An Old Fable Brought Up to Date

A countryman having some grain to carry to the mill, was bothered as to how to balance the load upon his horse's back. Finally he hit upon the expedient of placing a large stone in the other end of the sack. Thus did he balance matters to his great satisfaction—but to the doubling of the load on the lounkey.

PRITCHARD CHASED TO CAPITAL CITY

A Republican of prominence was here yesterday looking for Senator Pritchard, and seemed disappointed when told that the Senator had gone to Washington. The gentleman took the Senator's train, and is camping close on the Senator's trail. It was learned that a stiff fight is being made over the pastorage at Hay River, one faction desiring to suit the present incumbent, Mr. Bason, but J. S. McAdams, one of the old-line Republicans, in his official shoes, Republicans or some of them, are claiming that the present postmaster's Republicanism is of a very passive variety, and that he accomplished very little for the cause during the recent election.

CASTRO'S TRIUMPHANT ENTRY INTO CARACAS

Caracas, Nov. 10.—President Castro made a triumphant official entry into Caracas yesterday at the head of 22,000 troops, amidst the ringing of bells and a display of fireworks.

The fight of the armies of the revolutionists continues. Not even the Caracas revolutionary committee can explain the cause of the split among the leaders of the movement, or say what has become of about 10,000 soldiers who were under arms as late as November 1st.

The government officials believe that General Matos has gone in the direction of Tucucacas, a resort on the Caribbean sea, 25 miles from Puerto Cabello. Castro intends to re-occupy Carra, Baracoma, Ciudad Bolivar and Guayana immediately.

Saturday he sent fifteen hundred men under General Baptista to attack Carra.

Cleveland, Nov. 10.—This was the biggest day of the several which are being held in the city to mark the 100th anniversary of St. John's cathedral in this city. Pontifical mass was celebrated by Bishop Demetrius of Boston. The solemn was by Bishop McQuaid.

In the afternoon a parade of 10,000 Catholics representing several societies and the city's parishes occurred.

MITCHELL WOULD NOT ACCEPT PRESIDENCY

Says He Can Best Serve Labor in His Present Position

Sharon, Pa., Nov. 10.—The following telegram is self-explanatory: Wilkes-Barre, Pa., Nov. 10.—W. B. Wilson, Indianapolis, Ind., "Replying to your inquiry concerning the use of my name by the press as an aspirant to the presidency of the American Federation of Labor, I desire to say that I am in no way responsible for the circulation of these rumors. While it is the duty of every man to serve the laborer in any capacity in which he can be most useful, I firmly believe I can be of more real service in my present position. If any attempt is made to present my name for the presidency of the federation of labor at the New Orleans convention you will favor me by saying that under no circumstances would I accept election. (SIGNED) "JOHN MITCHELL."

GOV. WRIGHT ON THE PHILIPPINES

Honolulu, Nov. 10.—The transport Samar arrived here October 30, en route to San Francisco with General A. R. Chaffee and Vice-Governor Luke E. Wright of the Philippines, on board. The steamer passed through a terrible typhoon on the 27th, losing one of her boats and had several damaged and for a number of hours was in grave danger.

In an interview Governor Wright had the following to say of conditions in the Philippines: "The Philippines are almost everywhere and the people seem to be learning its advantages. The system of provincial and municipal government has worked well. During the past year there has not been a single defalcation and very few thefts. The government is strictly one of civil service."

"There is a degree of peace and safety in the Philippines now that was never reached under the Spanish rule. The Spaniards used to pay the brigands almost everywhere and the people seem to be learning its advantages. The system of provincial and municipal government has worked well. During the past year there has not been a single defalcation and very few thefts. The government is strictly one of civil service."

"How about anthracite?" the dealer was asked. "According to latest advices," he said, "it will be the first of next year before we will be able to get any anthracite and the chances are doubtful if we get any then. Anthracite coal will not be had now for either love or money. Coal is being used as a substitute and seems to be quite satisfactory except in hot climates."

It is evident that the price of coal is to be advanced when the first cold weather comes, provided that there is any decline in the price at the mines by that time and provided the coal situation is not better.

GENERAL WOOD HAS ARRIVED IN AMERICA

New York, Nov. 10.—Gen. Leonard Wood, who went over with General Corbin and Young to represent this country at the German war manoeuvres in the American line at the steamship St. Louis, has arrived in New York. He was accompanied by his family.

"I remained after General Corbin and General Young," said General Wood, "in order to visit Scotland with my family. The general and myself were treated very kindly both in Germany and in England. We were granted every facility for seeing the workings of the military system, and have seen many things which were not only interesting and instructive, but will be useful if adopted in this country."

General Wood was asked whether he is in favor of establishing the canteen in the army. He replied: "My opinion reports are on file. General Funston has come out strongly for the canteen, and I think we are all of one opinion on that subject."

Prince Henry of Prussia, who comes to represent the German emperor at the dedication of the New York chamber of commerce on Tuesday, was also a passenger on the St. Louis.

PEARSON APPEARS TO HAVE SLIM CHANCES

Not Likely That He Will Get Into the Collector's Office—Other Candidates

It was said today that D. C. Pearson of Morganton, secretary State Republican committee, would have about the same difficulty in getting into the collector's office here as the average camel would have going through the eye of a needle.

The barrier is the civil service, an institution that has caused so much trouble among the faithful. Not that Mr. Pearson could not stand the examination, but there is no examination to stand at present and the appointment is to be made without delay.

The particular vacancy is under the civil service regulations, as it is one of the two clerkships in the office, and there is talk of designating the place as a deputy collector, which permits Mr. Pearson to enter by a route that, while a little circuitous, would be safe. Mr. Pearson has many friends among his party associates in this part of the State since he has been associated with Senator Pritchard, and they are hoping he will find a way to circumvent the obstacles. He has the endorsement of Senator Pritchard.

And in the meantime, while the matter is hanging fire, the candidates for the place are increasing at a marvelous rate.

NEED OF NAVY IS MORE OFFICERS

Washington, Nov. 10.—The most crying need of the navy, according to the annual report of Admiral H. C. Taylor, chief of the bureau of navigation, is more officers to man the warships. The number of officers is now going down on mobilization of the fleet for winter manoeuvres in the West Indies.

They now face a situation that is almost everywhere and the people seem to be learning its advantages. The system of provincial and municipal government has worked well. During the past year there has not been a single defalcation and very few thefts. The government is strictly one of civil service."
