef, or arn the price of cotton or tobacco at our nearest market; you can call up armer Jonts and ask him to send you field hand for the next day, or tell you the condition of your sick neigh-bor, your wife and children can arrange with neighbors for social visits. case of illness, the physician can be quickly summened, neighbors can be called to the rescue in case of hir or ccident; important news will reach wards the left. ou before getting stale-and there are a thousand and one other advantages at do not occur to us just now,
