## ALL CIVILIZED WORLD RESPONDING TO SILENT APPEAL OF SUFFERERS

Millions Are Being Contributed To Aid San Francisco Refugees

EVEN FOREIGN CITIES ARE SENDING QUOTA

New York's Gifts Bid Fair To Exceed Even Federal Contribution.

(By Associated Press.) NEW YORK, April 21.—The volume of appeals from San Francisco has been heard throughout the civilized world. From every city and town in this country, from European capitals and from Far Eastern communities comes news that all humanity is expressing its sympathy in also offering every material assistance.

From the incomplete figures of the contributions which have been made it is estimated tonight that the San Francisco fund is rapidly nearing the total of \$10,000,000, and will have passed that figure by Monday when the United States Congress, it is announced, will add \$1,000,000 to the \$1,000,000 appropriated from the treasury at Washington. In the burst of generous contributions, New York City ranks next to the government itself, and bids fair to far exceed the federal contribution.

Big Amounts. Tonight the New York fund amounted to be approximately \$2,500,000, with contributions coming in fast.

The state of Massachusetts has undertaken to raise \$1,000,000, and with Boston's generous help is well on the way to the goal. Chicago's fund is approaching \$1,000,000, and promises to go beyond that sum. Philadelphia will send \$500,000.

From Other Lands. From London, Paris, Berlin and wherever Americans are congregated, a generous inflow of gold is reported. Wholly foreign contributions, while excepted according to the precedent, accepted according to the precedent established by the President yesterday in declining a gift of \$25,000 from a German steamship line. America, though touched by the evidences of foreign generosity, feels able to care for its own.

Unaccounted thousands are sending their contributions and the grand total of the relief fund will probably never be known. The New York chamber of commerce today forwarded to San Francisco \$500,000. Chief among the individual contributions have been those of E. H. Harriman, \$200,000; and Andrew Carnegie, William Waldorf Astor, J. D. Rockefeller and the Standard Oil company, who gave \$100,000 each.

London Americans. A meeting of Americans in London was called and a large fund immediately subscribed among the other notable contributions have been Ludwig Thalman & Co., Kuhn, Loeb & Co., and W. K. Vanderbilt, each \$25,000.

It is estimated that the contributions of the New York Stock Exchange will aggregate \$250,000. But most remarkable is the way in which small contributions have poured into the treasury of the organizations, formed to send aid to the stricken city. Nor is the work of raising relief funds confined to the large cities. From every section, every state, comes the news of contributions made by small towns.

Not large in themselves, their aggregate will be enormous. Pittsburgh has given \$100,000. Commercial men of Cleveland \$100,000. St. Louis \$200,000. Sacramento \$100,000, and Seattle \$50,000. Throughout the country theatrical performances are being planned, the proceeds to go to the relief funds.

## AMERICANS ARE IN GOOD SHAPE

(By Associated Press.) ATHENS, GREECE, April 21.—Foreign athletes are arriving here in large numbers. Today's arrivals include the Hungarians, Germans, Danes, Swedes, Norwegians, Czechs, and Austrians.

As a result of the trial performances the most prevalent opinion is that the Americans and British still carry off most of the prizes.

The Americans are doing much work in preparation for the opening of the games. All the men are in fair condition except Ell. Parsons, of the New York Athletic Club, Fay E. Moulton, of Kansas City Athletic Association, who is suffering from a slight attack of tonsillitis, and James S. Mitchell and H. L. Hillman, Jr., of New York Athletic Club, who are still suffering from the injuries received aboard ship.

## MILAN EXPOSITION OPENED.

(Citizen's Special Service.) MILAN, April 21.—The Milan exposition, in honor of the completion of the Sempion tunnel, was formally opened today by King Victor Emmanuel. The city was in festal and the event was made the occasion for brilliant ceremonies. The exhibition, which will continue through the summer, is the most pretentious affair ever undertaken in Italy. The exhibits comprise not only the latest improvements in machinery, transportation, industries and the application of science to the needs of trade, but also devotes a large amount of space to exhibits of a sociological character. Special attention is given to the problem of housing factory employees and improving their social condition. For the first time in the history of international exhibitions, the problem of aerial navigation is seriously treated, and the application of motive power to land and marine navigation includes the most thorough exhibits of pleasure and industrial automobiles and of motor boats yet shown.

France, Germany, Austria, Switzerland, Great Britain, Japan, Turkey, Belgium and several South American countries are represented among the exhibitors. Of the great nations of the world, the United States alone is without adequate representation. The failure of the United States to accept the invitation to take part has caused considerable disappointment and surprise, especially in view of Italy's liberality in her participation in both the Chicago and St. Louis expositions.

## THOUSANDS OF HOMELESS SEEK REFUGE IN OAKLAND DRIVEN FROM FRISCO WATER FRONT

(By Associated Press.) OAKLAND, Cal., April 21.—Driven from the San Francisco water front which was also swept away by fire last night, and early this morning, thousands of San Francisco's homeless sought refuge in this city today. The survivors crossed the bay in jerry boats, logs and launches and were met at the Oakland wharves by large relief committees, which at once set about the task of relieving the needy and suffering. The seriously injured were at once sent to the hastily improvised hospitals, and food was provided for hundreds of hungry persons. Rigid inspections were made for contagious diseases and a number of persons were placed in quarantine. Along the principal streets of Oakland there was a picturesque pilgrimage of former house-holders who dragged or carried the meagre effects they had been able to save. The survivors who could not be cared for in Oakland made an exodus to Berkeley and other surrounding cities where relief committees are actively at work. Utter despair was pictured on many faces which showed the effects of sleepless days and nights and the want of proper food.

Our old friends—the Summer Boarder Family—are in sight once more.
