

WILLIAM R. HEARST SAYS THERE IS NO ARISTOCRACY IN THE UNITED STATES

**Mayorality Candidate Make
Mayorality candidate makes
Jamestown.**

**LABOR UNIONS ARE
VALUABLE TO ALL.**

**Man Who Digs, Says Mr.
Hearst, Is Worthy of
His Wages.**

(By Associated Press.)
NORFOLK, Va., Sept. 2.—William Randolph Hearst of New York and Samuel Gompers, president of the American Federation of Labor, were the principal speakers at today's great Labor day celebration at the Jamestown exposition. The weather was clear and thousands of people from all parts of Tidewater Virginia attended.

Following an address of welcome by President Tucker of the exposition, Mr. Hearst was introduced and given an ovation. Mr. Hearst said:

My friends: Labor Day should rank with the Fourth of July as a characteristic American holiday. The Fourth of July commemorates the means by which we gained our independence as a nation, and Labor Day commemorates the means by which we have made our nation the most powerful, the most progressive, the most prosperous of any in the world.

Some nations have grown great by conquering their weaker neighbors. Others have grown rich by despoiling dependent colonies, but this nation has grown to be the greatest and richest of all through the peaceful development of its own resources; by the honest labor of its citizens and in this country labor is universal and is universally honored and appreciated. In this country there is no working class, but every man worthy of the name is a working man. In this country there is no class of men that work with their hands while another class work with their brains. In America all men work with their brains, and when we say that American laborers are the most efficient on earth, we do not mean that their hands are different from those of other men, but that their minds are clearer, quicker and more effective than those of other men.

In this country the mechanics work, the farmers work, the clerks work, the business men work and even the millionaires work. We have no aristocracy save that of intellect and industry, and the proudest title of our most successful millionaire is "Captain of Industry."

In a country where all men are working men there should be greater community of interest, better mutual understanding and sympathy. It is in behalf of this better understanding that I speak today. I have no patience with the prejudices which exist between alleged classes when the classes themselves do not really exist. There is no reason for hostility between employer and employe, between capitalist and wage-earner. Capital is but the accumulation of wealth which employer and employe create together.

Wages are but the division of profits. Both employer and employe are entitled to their share of the profits, and as long as the division is just and equitable there is no occasion for conflict. If the division is not just, it can always be made so by arbitration, and there is still no occasion for conflict.

Let us all regard one another as fellow working men and treat one another with consideration and tolerance. Let us all labor harmoniously to create wealth in order that there may be the greatest possible amount to be justly divided.

A condition of class hatred such as has developed in Colorado is a curse to this country.

I hope that such a condition has been averted in San Francisco—from which city I have just come—but much has been said in the East to misrepresent the union working men of San Francisco. To set them right, to do them justice, it is only necessary

MANSFIELD'S BODY VIEWED BY MANY

**Remains of Famous Actor
Lay in State in the Death
Chamber at His Home.**

(By Associated Press.)
NEW LONDON, Ct., Sept. 1.—All day Sunday the body of Richard Mansfield lay in a coffin in the room in which the actor died. Tomorrow the funeral services will be held at 12 o'clock. Rev. Alfred Poole Grant, rector of St. James Episcopal church, will conduct the service. By request there will be no address. The choir of St. James church will sing the hymn, "Lead Kindly Light," following a brief period during which the features of the dead actor which the features of the assemblage, a funeral procession will be formed for the burial place in Gardiner cemetery, which is across the street from the Mansfield home. The honorary pall bearers will be Commander John Parker, U. S. N., Webster Jewett, Robert Appleton, B. Stevens, Paul Willstach, Colonel A. C. Tyler, Roland P. Keasby and Dr. William P. Appleton.

BLACK HUNDREDS INDULGE IN RIOTING

**Mob Indulged in Excuses—
Killed, Many Injured, In-
vaded Cemetery.**

(By Associated Press.)
ODESSA, Sept. 2.—The Black Hundreds began rioting here this afternoon, alleging that the Jews were responsible for the explosion of the bomb in the courtyard of the Central police station here Saturday, resulting in the deaths of an artillery officer and four policemen. The rioters ran through the streets inhabited by Jews, firing promiscuously right and left. The men were killed and from fifty to sixty were wounded.

KNOXVILLE OFFICER KILLS PRISONER

**But This One Did Not Fire
Until He Had Been Badly
Cut Several Times.**

KNOXVILLE, TENN., September 2.—At Jellico, Ky., tonight Chief of Police, James Ayers shot and killed Sampson Bolton, whom he was trying to arrest. Not until he had been cut three or four times did the officer fire. Bolton served fourteen years on the police force of Jellico, Ky., being succeeded one year ago by Ayers.

DR. STROUSE CLOSES CHATAUQUA IN HENDERSONVILLE AND GETS CUP

HENDERSONVILLE, Sept. 2.—The chatauqua conducted by Dr. C. B. Strouse closed in this city tonight. The closing was featured by the presentation of a silver loving cup to Dr. Strouse. The presentation being made by Colonel Pickens. The chatauqua has been a most successful one and various speakers including "Bob" Taylor, John Temple Graves, Spurgeon and Broughton have spoken in high terms of Dr. Strouse.

CAPTURED.

CANTON TURNS OUT IN FORCE FOR LABOR DAY

**Mill City Was Crowded
With Sightseers Yes-
terday.**

GRAND PARADE WAS THE FEATURE

**Athletic Sports, Baseball,
Wrestling and Other
Things Provided.**

(Special to The Citizen.)
CANTON, N. C., September 2.—Today has been a great one in the history of Canton. There has been the greatest crowd here today that has ever assembled to witness the celebration of Labor Day. The country swam with its sweethearts, women with crying babies, fakers with all kinds of games, wrestling matches, baseball games, parade, and the hot weather have all contributed their part to the enjoyment of the day.

The grand parade was the first thing of the celebration, by the employees of the Champion Fibre Company, and there were about 400 men in line, in full uniform.

The line of parade and the uniforms were as follows:

At the head were officers, Lyerly and Jamison, and Battalion Adjutant A. W. Freeman, of the North Carolina Guard, all of whom were mounted. Then in one carriage was General Manager Harris, and the engineering corps, consisting of Thomas Judge, D. J. Kerr, J. S. Adams, Joe Clark, L. N. Fowler and James E. Powers. The next carriage contained Superintendent Carl Jantz, of the Sulphite Mill, and his family. The First Regiment Band of Asheville, followed, rendering splendid music.

The next in line were the brick masons, in white uniforms throughout, followed by the carpenters and other joiners, dressed in blue trousers and white striped jackets. They carried a large banner with their union number printed on it. The electricians followed the carpenters and were dressed in khaki uniforms, with soft white hats and white ties. These were followed by the iron workers, who were attired in blue overalls. After them came a float of the Black-Clawson Company, who are supplying the paper rolls for the Fibre Company.

LABOR DAY IN IN 'FRISCO IS MARKED BY RIOT

**Employees of United Rail-
roads Shoot Two Men
in Parade.**

TWENTY POLICEMEN TO MAKE ARRESTS

**Officers of The Law Had
One Busy Time With
The Crowd.**

SAN FRANCISCO, September 2.—The labor union parade today resulted in the shooting of two men by employees of the united railroads. The riot started at the Ferry, where it is stated a Sutter street car broke through the line of the parade. A mob of labor union men followed the car and at the junction of Sutter street the mobbers attacked the car. The motorman, seeing that his life was in danger, opened fire and wounded one of his assailants in the leg. A block further up an inspector was attacked by the mob. He drew a pistol and wounded a union man. The men who did the shooting were arrested.

The labor union men who were in the parade evidently thought that they had the right of way over the streets of San Francisco for when the cars of the United Railroads attempted to break through the procession there was trouble.

BIG PARADE IN CHARLESTON, S. C.

(By Associated Press.)
CHARLESTON, S. C., Sept. 2.—Labor day was observed in Charleston by a general suspension of business, a parade by the colored unions and a picnic by the white unions under the auspices of the trades and labor faction. The parade was creditable and was viewed by a large crowd on the streets. The picnic at the Schoutzenplatz was well attended. Mayor Ebert made an address, in which he told the unions of some complaints heard and urged them to keep the organizations what they were claimed to be and make them allies and not enemies of capital and industry.

Next on the program came the field events and the winners are as follows:

100-yard dash, Will Coman.
Tag-of-war, painters vs. pipe fitters, painters won.
Three-legged race, C. V. Cannon and Jack Overend.
Broad jump, L. M. Clawson, first; Hilderbrand, second.
High jump, Joe Mann, 4 feet six inches.
Potato race, Will Coman.
Shot put, Jack Overend.
Wheelbarrow race, Cannon and Overend.
Relay race, Braid, Coman, Cripps, first; Cannon, Smith, Overend, second.
Fat man's race, L. Drake, first; J. A. Case, second.
Wrestling Match.
The wrestling match between Chas. A. Mooney, the local wrestler in the employment of the Fibre Company, and Louis Winnick, the champion of Tennessee, was won by Winnick. He succeeded in throwing Mooney in the first round after 23 minutes, and the second round in 17-23 minutes. Mooney, who is a long slim fellow, proved a hard match for Winnick, and if he had been in practice he would have probably made the match much closer. Mooney made some clever escapes from getting his shoulders held on the mat and was much applauded by the large crowd.

ASHEVILLE OUT IN FORCE FOR THE HOLIDAY

**Labor Day In This City Fea-
tured With Large
Crowds.**

RACES AND GAMES AT RIVERSIDE

**Street Car Company Hand-
les Thousands Without A
Single Mishap.**

There was a great outpouring of union labor at Riverside park yesterday in celebration of Labor day. By 2 o'clock the park was crowded by a pleasant and well-dressed throng, bent on enjoyment. All the amusements provided were liberally patronized, the floor of the skating rink during the day and evening being covered to it scarcely by those proficient in that sport. The old reliable merry-go-round proved an attraction as usual for the little ones, while the thud of falling pins and rolling balls in the bowling alleys never ceased during the greater part of the day and evening being quite much interested and the different events were well contested and excited keen competition. A very large crowd witnessed the baseball match.

Willie Was There.
Willie Goff was a central feature as "barker." "Two shots for five; if you hit a baby you get a cigar." As a convincing proof that the brand of cigars was beyond question, Willie kept himself liberally supplied from the stock on hand.

There is much credit due the Asheville street railway for the excellent car service maintained by it and from the park during the day. The company maintained its well earned reputation for efficient management and skillful handling of the immense number of passengers who yesterday patronized the cars. Not a single accident has been reported, notwithstanding the exceedingly heavy travel.

The day was an ideal one as far as the weather was concerned. Bright and sunny all day and pleasantly cool in the evening. The rain held off until midnight, when a heavy shower occurred.

The crowd assembled at Riverside park was probably one of the most orderly and well-behaved that has ever assembled at that resort; but one great occurrence during the day, a man being picked up for disorderly conduct just outside the park.

JUDGE H.A. GUDGER, FRESH FROM PANAMA, TELLS OF CONDITIONS EXISTING

DISASTROUS FIRE; FACTORY BURNS

**Originated in Mysterious
Explosion. Heavy Finan-
cial Loss Results.**

(By Associated Press.)
NEW YORK, Sept. 1.—Fire originating in a mysterious explosion today destroyed the interior of the five-story factory of Hermann Jacob & Sons on East One Hundred and Second street. The firm manufactures leggings and gaiters, and a member of the firm stated tonight that there were stocks of goods in the building worth at least \$100,000. In addition to this, all the machinery in the building was destroyed. The explosion is a mystery, as no chemicals were kept in the building.

NO PUBLIC OFFICE FOR JUDGE PARKER

**Says Never Again. Once
Was Enough for Him, for
he is comparatively happy**

(By Associated Press.)
PORTLAND, Me., Sept. 2.—In an interview given out tonight Judge Parker of New York declared he has no desire ever again to hold public office and that in this respect his views have not changed since his defeat for the presidency in 1904.

"I saw in a Boston newspaper of this morning that Governor Campbell of Ohio said he had verified in New York the fact that I am possessed of the conviction that I shall again be nominated for the presidency. Nevertheless, I do not believe that he ever said so. In any event, he did not verify any such fact, nor could he, for it is not true.

"I do not desire ever again to hold public office. I stated my position on that subject the day after the election in 1904, and I have not changed my mind. I shall, however, be interested in any questions affecting the public welfare and I propose to express my views whenever it seems to me desirable. And it may as well be understood that I shall not be deterred in the slightest degree from doing so by misrepresentations."

DOCK LABORERS OUT ON STRIKE

**Resort to Violence—Rioters
Take Possession of Steam-
er—Take to Woods.**

(By Associated Press.)
ANTWERP, Sept. 2.—The lockout of the dock laborers today caused the porters and others to strike in sympathy and resort to violence. The rioters broke into the grain stores, houses, broke up the tools, carried on the English strike-breakers, threw a steam crane overboard and wrecked a lot of machinery.

The rioters boarded the British steamer Agenora, destroyed her freighting equipments and seriously injured one of her engineers. They also took possession of the British steamer Sydney. The violence of the dock laborers and their sympathizers so terrified the men at work on board a number of vessels that they fled to the shore.

Says Reports of Bad Climate And Lawlessness Ex- aggerated.

BELIEVES IN THE MOSQUITO THEORY

**Morality Is on a High Plane
and Gambling is
Scarce.**

If the physical condition of Judge H. A. Gudger of the supreme court of the Isthmus of Panama canal zone, is any criterion, the oft-quoted assertion that the climate on the Isthmus is very debilitating, must be entirely erroneous. With his physical condition as strong corroborative evidence, the judge asserts that the Isthmus is blessed with a fine salubrious climate, which varies very little, no extreme heat, no extreme cold, the average temperature being about 85 all the year round. There has not been a case of yellow fever reported to the health authorities on the canal zone this year. In this connection Judge Gudger announced himself as a convert to the mosquito fever breeding theory, having noted from his own personal observation that yellow fever is no longer prevalent in sections of the canal zone where the mosquito has been practically exterminated.

No Disturbances.
When questioned in regard to official bickering and labor troubles on the zone, the judge scathingly remarked that those residing in the United States were apparently in a better position to obtain information on those points than those on the spot and as a not unusual thing the first knowledge of trouble is obtained from the New York press information which rarely contains any thing when investigation and frequently produces much amusement. He stated that ex-Senator Blackburn, now head of the civil administration, is popular on the canal zone and doing especially fine work. The laws are rigidly enforced and Judge Gudger regards the morality of the zone as equal to many communities in the state of North Carolina. No signs of ill repute exist, and gambling is practically unknown, the law being very stringent, making gambling a penitentiary offense. When the mixed population now employs on canal construction is considered, the percentage of crime is very small indeed.

Judicial Administration.
The judicial administration consists of three supreme court judges. The Isthmus is divided into three circuits, to each of which a judge is assigned. Judge Gudger having the center circuit, Judge Collins the Atlantic and Judge Durand the Pacific circuit. When a case is appealed from an individual judge it is decided by the other two judges. The first man to be convicted under this system was sentenced by Judge Gudger to be hanged September 13, case was appealed and Judge Gudger sustained. A writ of error has now been sued out for appeal to the supreme court of the United States. This writ was granted. The prisoner asked to be tried by a jury of twelve men, this being refused him as jury trials are not authorized on the canal zone. The facts and law being decided by the trial judge alone.

Colonel Goehls, the present head of construction work on the canal, is regarded by Judge Gudger as a most efficient and energetic man and very popular with his subordinates. The work is being rapidly pushed and good headway is being made. The sanitary conditions are excellent and constantly being improved. The digging is being done by Jamaican negroes and Spaniards. These the what is known as the "Silver roll," while the "Gold roll" is composed entirely of whites, who perform the skilled labor and clerical work. About 30,000 men in all are employed. The capital of the canal zone is Ancon, outside of Panama, here the headquarters are located.

Y. M. C. A. Buildings.
Fine large Y. M. C. A. buildings have been built by the government at Culebra, Empire, Gorgona and Cristobal and turned over to the associations at those cities. These buildings are strictly up-to-date, and were equipped with gymnasiums, libraries, dormitories, baths, auditoriums and
