JEW PERISH AT THE HANDS OF ANGRY MOB

London Sends Reports of Renewed Horrors in the City of Odessa.

COSSACKS SAID TO HAVE LOST HEAVILY

Believed That Casualties Yesterday Amounted to 5000 Killed and Wounded.

(By Associated Press.) LONDON, Nov. 2.—A dispatch to the Evening Standard from Odessa, dated today, says:

"The city rings with the reports of rifles and revolvers and occasionally a volley is fired. Every house and tenement is looted and barred. The infantry patrols are doing their duty perfunctorily, declining to fire on the mobs unless they themselves are attacked. The Cossacks are said to have lost over a hundred men by bombs and shots from windows. Cossack patrols carry carbines and have their fingers on the triggers. The streets are absolutely unsafe for civilians.

"The casualties yesterday are believed to have amounted to 5,000 killed and wounded. In the Jewish quarters bodies still strew the streets and sidewalks. Jewish women and children were strangled and hacked to pieces in the streets where the mobs gained the upper hand. A Red Cross doctor tells me that the Klisnoff horrors were repeated a hundredfold. The students alone saved the city from wholesale sack and massacre. The military are now placing a hundred machine guns at various points. Twenty-six carts full of wounded have just passed.

"Gen. Kauboff was called to the balcony of the palace this morning by five thousand loyalists carrying imperial portraits and icons and singing the national hymn. The general earnestly entreated the assemblage to disperse and go home, but with ringing cheers the loyalists resumed marching through the streets.

"The sound of firing is again moving westward towards the Jewish quarters. The mobs swear they will not leave a single Jew alive."

SIX KILLED IN SEVASTAPOL RIOTS

SEVASTOPOL, Russia, Nov. 2.—Six persons were killed and sixty were wounded during the rioting yesterday. All the banks, schools and stores are closed and the houses throughout the city are boarded up.

The Black Sea squadron, with Vice-Admiral Bireff's pennant flying, arrived here today from the Turkish coast.

RAIN STOPS RIOTS AT ST PETERSBURG

(By Associated Press.) ST. PETERSBURG, Nov. 2.—A drenching downpour today was a more effective means of preventing a renewal of the demonstrations than the police and military patrols. The crowds had no desire to appear on the streets in the torrents of rain. The police have arrested three members of the strike committee. The committee sent a deputation to Count Witte, upon whose recommendation Gen. Trepoff ordered their release.

It is now definitely established that the whole student movement is practically conducted by a student organization which belongs to the social-democratic party. Much of the work has been directed from the headquarters at Berlin and Geneva. The organization includes students throughout Russia and they are acting in harmony with the leader in St. Petersburg, who has displayed remarkable genius as an organizer and director. He is a young man of 25, and an exceedingly clever student. He is a fine, but cool-headed speaker of much personal magnetism.

"GREEN GOODS" MAN CAUGHT BY INSPECTOR DRESSED AS A SOUTHERN FARMER

(By Associated Press.) NEW YORK, Nov. 2.—Disguised as a Southern farmer, a postoffice inspector today arrested, on a charge of fraudulent use of the United States mails, Charles Barry, said by the government authorities to be an old-time "green goods" man. Barry was arrested on a similar charge of a few months ago and was only recently released on \$2,500 bail. When arraigned on the second charge today he was remanded in default of \$10,000 bail.

IMPERIAL DECREE NOW IN COLD TYPE

Russia's Dawn of Freedom Appears to Have Been Frosted in Passage. Into Metal.

ST. PETERSBURG, Nov. 21, 12:10 P. M.—The imperial decree creating the cabinet ministers under the imperial manifesto granting a constitution to Russia, was gazetted this morning and has already aroused criticism as the machinery is extremely complicated and smacks of the old-fashioned bureaucratic regime. The relations of the cabinet to the council of the empire, or upper chamber, and the imperial duma, or popular chamber, are not clear because the powers of these bodies are yet to be defined under the manifesto. Two features are especially unsatisfactory.

While the cabinet has no authority to decide matters within the competency of the legislative bodies, no measure of "general importance" can be introduced into the chambers without the sanction of the cabinet, and another provision requires that when the cabinet is not unanimous the premier must go to the emperor and receive instructions. This would seem to make the final authority go back to the emperor.

SUPREME COURT MAY TAKE HAND

Royal Arcanum Members Ask Atty Gen. to Bring Rate Question to Court's Attention.

(By Associated Press.) BOSTON, Mass., Nov. 2.—Attorney General Parker of Massachusetts, has been asked to petition the Supreme court for an injunction restraining the Supreme council of the Royal Arcanum from enforcing the assessment rates adopted at the convention at Atlantic City. The question was brought before the Massachusetts officials because the Royal Arcanum was organized in this State in 1877. The petitioning members contend that the action of the Supreme council in adopting the new rates were unreasonable, unnecessary, inequitable, unjust and illegal.

ROYAL ARCANUM FUNDS ATTACHED

WILMINGTON, N. C., Nov. 2.—All the funds in the hands of two local councils of the Royal Arcanum here, was attached today by the sheriff upon a process from Mecklenburg county superior court, where a suit against the Supreme council of the order has been instituted by ex-Judge Armistead Burwell and others, in a protest against the recent increase of the insurance rates. Local officers of the Royal Arcanum decline to discuss the situation or give the amount of funds on hand.

DISMISSED AT NASHVILLE.

(By Associated Press.) NASHVILLE, Tenn., Nov. 2.—The injunction asked for to prevent the Supreme Council of the Royal Arcanum from putting into effect the rates adopted at the Atlantic City meeting, was denied by Federal Judge Clark today and the bill of the complainants dismissed. The court held that it was not sufficiently clear, under the law of Massachusetts, in which State the order was incorporated, that this plan of assessment and the effect on members, impairs the obligation of the contract, and until it did so appear, obviously this court could not interfere.

The injunction was asked for by members of the Nashville Council of the Royal Arcanum.

DOCTORS BUSY.

(By Associated Press.) MINSK, Russia, Nov. 2.—The doctors of the Jewish hospital worked all night long on the wounded brought in from the railroad station where the troops fired volleys at the demonstrators, killing many and wounding great numbers. Funerals are of half hourly occurrence, the bodies being conveyed in wagons. Already fifty-four persons have been interred in the Jewish cemetery.

DID COLLEGE BOYS MURDER A STUDENT?

Blood Stained Cotton Is Found Buried Beneath Culvert By the Authorities.

MAY HAVE BEEN TIED ON THE TRACKS

Attempt Was Made By Unknown Correspondent to Frighten the Coroner.

(By Associated Press.) MOUNT VERNON, O., Nov. 2.—Buried beneath a culvert, 200 feet from the spot where Stuart Pierson, the Kenyon college student was ground to death by a train, the authorities have found three lengths of blood stained rope and a wad of absorbent cotton, also saturated with blood.

County Prosecutor Stillwell expresses the firm belief that the boy was chloroformed, the cotton saturated, bound across his face and that that he was then tied across the tracks as a part of his initiation into a college fraternity. The authorities believe that the cotton was removed later and the boy left stupefied. On these grounds the prosecutor will carry the case to the grand jury on November 13.

THREATEN THE CORONER. Prosecutor Stillwell stated today that several persons are under surveillance in connection with the case and that they may be taken into custody before the conclusion of the inquest.

"If you do not cease in your prosecution of Kenyon college you will hear from us and we will surely make it warm for you."

(Signed.)

"FIVE MEMBERS OF THE KENYON ALUMNI."

This, written on the stationery of the Hotel Donovan, was received from Delaware by Coroner Scarborough today. It concludes a five-page letter, demanding that the coroner cease his investigation of the death of Stuart Pierson. No names were signed, but no apparent attempt was made to disguise the handwriting. The coroner will pay no attention to the communication. Other vague threats have been made, it is claimed, against the coroner.

JEROME'S NAME NOT ON REPUBLICAN TICKET

Supreme Court of New York Refuses to Allow His Name to Go On Party Ballot.

NEW YORK, Nov. 2.—The appellate division of the New York State Supreme court today handed down a decision refusing to grant an application for a mandamus to compel the New York city board of elections to place the name of William T. Jerome on the official ballot as a nominee of the Republican party for district attorney.

The application was made by William Halpin, chairman of the Republican county committee. Mr. Jerome's name will be on the ballot as an independent nominee.

The opinion was based on the failure of Charles A. Flammer, the candidate chosen by the Republican nominating convention, to give his declination to the board of elections within the prescribed time limit. Mr. Flammer has resigned to give place to Mr. Jerome on the Republican ticket.

REVOLUTION MAY SPREAD TO EUROPE

Vienna Scene of Grave Social Disturbances That Threaten to Grow Much Worse.

(By Associated Press.) VIENNA, Nov. 2.—Grave disorders, in which eighty persons were injured, occurred tonight as the result of a great socialist meeting in behalf of universal suffrage. The orators used fiery language, declaring that millions of workers were ready to follow the Russian example. The crowds outside the hall were so great that traffic was stopped for three hours.

After further harangues outside the building the crowd marched through the streets shouting for the revolution. Near the Hofburg the police forced the demonstrators to enter the side streets, causing numerous conflicts in which several persons were seriously injured, the wild scenes lasting half an hour.

Late at night the turbulence was renewed in many parts of the city and more persons were hurt. It is alleged that the socialists stoned the police, compelling them to draw their swords, and it is said that the police acted with brutal violence. The masses resisted angrily and a cafe on Ringstrasse was almost demolished. There were no policemen among the injured.

CONDITION OF ENGINEERING IS VERY BAD

Engineer-in-Chief Says Ships Would Be In Bad Fix In Case of War.

AMATEURS ARE NOW IN CHARGE OF BOATS

Another Great Deficiency in Naval Equipment is Brought to Light.

(By Associated Press.) WASHINGTON, Nov. 2.—Rear-Admiral Charles Rae, engineer-in-chief of the United States navy, in his annual report calls attention "to the critical condition of engineering in the navy," and points to the explosion on the gunboat Bennington, in San Diego harbor, which he says, most forcibly emphasizes the necessity of serious and immediate attention.

The report says: "Were the country suddenly plunged into war the navy would find itself in no condition to win battles. As necessary as good marksmanship is the ability to carry our guns to the firing line and to keep them there amidst the havoc created by modern ordnance, and this will never be done with amateurs in charge of the machinery."

For the navy yard at Norfolk estimates are requested to be included by the bureau of yards and docks for the completion of changes in existing buildings and for the construction of a storage building. An estimate of \$40,000 is made for new tools for the engineer buildings at that yard. For the navy yard at Charleston, S. C., the bureau of yards and docks has been requested to include estimates for a boiler shop, pattern shop and administration building for the engineer bureau.

It is proposed, the report recites, to remove the machine shop from Port Royal to the Charleston yard and utilize it to the best advantage. No appropriation has been made as yet for tools or machinery plant for that yard, which it is estimated will cost \$250,000. An estimate of \$100,000 has been submitted for this year to equip the shop with necessary tools. The most urgent need at Key West is stated to be a

SOUTHERN TRIP OF 'GREAT IMPORTANCE

President of New York Chamber of Commerce Tells of President's Jaunt Through Dixie.

(By Associated Press.)

NEW YORK, Nov. 2.—The importance of President Roosevelt's recent trip to the South was today commented on by Morris K. Jessup, president of the New York Chamber of Commerce at a meeting of that body. He said that this trip had done more to cement the kindly relations between the North and South than anything else that has happened since the close of the war.

Mr. Jessup asked the chamber of commerce to send resolutions of commendation to the president and was himself appointed to communicate the views of the chamber on this subject to the president.

CLYDE MOTTER IS BURIED AT MARION

Former Advertising Manager of Citizen Laid to Rest at His Old Home in Indiana.

(Special to The Citizen.)

MARION, Ind., Nov. 2.—The funeral of Clyde Motter, who died suddenly at Asheville, N. C., Monday morning, was held here this afternoon from the residence of his parents on First and Race streets. The funeral was largely attended and the floral designs, sent by relatives and friends, were unusually beautiful. From the Asheville Citizen and staff there came a broken wheel with the word "thirty" (a newspaper term signifying the last call) in the center. The Marion Leader, with which paper the deceased was formerly connected, covered the entire caasket with flowers. The pallbearers consisted of six newspaper men representing The Leader, The Marion Chronicle and The Marion News-Tribune.

ROYAL VISITOR HAS A BUSY-DAY

Review of Naval Academy Students Feature of Second Day's Entertainment.

(By Associated Press.)

ANNAPOLIS, Md., Nov. 2.—"The President!" "The King!" Glasses clinked with a ring of good fellowship as their healths were drunk by their faithful officers standing at the dinner of Admiral Evans on board the Mayflower tonight, to Admiral Prince Louis and the officers of his squadron. His highness proposed the health of President and Admiral Evans the health of King Edward.

The dinner tonight was the concluding feature of the second day of Prince Louis' visit to America. The official program of entertainment did not begin until the afternoon. The morning was given over to an informal exchange of visits between the commanding and junior officers of the several squadrons. Perfect weather prevailed and the sea was smooth. The spectacular feature of the day was the review of the brigade of midshipmen on the parade ground this afternoon, followed by dress parade. Then came the reception of Admiral Sands for the American and British officers, a brilliant affair, after which the prince returned to his flagship to shift into evening dress for Admiral Evans' dinner.

His highness found time between the dress parade and the reception to return the call of the mayor of Annapolis, who called on board the Drake yesterday evening to offer the admiral prince the freedom of Maryland's capital.

By the President,
ELIHU ROOT,
Secretary of State.

KILLED BY NEGRO.

(By Associated Press.) EUTAW, Ala., Nov. 2.—News has just reached here of the killing of Fred A. Koehn, of Eutaw, Ia., by a negro at Fishhook, in this county, from whom he was trying to collect a small debt. There were no eye-witnesses to the crime and the negro made his escape immediately.

EXPERT BALOONIST FALLS DURING AN EXHIBITION, MAY HAVE BEEN SUICIDE

(By Associated Press.)

COLUMBIA, S. C., Nov. 2.—A specialist to the State from Anderson, S. C., says: Mrs. Maude Broadwick, wife of Chas. Broadwick, a balloonist, with Riddles Southern Carnival company, fell from a balloon here this afternoon and was instantly killed. Mrs. Broadwick was an experienced balloonist herself and had made two ascensions while here, but was not to go up this evening. Her husband was to make the ascension and parachute drop, and she was standing by to give the signal to cut the ropes when all was ready. She gave the signal all right and when the balloon shot up into the air she was seen hanging to the ropes between the balloon and the parachute. After she had reached a height of 200 or 300 feet she dropped to the earth striking on the hard ground and was instantly killed. The balloon went straight up into the air and she fell within a few feet of the spot from where she started. A crowd of persons numbering nearly 1,000 witnessed the accident. Broadwick, who was fastened into the parachute with a belt, went on some distance higher and then cut loose and descended in safety. Most of the carnival people are inclined to the opinion that Mrs. Broadwick's death was due to suicide rather than an accident. They say Broadwick and his wife have been quarreling for a week or more, and this, together with the fact that she was an experienced aeronaut and knew all the ropes about the balloon, liable to entangle a person, led them to the suicide theory. Broadwick admits that he and his wife had quarreled but says that they had made up, as they had done before. He says though that she knew all about balloons and that he does not see how she could have become accidentally entangled in the ropes. He had been in the balloon business fifteen years and his wife had been in the business eight years and had become quite an expert. He says that as she fell he called to her to catch her but that she could not do so. He thinks it was an accident and not suicide.
